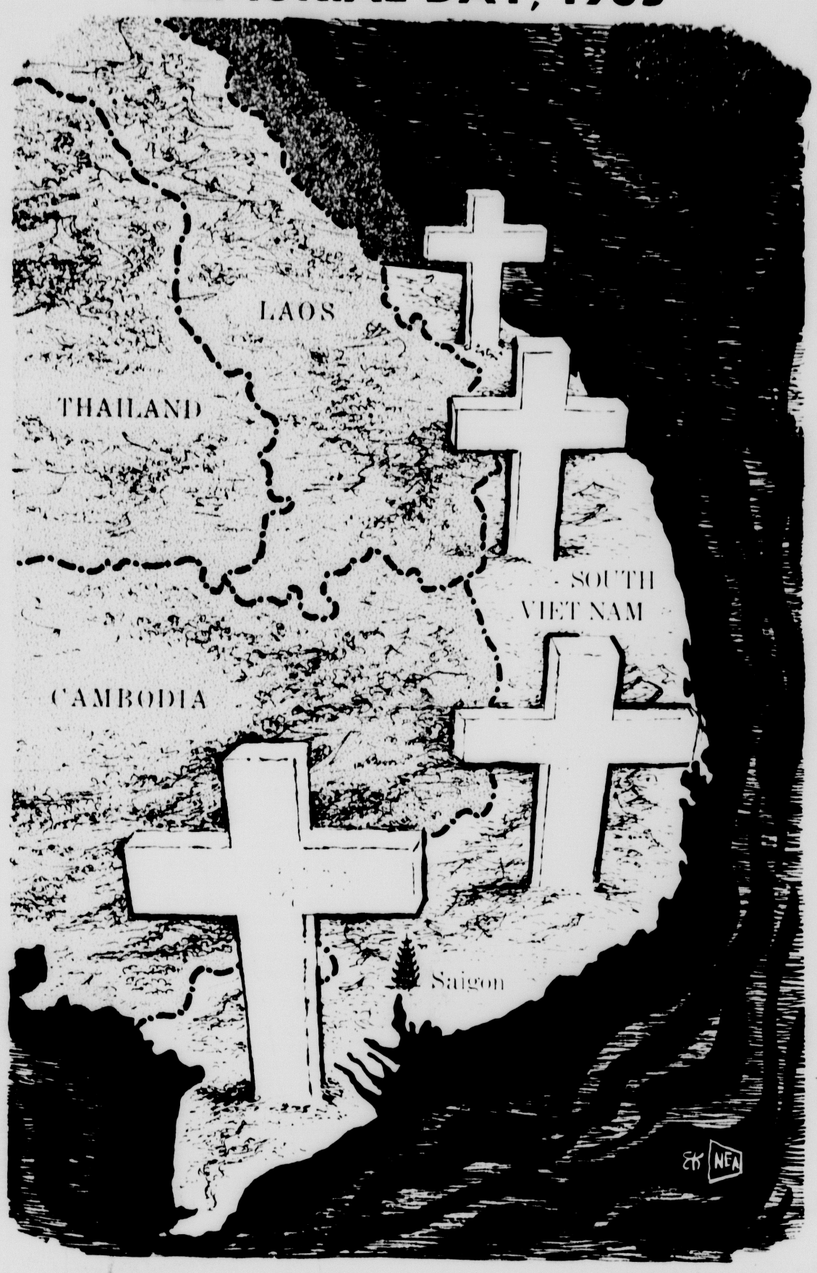
MEMORIAL DAY, 1965



Memorial Day

Tomorrow is Memorial Day, a day set aside to honor the soldier dead of all wars. As we pause to revere their memory and decorate their graves, let us give thought to the living and be careful that through no act of ours no man, woman, or child joins those sleeping in our cemeteries.

Virtually all business places in Sikeston will be closed Monday.

There will be no publication Monday of the Daily Standard.

There will be no official celebration or parade in Sikeston but we urge that all those who have flags to display them.

For many of us, it will mean driving to distant points to visit friends and relatives, fish or go on a picnic. The Standard wishes for all a pleasant, safe Memorial Day weekend.

Cape State Graduation Tonight

CAPE GIRARDEAU -- A record 526 will be graduated at Southeast Missouri State College in commencement exercises May 30, the largest graduating class in the school's history.

The program will be held outside in the school's football stadium, Houck Field, beginning at 6 p.m. This will mark the first time that spring commencement exercises have been held outdoors. Previous graduations were held in the College Auditorium, and in recent years in the Field House.

Bachelor of Science in Education degrees will be conferred to 350 of the graduates. Bachelor of Science in Business Administration degrees will be granted to 77, Bachelor of Science to 51, Bachelor of Arts to 28, Bachelor of Science in Vocational Home Economics to 14, Bachelor of Music Education to three, and Bachelor of Science in Nursing to three.

An innovation in the program this year will be the conferring of degrees en masse rather than individually, which is expected to save more than an hour in the program.

The commencement address will be delivered by Dr. Velmer A. Fassel, senior chemist at the Iowa State University Laboratories, and a 1941 graduate of the College.

Dr. Fassell will also be one of two recipients of the school's Distinguished Alumni Awards, to be presented by Noah Gray, superintendent of the Lindbergh School District, and President of the Cape State Alumni Association.

Also receiving the award will be James A. Wax, Senior Rabbi of Temple Israel, Memphis, Tenn. Rabbi Wax, a 1935 graduate of the College is also a former resident of St. Louis.

EMERGENCIES

Four persons were treated and dismissed from the emergency room of the Missouri Delta Community Hospital yesterday.

Rosa Sherrod, Sikeston, cut finger on glass; Shirley Jean Voels, Charleston, cut right middle and ring finger in blender; Carolyn Jane Hopper, Sikeston, injured in auto accident; Doris Ervin, Lilbourn, injured in auto accident.

Astronaut Will Use Space Gun While Floating

By CHARLES STAFFORD

CAPE KENNEDY, Fla. (AP) —When astronaut Edward H. White II floats away from the Gemini 4 spacecraft, he will use a spacegun to try to move within 20 feet of an orbiting, spent rocket. It will be the world's first rendezvous in space.

The dramatic additions to the flight plan of the Gemini 4 — following quickly the announcement that White will leave his craft — were announced Friday by a panel of space agency officials.

"If we are successful," said Dr. George E. Mueller, acting director of the Gemini program, "we will have done something the Russians have not tried, although I am sure they have the capability.

At Pad 19 in the Cape Kennedy complex, technicians unseated the Gemini spacecraft from its perch on the nose of a nine-story-tall Titan 2 rocket, replaced a faulty battery, and remated the two.

The battery must be checked out, but officials said that barring further difficulty, Gemini 4 would lift off on time next Thursday morning.

Space buddies White and James A. McDivitt, both Air Force majors, planned to run through highlights of their scheduled four-day mission today.

Mueller described this sequence after Gemini 4 slides onto orbital path during the actual trip:

After separation of the spacecraft from the second-stage booster, six minutes after launch, command pilot McDivitt

Charles D. Cole

Scholarship To Dexter Student

DEXTER — Charles Darrel Cole, son of Mr. and Mrs. George Darrel Cole, Route 1, Dexter, has been awarded a $200 college scholarship donated by the Dexter MFA Control Cooperative and the MFA Foundation.

Cole attended Dexter Senior High School and was on the football, basketball and track teams. He was a member of the National Honor Society, chairman of the Junior-Senior Prom and president of his class 4 years. Cole was a representative to Missouri Boys State and received the Mask and Dagger Dramatics Award.

He will attend Central Methodist College at Fayette and plans to be either a teacher or a social worker.

Crackdown On City Speeders

The city court had 32 defendants appear before Judge E. R. Schrader last night, and of this group 37 pleaded guilty and were fined a total of $497; four cases were continued and one case dismissed. Leading the field were traffic violations in the city, with 19, in a crackdown on speeding and reckless driving.

Melvin Banks, 740 Smith, charged with running stop sign, pleaded not guilty, and case set for June 23, with bond set at $12.

James D. Crider, route four, Sikeston, charged with running stop sign, plead not guilty, and case set for June 23, with bond set at $12.

Craig P. Matthews, charged with driving while intoxicated, entered a written plea of guilty, and was fined $50 and costs, $56.

Sammie T. Brown, route four, Sikeston, charged with drunkenness, entered a plea of guilty, and was fined $6 and costs, $12.

Paul Phillips, 837 Wayne, charged with disturbing the peace, entered a plea of guilty and was fined $9 and costs, $15.

Roy Edwards, route one, Sikeston, charged with drunkenness, entered a plea of guilty and was fined $6 and costs, $12.

John H. Adcock, 836 Wayne, charged with careless and imprudent driving, pleaded guilty and was fined $9 and costs, $15.

Lyndell R. Christie, 446 Smith, charged with running a stopsign, had his case continued to June 1.

R. J. Ledbetter, 325 Selma, charged with allowing dog to run loose, pleaded guilty and was fined $1 and costs, $7.

(Continued on page 10)

Re-Districting Proposed In Board Meeting

There was an unofficial proposal made in a meeting of the Boards of Education of Illmo-Scott City, Chaffee and Oran that would extend the boundaries of the Sikeston School District to the Baseline Road at Morley. The rest of the county, it was proposed, would then build a new high school somewhere near the center of the district.

President of the Chaffee Board of Education, John Nickens, stated in the meeting that, "a smaller district can no longer offer the quality of education, in respect to curriculum, that is required.

Superintendent of Sikeston Schools, Lynn Twitty, pointed out this morning that the Sikeston Board of Education is not opposed to any new redistricting as long as the people of the incoming district wants it also. However, he said, if they don't want it, then we don't want them to have too.

Feelings in the Oran district are mixed. Some want reorganization and some do not. Bill Wallace, president of the Oran Board of Education, has announced that he is definitely not in favor of the plan.

A committee was appointed, composed of school superintendents and presidents of the three boards, to get the following information concerning the districts: Valuation, student enrollment, unused bonding capacity, present indebtedness, tax rates, income from railroads and utilities, amount of interest and principal paid annually, enrollment of the top three grades, and approximate cost of the school buildings.

Three Injured In Highway Collisions

In an accident Friday at 1 p.m. at the intersection of Highway 60 and Route H near Morehouse, Carolyn Hooper, 18, Morehouse was injured when she received abrasions to the face and arm. She was a passenger in a car driven by L. V. Hooper, 52, Morehouse, who was attempting a left turn, and was sideswiped by a car driven by Arthur Crisp, 21, Cliburn, Tex. She was taken to the Missouri Delta Community Hospital.

Last night at 6:30 p.m. on Route H, six miles south of Dexter, a car driven by Loren Kelmer, 30, Dexter, was struck by a 1955 Ford driven by Lydia Burns, 63, Dexter, when she made a left turn at a hillcrest, and the cars struck almost headon. Both drivers were taken to the Poe clinic, with Kelmer receiving a lacerated lip and several teeth knocked out, while the Burns woman received knee and chest injuries. The latter was given a summons for improper turning.

Graduation Completed At Sikeston High School

Bloomfield Students Awarded

BLOOMFIELD -- Awards were presented to Bloomfield high school students at a morning assembly held in the gymnasium Thursday, May 20.

The welcome was given by Mary June Tucker, Beta Club president. The Boy Scouts presented the colors; the advanced band played "The Star Spangled Banner," and Pledge of Allegiance was led by Marvin Phillips, student council president. Murlin Hawkins, high school principal, spoke to the students.

Awards are: Valedictorian, English 11-12 and mathematics, senior high, Mary June Tucker; salutatorian and DAR award, Marilyn Burleson; honor student and physics, Ronnie McAdoo; English 9-10, History 10-11 and sophomore pilgrimage, Herman Morse; English 7-8, science-junior high, mathematics - junior high, Mary Ann Statler; citizenship award and Crisco award, Sherry Dillworth; French, Mary Jo Chapman; science-senior high, Marvin Phillips, biology, Alice Patrick; social studies-junior high, Randall Patrick; advanced band, Lanny Bell; intermediate band, Richard Kyle; home economics, Louise Clark; agriculture, Bradley Williams; journalism, Toni Richmond; yearbook, Barbara Robey; typewriting, Carolyn Denton; business award, Linda Patrick; art award - junior high, John Lovell; art-senior high, Ronnie Jackson; librarian award, Lavonda Crenshaw; best senior girl athlete, Barbara Link; best senior boy athlete, Ron White; volleyball award, Carolyn Clubb; Beta Club gold seals, Mick Aslin, Bill Chaffin, Marilyn Burleson, Louise Cark, Ron McAdoo, Joanne Newcomer, Toni Richmond, Sharon Corbin, Mary June Tucker; Beta Club citizenship plaque, Mick Aslin.

American Legion Girls State presented by the American Legion Auxiliary, Mary Jo Chapman, Kathy Mooney, Lavonda Crenshaw, Mary Proffer.

Gale Skalsky
Valedictorian

Ronald Summers
Salutatorian

Last night saw the largest graduating class of the Sikeston high school march down the aisle for the last time as a unit. There were 254 seniors that received diplomas for their 12 long winding years through elementary and senior grades. This is 30 more than last year's graduating class.

The outdoor theatre was packed with over 2000 parents, relatives and friends of the graduates, although the weather was a bit on the chilly side, when the high school band began the familiar strains of the traditional "Pomp and Circumstance" which opened the ceremonies for the 64th annual commencement exercises.

The long lines of black robed Graduates filed slowly and they seemed a bit reluctant in marching down the aisle to gather on the stage for the last appearance of the class of 1965 as a unit.

Doug Marsh, class president, presided, and after the invocation by Dale Stauffer the program moved swiftly and smoothly.

Harold F. Kiehne, high school principal, in announcing honors and awards that were not made public at the honors assembly, announced that Norma Gail Skalsky, daughter of Mr. and Mrs. Orville Skalsky, was class valedictorian and that Ronald Summers, son of Mr. and Mrs. Robert Summers was salutatorian.

Four student addresses were given, all coming under the heading of "Let Us Continue."

Becky Turner's address was entitled "Let Us Continue to Laugh." She started her address with, "Laughter is the sound of happiness, and happiness is portrayed in many ways. But everyone has their own definition of happiness.

"Let Us Continue To Love" was given by Katie Blanton, who began her speech with, "The most exalted speech ever heard in heaven or on earth without love is but a senseless sound. Love is understanding. It is free from jealous thoughts --free from boastfulness. It is never critical of one's friends, but understands and forgives another's failings. It takes no delight in injustice, but finds its joy in helping others. Love is slow to anger, and of great mercy. Love helps us hear the disappointments and trials of life--and makes us hope always."

John Struwe's address was "Let Us Continue To Learn." It began with, "To do good, we must first know good; to serve beauty we must first know beauty; to speak the truth we must first know the truth."

And the fourth part, "Let Us Continue To Lead" was delivered by Clayton Vandivort. He began his address by saying, "Many Commencement addresses of graduation is the beginning and an end. Commencement they say is both, as it marks the seniors finishing one step in life and beginning another. We end here tonight 12 years of schooling and start the final step into becoming mature adults."

Lynn Twitty, superintendent of schools, presented the class of 1965 to the School Board and L. M. Standley, president of the board of education, presented diplomas to the graduating Seniors.

After the benediction by James Crenshaw the program was concluded with the sophomore band playing "Red and Black."

Charged Extortion Trio Have Improper Bond

William McIntosh, 45, Sikeston, Walter Richardson, Jr., 38, of Portageville, and Joe Dale Wilson, 23, Sikeston, have been placed behind bars "in default of proper bonds of $50,000 each."

Innocent pleas were entered for the trio by the judge and urged them to obtain a lawyer in time for them to stand trial June 16.

A Federal Grand Jury indicted the men May 18 on a charge of using the telephone April 23 to call William Tanner, president of Pepper Sound Studios, Inc., in Memphis, The indictment accused the trio of demanding $5,000 to avoid bodily harm to Mr. Tanner's brother, Henry Faye Tanner, 37, presently a Pepper employe.

Barry Richardson of Portageville, a brother of one of the defendants, told the judge he put his farmland as surety for the required $150,000 total bond. But he said nobody joined as surety for the bond when he appeared Tuesday before Paul Mueller, a United States commissioner in Jackson.

"The law does require two sureties on the bond," the judge replied. "You gentlemen will have to make the right kind of bond on this charge. It should be made with the clerk of this court.

Twenty years in prison is the maximum penalty and a payment of $5,000 fine.

Lee DeLaney
Valedictorian

Pat Wallace
Salutorian

Awards To 38 Students At Charleston Commencement

Commencement exercises for the largest class to ever graduate from Charleston High School were held last night at 8:00 p.m. on the Charleston football field. There was a large crowd present to see the 151 graduating seniors.

The invocation was given by Rev. H. W. Chaney, minister of the First Baptist Church and the mixed chorus sang "Let All Things Now Living." Guest speaker was Dr. Frank Heagerty, professor of education at the University.

Bill Hodges, principal gave out the awards. Top honors went to Miss Lee DeLaney, daughter of Mr. and Mrs. Bob DeLaney, who was valedictorian and Pat Wallace, salutorian, daughter of Mr. and Mrs. Jim Wallace.

Other awards are as follows:

Russell Scholarship Awards--Leora Bentley and Bob Harper.

Eliza Reid Home Economics Award--Frances Cherry.

I00F Awards -- Lee Delaney and Bill Brashears.

Marshall Awards -- Lee DeLaney and Henry Hough.

Outstanding Sophomore--Jana Hillhouse.

American History Award--Mike Friedman.

Jr. Study Club Music Award--Mary Ann Cook.

Athena Club Courtesy Awards --Nancy Whitehead and Henry Hough.

Athena Club Chemistry Award --Bob Harper.

Athena Club Physics Award--Patti Hillhouse.

American Legion Auxiliary Essay Award--Lee DeLaney.

D. A. R. Good Citizenship Award--Pat Wallace.

Student Council Best Citizen Award--Blair Moran.

Danforth Foundation Leadership Awards--Betty House and Lanie Black.

Student Council Typing Award --Ann Cox.

Student Council Bookkeeping Award-- Darla Pearsall and Leora Bentley.

Student Council Shorthand Award--Dorothy Ingram.

Student Council Secretarial Award--Judy Banks.

Business and Professional Womens Mathematics Award--Lee DeLaney.

Perfect Attendance for Four Years Awards -- Judy O'Neal and Mike Forbey.

Outstanding Athlete--Lee Putnam.

Scholarships to Cape State College--Bill Brashears, John Newberry, the latter also receiving a music scholarship.

March of Dimes scholarship --Mary Ann Cook.

Two Curator scholarships to University of Missouri--Lenola Plummer and Pat Wallace.

Curator scholarship to Rolla --Mike Glenn.

General Scholarship -- Wayne Davis.

Portageville Boy Elected President Of Student Body

PORTAGEVILLE -- Following two weeks of campaigning, politicking, and arguing, the students of St. Mary's University, San Antonio, Tex., elected Ed Hulshof, son of Mrs. Stella Hulshof of Portageville, president of the student council.

Ed is a junior biology-chemistry major, is a member of Sigma Beta Chi fraternity, and presently is a representative-at-large on the Council.

Hulshof in his acceptance speech at a prom April 29 said that next year will be the greatest year that St. Mary's has ever seen.

In the first of two Student Council elections held on April 30, Hulshof defeated Bob Chambers and his running mate, Al Hansen, by eight votes. In the second polling, Hulshof extended the gap to 100 votes. He will be president of the Council during the 1965-1966 school year.

When asked about his party's plans, Hulshof, said, "We are running for these offices because we are dissatisfied with the present Student Council situation. This is a situation that has been marked by both the regression of student life and student dissatisfaction.

Weed Control Tour At Delta Center

PORTAGEVILLE -- Farmers will have an opportunity to observe the latest developments in weed control research at the Delta Center reports Joe Scott, extension field crops specialist.

A tour of the weed control research has been scheduled for 1:30 p.m. (CST) Friday next week at the experimental field five miles east of Portageville.

Weed control studies to be observed on the tour will include:

Johnsongrass control in cropland with special emphasis on control methods in cotton, corn and soybeans.

Pre and post emergence weed control in cotton along with different soil incorporation and cultivation methods.

Pre-emergence and soil incorporation of herbicides on soybeans.

Special weed control studies on gumbo soils including minimum seed bed preparation for soybeans.

This will be about the best time to compare weed control treatments says Scott and anyone interested in weed control is invited to attend Friday next week.

Bloomfield C of C Approves Fund

BLOOMFIELD -- Presented with a good cause for the community, the Bloomfield Chamber of Commerce can be relied on to do its part. This time it's for the youngsters who want to play baseball this summer. But it takes money to play Little League, Pony League and Connie Mack League junior ball, money for bats, balls, team equipment, such as catcher's masks and guards and uniform replacements.

The chamber voted to sponsor the fund - raising drive after listening to a report by Elmer Hopkins during the regular monthly meeting Monday night. Hopkins said that he, John Davis and Joe Welborn were contacted by Coach Tom Hewgley who, along with several other local men are forming and supervising the baseball program, were asked to help raise funds. Solicitations will be made by the three members in the near future, but people desiring to donate any amount to the youth program are welcome to contact Hopkins, Welborn and Davis at their business places.

Weather

Fair and cool tonight with lows 48 to 52. Partly cloudy and mild Sunday with highs near 70, Monday partly cloudy and mild.

HIGH AND LOW TEMPERATURES

High and low temperatures for the 24 hours ending today at 7:30 a.m. 71 and 49. .04 precipitation was recorded.

Sunset today---------7:10 p.m.
Sunrise tomorrow----4:41 a.m.
Moonrise tomorrow--4:30 a.m.
New Moon-----------Sunday

The planet, Jupiter, is now almost directly beyond the Sun. Its distance from the Earth today, about 564 million miles, is its greatest since 1961.

NEW USE FOR PLASTICS

SCHENECTADY, N.Y. (AP) — Plastics, long used as insulators against the flow of electricity, are now able to conduct it. Scientists at the General Electric Research Laboratory here have discovered a new family of flexible plastics that can be shaped, molded, painted, and pasted and still conduct current. They may have uses in printed circuits for radios and as a solder-like paste that can be used at room temperature for electrical connections.

Three Students Charged

Three State College students were arrested Thursday night on suspicion of fraud as they allegedly made long distance telephone calls and placed the charges to other telephones in the city, police said.

William Carrol O'Neal, manager of the Southwestern Bell Telephone Company, has been leading an investigation into the problem.

The three were identified by police as Perry Davis Hamm, 22, Morrilton, Ark.; Larry Joe Chapman, 22, Gideon, and Roger Neely Kinnaman, 20 Independence.

Three cals were placed Thursday night and through the investigation conducted by Mr. O'Neal the calls were traced and police were called.

An investigation at 1301 William found that the three resided at the address and, unknown to the owners of the building, had been placing calls for a month.

The case has been referred to Cape County Prosecuting Attorney Bill D. Burlison for further action.

Mr. O'Neal stated that the investigation is still being carried on regarding other long distance calls that have been placed.

No Paper Monday

The Daily Standard will not be published Monday in recognition of Memorial Day. Publication will be resumed Tuesday.

Swimming Pools Open

Swimming pools will open tomorrow, both the Municipal Pool and the Country Club pool. Both are scheduled to open at one p.m.

The Daily Sikeston Standard

C. L. BLANTON, Jr., Managing Editor, Entered at the Postoffice of Sikeston, Scott County, Missouri as Second Class Mail Matter according to Act of Congress March 3, 1879, Saturday, February 4th, 1960.

POOR CHARLIE SAYS!

Tomorrow, Sunday, May 30 is Decoration Day.

* * *

THE DATE BOOK: May 30, Memorial Day; June 1-30, National Dairy Month -- Ragweed Control Month - Recreation Month; June 1, 1958 (seven years ago), Gen. De Gaulle became Premier of France; June 2, 1953 (12 years ago), Elizabeth, II crowned Queen of England; June 3, 1942 (23 years ago), United States forces smashed Japanese seapower at Battle of Midway; June 5, 1947 (18 years ago), Marshall Plan for the economic revival of Europe was announced by U.S.

* * *

Congress should refuse to outlaw the ban on union shops for one reason. The union shop permits compulsory unionism.

Every American has been confronted with the difficulty in getting everyone to join an organization. Chamber of Commerce members are familiar with the problem. Some of those who should be members won't join. They get the benefits, but they won't pay their share. This causes angry reactions.

A lot of the faithful members in a moment of anger would agree that there should be a law to prevent free loading but really there shouldn't be one.

Organizational membership must be voluntary and based on the merits. Compelling people to belong rather than persuading them to join opens up a path for all kinds of abuses and for many misuses of power. If memberships in any organization are guaranteed the organization is headed for trouble and a dictatorship and it is the members themselves who will be short changed.

Labor unions have their place in American society but their place should not be one of uncontrolled power -- free from prosecution under the anti-trust laws -- as are corporations -- and with compulsory membership sanctioned by the federal government.

On the question of repeal of section 14B of the Taft-Hartley law, permitting states to ban the union shop, President Lyndon Johnson has tried to carry water on both shoulders.

But he must take the responsibility for what he is doing. He sent a luke warm message urging repeal to Congress in fulfilling a campaign pledge but his secretary of labor, Willard Wirtz, has made an impassioned appeal for outlawing the ban on the union shop.

No change should be made in the law despite the strong pressure being exerted by the Johnson administration and power hungry labor union leaders to throw it out.

PRICE OF LIBERTY CREEPS UPWARD

And still they come -- fresh names to be added to the long, long roll of those who have fallen in the service of their country.

We had thought, 20 years ago, to have made an end to it once and for all, even as 25 years before that men told themselves they had fought the war to end all wars.

But more names still to come.

The peace so dearly bought in 1945 was but a pause. A mere five years later and there were different battlefields and a different enemy. But the fact of death was the same one known to those who had met him at Lexington, at Lundy's Lane, at Vera Cruz, Antietam and San Juan Hill, in Flanders and in Normandy.

We had thought, after Korea, to have made an end to it. The men of the West who had fought and died and held the line there had proved to those of the East that there was no more profit to be gained in nibbling at freedom's edge with "limited" war than in uncapping the nuclear holocaust that would destroy us all.

But more names were still to come, for never-sleeping tyranny has many fields to prowl.

They began coming in from new battlefields with faraway names -- Bien Ho, Da Nang. They come slowly still, but there are more names today than yesterday, and little hope for anything but more tomorrow than today.

Now, most recently, the names came from a battle place closer to home -- the sun-and blood-drenched isle of Hispianola. A handful only, thankfully, but the long, long roll is that much longer.

Today we suspend the public business to honor all the names, those lost to history as well as those still painfully fresh in memory. As Walt Mason wrote:

The little green tents where the soldiers sleep
And the sunbeams play and the women weep,
Are covered with flowers today.
And in the ghostly distance, the long, long file
of those who have given us the peace and
liberty that makes possible this day of Memorial
Day goes on and on . . . and on.

* * *

NO PLACE FOR SCAPEGOATS

Mountains of words have been written and mouthed that say, in effect, "Somebody ought to do something about traffic accidents." In the process, we have institutionalized a couple of prize scapegoats. The automobile has been condemned; the highway has been ruled. But the fact is that nine out of ten accidents can be traced to driver error!

The driver is the real culprit. No matter how safe cars and highways are made, if the driver doesn't do his part, traffic accidents will continue to soar if for no other reason than there are increasingly more drivers logging more miles.

Tracing this line of thought further, the inescapable conclusion is that most already-licensed drivers on the roads don't really have the skills to cope with today's complex transportation system. The business of driving is a lot different now than when most of us got our licenses 30, 20, 10, or even 5 years ago. There are more cars; there are new conditions.

Ironically, most licensed drivers are positive they are "above average." So the problem becomes how to provide these people -- which includes most of us -- with a means to update yesterday's driving skills so that they are good enough today. The National Safety Council thinks it has the answer. It wants to re-train a million licensed drivers in what it calls "defensive driving" techniques which have been drawn from the experience of professional drivers.

To do this, however, the licensed driver must first be somehow made aware of his need. Here, again, the National Safety Council thinks it has the answer. It feels that by simultaneously confronting drivers everywhere with typical modern driving situations and asking drivers to make decisions concerning these situations that they will admit to themselves that they've got something to learn. To reach so many, so fast, NSC turned to network television and CBS.

The vehicle for doing all this was The National Drivers' Test, an hour-long television program that tested driving judgment, knowledge, and visual perception. It was telecast live (with film segments) by CBS from New York.

As the opening shot of the most intensive effort ever attempted by the National Safety Council and its several hundred local chapters, The National Drivers' Test was expected to alert almost a third of the licensed drivers of America to the need for developing new skills and sharpening old ones.

Immediately following The National Drivers' Test the Council will throw the full weight of the Advertising Council's "Stop Accidents" campaign behind the defensive driving concept. Overlapping these two monumental efforts, is the training of thousands of certified instructors to teach NSC's new driver improvement course.

Meanwhile, the entire organized safety movement, representing ultimately almost all of the population of the nation, is moving in behind this effort. Industrial, transportation, recreational, home, school, farm, labor, women, religious, youth, and governmental groups everywhere will be sponsoring driver improvement courses through local safety councils.

Never in the history of the organized safety movement in America has there been such a concentrated effort. And it deals with a problem in which we are all involved.

JUNE 1 -- TUESDAY

NATIONAL ARTS AND CRAFTS MONTH begins. Through June 30th. Purpose: "To stimulate and develop interest in American arts and crafts." Director, Rock City Road, Woodstock, N. Y.

Hal Boyle

LE MY, South Viet Nam AP --Fifty yards from the hand-laid rock road some natives were digging graves.

On the edge of the road on straw mats lay those from whom the graves were being dug. They were the bodies of the last two diehard guerrillas in the village of Le My.

"After they wounded one of our men yesterday" explained a U. S. Marine loconically "we cornered them in a house. They hid under a trapdoor. One of our fellows tossed in a grenade--and that did it."

Some 300 yards up the highways was the mobile jeep headquarters of one of the best-liked men on the battlefront here--Lt. Col. David A. Clement, 40, Jacksonville, Fla., commander of the 2nd Battalion of the U. S. 3rd Marine Regiment.

It was an hour of sweet victory for Clement and his men.

They had just completed a simple but colorful ceremony with local village officials during which they had reopened to traffic two bridges blown up by the Viet Cong.

The burying of the two slain enemy and the reopening of the repaired bridges doubly demonstrated that the key village of Le My had been made secure.

To Lt. Col. Clement, nicknamed "The Great Pacificator," it meant the solution of his biggest problem since he and his 1,000 men landed here early in April. The pacification of the area around the vital Da Nang air base had been a key task assigned to the U. S. Marines.

The Marines suffered a number of casualties in the village. It would have been easy for them to have razed it but this isn't that kind of a war.

The village finally was cleared by a delicate program of grenades for the enemy and good will gestures toward the general population.

Clement, a raw-boned man who weighs 200 pounds and stands three inches over six feet, is a 1945 Annapolis graduate who won a Silver Star as a company commander in Korea. He has six children ranging in age from 18 down to 6.

He was born with a Marine brand on him. His father was the late famed three-star Marine Gen. William T. Clement, one of the most popular officers the corps ever produced.

In six weeks here, Col. Clement's battalion has worked through a 48-square-mile area.

"Some of it is still hostile and we are still conducting operations," he said. "Our most tangible success has been in this village of Le My and we will soon have it operating normally."

And the End Not Yet

NATIONAL BARBECUE MONTH begins. Through 30th. Purpose: "To stimulate the great national appetite for outdoor cooking, the skills it requires, the pleasures it brings." Sponsor: Grocery Store Products Company, West Chester, Pa., represented by Young & Rubicam, Inc., Harry F. Klemfuss, Account Executive, 285 Madison Avenue, New York, N. Y.

JUNE IS DAIRY MONTH begins. Through 30th. Purpose: "To remind consumers of the goodness of dairy foods and their importance in summer eating." Sponsor: American Dairy Association, Jane A. Holmes, Products Manager, 20 North Wacker Drive, Chicago, Ill., 60606.

FIGHT THE FILTHY FLY MONTH begins. Through 30th. Purpose: "To promote the destruction of dangerous disease-carrying flies." Sponsor: Gustav Detjen, Jr., President, Detjen Corporation, Insectocutor Division, Pleasant Valley, N. Y., 12569.

NATIONAL HOME PERMANENT MONTH begins. Through 30th. Purpose: "To give credit and recognition to the millions of women who keep their hair beautiful." Sponsor: Home Wave Council of The Toni Company, Marion Hammon, Publicity Directory, 456 Merchandise Mart, Chicago, Ill., 60654.

THOSE MOONLIT NIGHTS WON'T BE THE SAME

"Space travel will bother me if it reaches the stage for which most people are hoping," states C. S. Lewis in the Catholic Digest.

"Perhaps I'm being sentimental, or perhaps aesthetic. But no moonlit night will ever be the same to me again if, as I look at that pale disc, I must think, 'Yes, up there to the left is the Russian area, and over there to the right is the American bit. And up at the top is the place which is now threatening to produce a crisis.'

"The immemorial Moon, the Moon of the myths, the poets, the lovers, will have been taken from us forever. Artemis, Diana, the silver planet, belonged in that fashion to all humanity; he who first reaches it steals something from us all."

* * *

Instructions to bachelors for changing diapers: "First, place the diapers in position of a baseball diamond with you at bat. Fold second base over home plate. Place baby face up on pitcher's mound. Then pin first and third base to home plate.

* * *

In case the little lady complains of being neglected, remind her that the average American housewife controls 65 horsepower in her home merely by flicking switches. Figuring 22 men to one horse, that's equal to her spouse and 1,429 other men being helpful around the house.

* * *

It was a beautiful reception, but the mother of the bride was worried that the newlyweds wouldn't have time to change and pack their clothes in time to catch their honeymoon flight to Rio. Seeing that the party was nowhere near breaking up, she finally approached the groom and whispered: "Don't you children think it's time to go upstairs and get your things together?"

* * *

STATE DEPARTMENT TO AID INDUSTRIAL SALES ABROAD

The Department of State has begun a series of programs to strengthen its ties with the American business community, according to Benjamin Weiner, special assistant to the Deputy Undersecretary.

These programs include: the added use and display of American-made products in the 276 embassies, consulates and special offices abroad; and the assignment of Foreign Service officers to observe private industrial operations in order to develop an understanding in the participating officer of the concepts and pressures that motivate American business, plus an awareness of business needs and problems.

Businessmen will be asked to serve as consultants to assist in screening applicants for the Service, to serve on teams of inspectors to evaluate operations of the Embassies and other posts, as well as to serve as public members of selective boards to determine grade promotions to service officers.

"The purpose", added Mr. Weiner, "is to create an attitude and atmosphere in the Foreign Service which will assist and perhaps even impel the American business community toward greater markets and greater sales abroad."

* * *

"Come now," said the psychiatrist to his tearful patient. "You must cheer up. Be happy!"

"Be happy, you say," she answered. "How can I be happy? I've had twelve children with that husband of mine and he doesn't even love me. What have I got to be happy about?"

"Imagine if he did love you."

* * *

"Have you heard about the farmer who dressed his scarecrow in a tuxedo?"

"No. How did it work?"

"It didn't protect the corn, but it sure attracted a better class of crows."

Inside Labor

By Victor Riesel

Visiting German Labor Leader Explains System Now in Action To Make Every Worker a Capitalist

UNITED Nations; -- In a private dining room here the other day an influential German labor leader disclosed the details of a system his powerful union has devised to make every worker a capitalist.

This was no pie-in-the sky conversation. The visitor, 45-year old Georg Leber, president of the Building and Construction Workers' Union of West Germany, revealed that the plan starts operating on Jan. 1, 1966, under a contract signed with the industry's employers' associations last March.

This system of "workers' accumulation of assets and property" under a labor-management contract has so disturbed the Communists that they have set up a special investigatory bureau in East Berlin to probe its impact.

The Soviet zone government fears that the "accumulation of property" program will neutralize the traditional Marxist-Leninist theory of the inevitability of the final conflict between the capitalist and working classes.

"And what would Communist propagandists do if it could be demonstrated that there is no class struggle?" inquired one of Mr. Leber's colleagues.

The system, as written into the new union contract, has the authority and stability of simplicity. It could affect some 1,600,000 workers in the industry, though Mr. Leber's union has a membership of 500,000.

In the pact the employers agreed to pay each worker nine pfennigs (2 1/4cents) an hour, over and above the usual wages, if the worker agrees to throw in two pfennings each hour. The union member does not have to get into the act. He can opt cut.

The 11 pfennings will be put into an account in any bank the worker chooses. Actually the worker need not keep the money in the bank. But if he withdraws it he must pay an extraordinarily high income tax on the cash. This penalty is intended to act as a brake on his inclination to withdraw the money.

As the funds accumulate, the worker can invest it any way he wishes.

But he must invest it in the economy. He cannot borrow on it. He cannot buy a house or furniture, etc. He can put the money into the stock market, or into real estate, or into the company which employs him if shares are available, or into private businesses.

He need not take guidance. Except for the ban on personal use of the accumulating money, there are no restrictions. If the worker guesses wrong, he suffers as any other investor would.

At no time can he turn his investment into cash. If he sells, he must reinvest. The purpose is to give him a stake in the nation's industry, commerce and property -- and instill in him the hope that he can leave his children a considerable investment in such society and in the democratic processes.

However, the worker can use the income on his investments -- dividends, rents, business returns, etc. -- for his personal use.

Should he leave the money in the bank, it is expected that he would have almost $20,000 at the end of 40 years. In Germany this is the equivalent of the purchasing power of at least $60,000 in the U. S. A.

There are many other details which fascinated the small luncheon group as Mr. Leber talked with the authority of a man who not only is a labor leader but is on the Executive Committee of his Social-Democratic Party and sits in the parliament of the German Republic.

There will be worker's mobility, for example. The man's account flows regardless of which building and construction contractor hires him.

Since there will be millions of accounts and investment records to be traced, this should make it a computer salesman's heaven.

Furthermore, explains Mr. Leber, the system will give the German economy a solid base. It will curtail inflation, stabilize the currency, and encourage efficiency and participation in government.

The accumulation of property and investments will give the workers a real stake in the success of industry -- all industry.

The working class will be a partner -- albeit junior partners -- in a democratic capitalist society. Small wonder the East Zone's Communist theoreticians are disturbed.

Washington-Merry-Go-Round

By Drew Pearson

WASHINGTON — It looks as if Speaker John McCormack's backstage slowdown to protect the Mississippi Congressmen from being unseated is already getting results.

Rita Schwerner, widow of one of the three Freedom Workers murdered at Philadelphia, Miss., found this out when she and other civil rights leaders called on Ralph Roberts, clerk of the House of Representatives, to ask when the report of the House Administration Committee on seating the Mississippians would be reported out. The amiable Mr. Roberts indicated that it would take many months.

"The 1947 Reorganization Act of the House requires that it be reported out by July 4," Mrs. Schwerner told him.

"Oh, we don't pay any attention to that," replied the affable clerk of the House.

"Have you had any other cases similar to this since the 1947 Act was passed?" asked William Higgs, an attorney for the Mississippi Freedom Democratic Party.

"Only one," replied Roberts after a little thought. "Usually these cases go on into the second session of Congress — if they ever come out of Committee at all."

Obviously he was in no hurry to have the House vote just after the Senate debated the Negro Voting Rights Bill. It's on this question of Mississippi's refusal to permit Negroes to vote last November that the move has been made to unseat the Mississippi Congressmen. Naturally delay is in their favor. The temper of Congress right now, after the Selma beatings and the Klan trial for the murder of Mrs. Liuzzo, would be to unseat them.

—MORE DELAY—

Mrs. Schwerner also asked Roberts to set a date for a confrontation with ex-Governor James Coleman of Mississippi, who represents the Mississippi Congressmen. Roberts said Coleman couldn't come to Washington for two weeks.

Higgs pressed for an early hearing, but Roberts said he himself had to go out to Indiana to receive an award from his home town high school.

"I may stay out in Indiana a little longer than just a day or two," Roberts stalled. "Furthermore the record may not be printed in time."

"How long will it take to print the record?" Roberts was asked.

"Oh, perhaps two or three months," the clerk replied.

"The House Judiciary Committee had its 1300-page report on the Voting Rights Bill printed over the weekend," Higgs reminded Roberts. "Our affidavits aren't much longer than that. The government printing office can turn this out in no time at all."

However, the man who runs the red tape machinery in the House of Representatives continued to stall. He is answerable to Speaker John McCormack.

—LBJ AND AMBASSADORS—

President Johnson has overwhelmed foreign premiers and potentates with his Texas-style diplomacy, but he is not exactly a hit with their ambassadors in Washington.

The President likes to deal with the top man and tends to bypass lesser officials. As a result, some abasssadors feel that they are treated as errand boys.

They complain that the President seldom sees them except in groups on formal occasions, that he almost never invites them to the White House for private talks.

Recently Secretary of State Dean Rusk has been trying to nail down the latest complaint that has come out of Embassy Row. It reportedly came from one of the three new ambassadors summoned to the White House to present their credentials.

They were Sir Patrick Dean of Britain, Radomiro Romic Romero of Chile, and Torbey Ronne of Denmark.

Each would have preferred a private audience, but they were brought in to see the President together. After the formalities, they were quickly dismissed.

As they were leaving the White House, the President had an afterthought and sent aides scurrying to fetch them back to pose for pictures.

Bewildered, Sir Patrick Dean grumped: "What is all this about?"

"I think the President wants to have your pictures taken," an aide explained.

Later, the word was whispered around that one of the ambassadors had complained about the presentation — picture-taking and all.

Rusk delicately approached the Danish ambassador at a reception.

"How did you enjoy the presentation?" asked Rusk coyly.

"I enjoyed it very much," said Ambassador Ronne.

"Oh," said Rusk. "That's fine. Then you weren't the one who was complaining."

Note — Most nations send their best men to Washington, men who have influence in the policy councils at home. Their reports shape the attitudes of their governments toward the United States.

—MERRY-GO-ROUND—

American officials recently seized upon a picture of Col. Francisco Caamano Deno, the Dominican rebel leader, with a clenched fist as evidence of his alleged pro-Communist leanings. Then someone pointed out that the San Juan Star, the paper that first published the picture, also ran a photograph of President Johnson with a clenched fist in the same edition. . . Government researchers have adapted the "explosive puffing process" used to make puffed wheat and puffed rice to produce other food. They have been able to create instant blueberries, apples, carrots and beets.

—BEHIND LBJ'S BACK—

Assistant Attorney General Norbert Schlei has made a deal behind President Johnson's back to help Rep. Mike Feighan, D-Ohio, substitute his own immigration bill for the one the President has proposed.

Schlei promised to use his "best efforts" to arrange the switch in return for Feighan's cooperation in unblocking immigration legislation from his House Immigration Subcommittee. The angry Irishman wants a Feighan bill or none at all.

The deal was supposed to have been kept secret from House Judiciary Chairman Emanuel Celler, D-N.Y., who has spent 19 years trying to liberalize the immigration laws and likes to keep informed on the latest developments.

Also kept in the dark were Senators Phil Hart, D-Mich., and Ted Kennedy, D-Mass., who, together with Cellar, have introduced the President's bill.

However, Celler got wind of the Schlei-Feighan deal and demanded an explanation from Attorney General Nicholas Katzenbach. It turned out that Katzenbach, though Schlei's boss, had no advance knowledge of it either.

The Feighan Bill, as it has been written in secret draft, would tighten the immigration quotas. It would put all refugees, including Canada, Cuba, and Mexico, would also be assigned quotas for the first time.

Thus Feighan, who claims to be more anti-Communist than other people, would close the door on refugees trying to escape from Communist Cuba. Under his bill, the Cuban refugees already in this country would use up the Cuban quota for years to come.

The President wants to admit relatives of American citizens without any quota restrictions. Feighan would give them first priority but would charge them against the quotas.

The Feighan Bill would also limit the number of immigrants who could come to this country to 325,000 and would restrict to 20,000 the number who could be admitted from any single country in a year.

Feighan would give high priority to people in the professions but low priority to skilled engineers, toolworkers and other technicians. The President wants to lift the bars on all people who have special skills needed in this country.

Now that the Schlei-Feighan deal is out of the bag, however, it is doubtful that Feighan will be able to foist his bill on Congress.

Merit Awards Presented To Four Piano Students Friday

Before saying "Goodbye" to her Music Class in Sikeston, Mrs. Wallace Crane presented awards of merit to four top-ranking music students Friday morning.

Paul Johnson, son of Dr. and Mrs. Howard B. Johnson, 21 Green Meadows, and Laretha Harris, daughter of Mr. and Mrs. L. A. Harris, Jr., 624 Moore Street, tied for first-place honors in Division I. This award is given to that student who has done the best work and who has made the most progress during his first two years of the study of piano.

Linda Hale, eleven-year old daughter of Mr. and Mrs. Robert Hale, 907 Allen Blvd., received the medal for the most promising young musician in Division II. This consists of students who have studied piano and theory for at least three consecutive years.

Carolyn Clinton, daughter of Mr. and Mrs. Ray Clinton, 1025 N. Kingshighway, received the Achievement medal for that medium - advanced student in Division III who has done the most serious - minded work and has made the most progress in piano during the 1964-65 school year. Carolyn will be a sophomore at Sikeston High School this fall.

Darlene Sears GA's Meet

MOREHOUSE -- The Darlene Sears Intermediate G. A.'s met Monday afternoon at the First Baptist Church with seven members, Counselor Mrs. Glenn Bohannon and one visitor, Karen Dodge, attending.

Vice President Peggy Orr called the meeting to order. Regina Jackson read the Prayer Calendar and Darlene Tarrants led in prayer for Missionaries listed. The program topic was "These Dared To Share." Those who had parts on the program were: Regina Jackson, Darlene Tarrants, Donna Bohannon, Debby Payne, Peggy Orr and Linda Neal. Peggy had closing prayer.

The shale underneath the Cleveland, Ohio, area, has yielded whole sharks four and five feet long preserved for thousands of years. Fossils of other fish, long extinct, also have been found in the Cleveland shale. Some of these fossils have been sent to the British Museum and the Smithsonian Institution.

Debbie Maznaritz Celebrates Birthday Monday

Debbie Maznaritz celebrated her birthday Monday at the Angels Day Care. The children sang "Happy Birthday" to her as she blew out the candles on her birthday cake.

Those helping Debbie celebrate and enjoying cake and ice cream were Karen Cox, Jay Estes, Gary Griffin, Nick Garner, Martha Hampton, Teresa Hampton, Karen Happe, Dale and Kendal Hicks, Ricky Jones, Richard Maznaritz.

Rita Sanders, Cherrie Stratton, Mike Taylor, Vickie Throgmorton, Lisa Watson, Cliff Wheeler, Greg Jewell, Mike Boardman, Trent Joyce, Renee and Teresa Seabaugh.

Steve Burgess and Larry Keller were unable to attend.

Miss Vines Feted With Shower

Miss Janie Vines, bride-elect of Danny McPherson, was given a bridal shower Thursday, May 27, at the First Assembly of God Church.

Hostesses for the shower were Miss Sherry Scudder, Miss Judy Henderson, Miss Maxine Morgan and Miss Merletta Hays.

Games were played and prizes were given.

The gift table was decorated with blue and white streamers. The centerpiece was six blue candles circling a blue and white bouquet of flowers. The honoree opened and displayed her gifts. Refreshments were served to the guests.

Those attending were Miss Sherry Scudder, Miss Judy Henderson, Miss Maxine Morgan, Miss Shirley Hays, Mrs. Brenda Ballard, Mrs. Edna Hays, Miss Merletta Hays, Mrs. Peggy Teague, Mrs. James E. Smith, Miss Betty Henderson, Mrs. Grace Willis, Mrs. Zoletta Godwin, Mrs. Evelyn Palmer, Mrs. Lula Bell, Mrs. Jimmy Vines, Miss Dannie Thurman, Miss Jan Teague, Miss Candy Teague, Miss Jeannie Vines and Mrs. Ilah Vines, mother of the bride-elect.

Those unable to attend but sending gifts were Mrs. Melton Bixler, Mrs. Beulah Peterson, Mrs. Erwin Taylor, Mrs. Fowler, Mrs. Elsie Brown, Miss Joyce Brown, Mrs. Ferrell Gosset, Mrs. Jeanice Brown, Miss Betty Goodin and Mrs. Geneva Page.

Outing By Murray Lane Sunday School

Approximately 100 members and guests attended the picnic and outing of the Murray Lane Baptist Church last Sunday, at the Baptist camp grounds, Benton. The event was sponsored by the Sunday school.

Following a basket lunch, recreation was provided for all age groups. The festivities were concluded with a devotional period, presented by Floyd Underhill, Jr., and Donna Bradshaw. It was the first such event sponsored by the Sunday school and was termed a fine success by the superintendent, Tom Dollar.

Within one year after the John F. Kennedy half-dollars were minted, $100 million worth of them went out of circulation. Collectors, speculators, and people who wanted them as mementos gobbled them up.

Crude oil production in the Middle East has increased 127 per cent since 1956. United States production went up only 7 per cent during the same period.

There are 33 oil-producing states in the United States.

These young teen-age dancers, from left to right are Debra Jean Sipult, Belinda French, and Debbie Wheeler, will perform in the Joy Pasaka School of Dancing's Dance Revue which will be held at the Junior High School auditorium at 7:30 p.m. Friday June 4.

Miss Hamby Honoree At Bridal Shower

Miss Sondra Ann Hamby, bride-elect of Charles E. King, was honored with a bridal shower Saturday, May 8, at 7:30 p.m. at the home of Mrs. Edgar M. Byrd.

Hostesses for the occasion were Mrs. Arnold Stone and Mrs. Byrd.

Several games were played with Mrs. Ernest Wood, Mrs. E. J. Box, Mrs. Glenn Taylor, Mrs. Oscar Shaver and Miss Pat Kiser winning prizes.

The living room was decorated with pink and white crepe paper attached to a large wedding band with a bell hanging in the center. Pink roses were also used in decorating.

Refreshments of cake, ice cream, sodas, nuts and mints were served after the honoree opened and displayed her gifts.

Those attending or sending gifts were Mrs. Ruby Myers, Mrs. Clayton Wood, Miss Pat Kiser, Mrs. Bert Shuffitt, Mrs. Margaret Barr, Mrs. Arnold Stone, Mrs. Grace Hamby, Mrs. Myrtle Wood, Mrs. Oscar Shaver, Mrs. Don Leigh.

Mrs. Roy Richards, Mrs. E. J. Box, Mrs. Glenn Taylor, Mrs. John Maloney, Miss Lavonne McConnell, Mrs. Blanch Miller, Mrs. Jim Barnes, Mrs. Elsie Hamby, Mrs. Lillie Taylor.

Mrs. Foster, Mrs. Marville Branson, Mrs. Edgar M. Byrd, Mrs. Thomas King, Mrs. Marvin Branson, Mrs. Rayburn King, Mrs. Jimmy Grimes.

Mrs. Harold Gage, the fitting room at the shoe factory, Mrs. Edna Blackwelder, Mrs. Chester Stafford, Mrs. Gerry Montgomery and Mrs. Bob Lane.

Grover Myers Honored By PTA

Grover Myers was honored by the Richland PTA at the May meeting. He is retiring this year with twenty-eight years of service in the Richland and Stoddard County Schools. Hubert Swinger gave a brief history of Mr. Myers' life and teaching experiences, with the help of Mr. Myers' son Gene Myers.

Ralph Parks, Superintendent of Richland presented Mr. Myers with a plaque. Mrs. Ed Bridges was hostess for the evening. Jan Bridges, Sondra Tucker, and Linda Coffey, sang many selections accompanied by Tera Finklea.

Jack Stapleton was the guest speaker for the program. Devotional was given by Frank Hill.

The president Mrs. Melvin Lane presided over the business session, Routine reports were approved as read. The following PTA officers for the new year were installed by Mrs. Harold Gisi; president, Mrs. Paul Schuerenberg; vice president, Mrs. L. B. Black; secretary, Mrs. Bill Pippins; treasurer, Mrs. Russel Joseph.

The meeting was adjourned, and refreshments were served.

The vice president of the United States receives a salary of $43,000 a year and $10,000 expenses, all taxable.

Unemployment in the Indian tribes of Arizona and New Mexico runs as high as 85 per cent. The average life span for the whole Indian population is 42 years.

Of the 1,500,000 Americans of Mexican descent in Texas, more than half have less than a fourth-grade education.

Area Hospital Notes

Jack Farmer of Charleston, James Blanchard of Charleston and Mrs. Elsie Ringer of Charleston have been discharged from the Cairo, Ill., hospita.

Thurber Stampley of Charleston has been admitted to the Cairo hospital.

Mrs. Charlotte A. Cooper of Bloomfield has been admitted to the Lucy Lee Hospital in Poplar Bluff.

Mrs. Ada Hall of East Prairie has been admitted to the Doctors Hospital in Poplar Bluff.

Lowell Williams of Dexter has been released from the Doctors Hospital in Poplar Bluff.

Mrs. Miranda Jarrell of Dexter has been released from the Poplar Bluff Hospital.

Mrs. Ellis Colyer of Dexter, Mrs. Shirrel Hayes of East Prairie, and Miss Clara Graviett of Oran have been admitted to the Southeast Missouri Hospital in Cape Girardeau.

Mrs. Gordan Starnes of Sikeston and Mrs. Dora Dunn of Oran have been discharged from the St. Francis Hospital in Cape Girardeau.

Coming Events

SATURDAY

Sikeston Chapter 137, Order of Eastern Star, will be having a rummage sale Saturday, May 29, at the Farmer's Market.

TUESDAY

The T. E. L. Class of the First Baptist Church will meet at 2 p.m. Tuesday, June 1, at the church.

Sikeston Nurses Take Trophy At State Convention

A trophy was awarded the Licensed Practical Nurses School of Sikeston for having the highest percentage of students this year to join the Missouri State Association of Licensed Practical Nurses. The honor was announced at the association's state convention held in Springfield Tuesday through Thursday.

The Sikeston school, which ranked first among the 13 practical nursing schools in the state, had 99 per cent or 19 out of its 20 students, enrolled in the association.

Astros Slip By St. Louis In 12th for 3 to 2 Victory

By THE ASSOCIATED PRESS

The Houston Astros slipped by the St. Louis Cardinals, 3-2 in 12 innings Friday night for their second straight victory over the 1965 world champions.

St. Louis took the lead in the second after Ken Boyer doubled and then was forced home. The second run in the next inning came on Bob Skinner's triple and Dick Groat's single.

Ray Sadecki 1-4, who gave up only five hits, allowed Jim Wynn a double in the fourth inning and then Aspromonte's single that scored Wynn.

Aspromonte then led off the ninth inning with a home run to tie the game. Three innings later, Wynn again singled and was sent home on Walt Bond's double to win the game.

Ron Taylor, who relieved reliever Barney Schultz, was credited with the loss. Jim Owens was the winner.

Kansas City, which had a day off Thursday when rained out at Baltimore, couldn't muster the energy to defeat the Red Sox, which chalked up a 9-3 victory in Boston Friday night.

Felix Mantilla cracked a two-run homer in the third and then singled home another run in the eighth to help the Red Sox along. Eddie Bressoud tallied three more runs with a homer in the seventh. Lenny Green accounted for another run with a third homer.

St. Louis meets the Astros again today in the last of the three - game series, pitting Tracy Stallard 3 - 1 against Houston's Larry Dierker 1-1.

Kansas City will send Roland Sheldon 0-1 against Bill Monbouquette 5-4 at Boston.

Clay And Liston; Actors, May Fight Again This Time On Capitol Hill

By HARRY KELLY

WASHINGTON AP -- Cassius Clay and Sonny Liston may square off again -- on Capitol Hill.

The senior Republican on the potent House Interstate Commerce Committee, Rep. William L. Springer of Illinois, says he can't see how "you can get around calling Liston and Clay" to testify when the committee holds hearings on chairman Oren Harris' bill to create a federal boxing commission.

Harris has promised quick hearings on the bill. It would include authority to forbid accounts of a fight to be carried in interstate commerce -- by wire services, radio or television--if the commission found out evidence of collusion, bribery, racketeering or terrorism.

Harris' bill was thrown into the hopper against a backdrop of widespread congressional criticism of heavyweight champion Clay's one-round knockout of Liston Tuesday night in Lewiston, Maine.

In recent years, there have been many calls on Capitol Hill to do something about boxing, but nothing has been done. This time there appears to be a mood that could force action.

Rep. John V. Tunney, D-Calif., strapping son of former heavyweight champion Gene Tunney, said in a statement that the Clay-Liston fight was "another example of the reason that boxing has fallen into such ill repute in this country."

Tunney and Rep. Henry B. Gonzalez, D-Tex., had earlier introduced bills to ban monopolistic practices in boxing. The bills have been referred to the House Judiciary Committee.

Rep. Robert Michel, R-Ill., introduced a resolution Thursday to give the Judiciary Committee power to investigate boxing. Michel suggested there be no more heavyweight title fights until the probe is completed.

Harris said his bill could serve as a basis for committee hearings to find out if it is the right approach to the problem or if another might be better.

On the Senate side, Democrat Philip A. Hart of Michigan plans to introduce -- possibly next week--the 1965 version of his bill to create the office of federal boxing commissioner and provide machinery to investigate controversial fights.

Sports TALK

By DON SAVAGE

In the past weeks we have been checking into outstanding feats by various athletes in the area. Today we are going to talk about one of the most fabulous basketball teams, to ever play in Southeast Missouri. The Morehouse Tigers of 1954. I expect to be criticized for this article, being a graduate of that same high school, so, I'll try not to play this team up. I'll just give you the facts and let you make your decision, if I could be justified to dig back 11 years and put ths team in the spotlight again.

Morehouse in the early fifties played a run, dribble, shoot type basketball and at that time could only be matched by one team. And that team was Puxico. The Indians led by a talented team of all-stars, had dealt the Tigers three defeats the year before. Puxico had been hit hard by graduation and Morehouse had a real tough team for the '54 season. Most hard court enthusiasts thought that this was the year for the Tigers to take a backseat no longer to the powerful Indians.

The Tigers won their first 19 games of the season. In this 19 game binge the Tigers averaged 81.5 points per game, while holding their opponents to an average of 43.

The Tigers pressing defensive play, with their high scoring fast break, made easy prey of all comers.

Larry Chapman a 5'9" guard, was the top Tiger ball hawk. His counterpart at guard was 6'0" Hershell Love. The big men in the Tiger line up, scoring wise that is, were the two forwards, Doyle Denbow and Dub Gray. Norman Vickers 6'4" was the Tiger center and a high scorer himself. He handled most of the Tiger rebounding, combined with his fine defensive play under the backboards.

The Tigers were winners of the following tournaments that season: Morehouse Invitational Tourney, The Cape Christmas Tourney, New Madrid County Tournament, The Sub-Regional at Lilbourn and the Regional.

In the Sub-regional at Lilbourn; Morehouse 79-Brosley 43; Morehouse 96 -- Matthews 39; Morehouse 71 -- Lilbourn 41; In the Championship contest Malden was pitted against the Tigers, this game could be Morehouse's defeat was the general opnion. Malden was considered, second in the area and owned a 23-2 record, compared to an unblimished 32-0 for the Tigers. The Tigers showed everyone who was the top team in the area by stomping Malden 94 to 46. The fast-breaking Tigers were led by Larry Chapman who dumped in 24 points.

In the first game of the regional contest, the Tigers played Caruthersville dumping them 117 to 54. The Tigers set a new Regional scoring record, with their 117 points. Denbow scored 23, Chapman 17, Gray 17.

They went on to win the Class B regional, and on the strength of their 35-0 record, were favored as the team to win the state title. Platte City was the only other un-defeated team in the state, with a 27-0 record.

They started out state Tournament play with an 88 to 60 win over California. Morehouse scoring was led by Junior forward Doyle Denbow who scored 32 points. Next was Wheaton, whom the Tigers nipped 66 to 59. Wheaton led at the end of three-quarters 47-42, but the Tigers scored 24 points, while limiting Wheaton to 12, in the last frame, to bring home the victory. The next game for the Tigers was another squeeker. This time they edged Troy 69 to 63.

The Tigers now had a 39-0 record and faced Sparta for the state Championship.

The next game was one of the most exciting playoffs, in state Tournament history. At the end of regulation play the score was tied at 54 to 54. They played one over time period, but this solved nothing as the score was again knotted, this time 56 all. A sudden death period was played with Sparta scoring, to win the contest 56 to 58.

The Tigers wound up the season with a 39-1 record.

Forwards Doyle Denbow and Dub Gray made first team all-state. Larry Chapman, scrappy Morehouse guard made second team All-state and big Norman Vickers, received honorable mention for the famed team. Chapman was selected for the North-South All-Star basketball game at Murray, Kentucky.

Memorial Day Racing Slated At Charleston

CHARLESTON — The Junior Chamber of Commerce in Charleston will sponsor a big stock car racing program, with a $1,000 purse, on Memorial Day afternoon, May 30.

Racing at the Jaycee Speedway will start at 2:30, CDT, with time trials an hour earlier.

Over 1,000 persons attended last weekend's racing at the speedway. Charles Amati won the Class A feature race. Jim Hall took the first heat race, Jesse Ladd the second, Hall the third and Ladd the semi-feature.

In Class, B. J. D. Godsey won the feature. Bill Clark took the first heat, E. Hayes the second, Godsey the third and Larry Burham the semi-feature.

Racers competed from Portageville, East Prairie, Charleston, Dexter, Bernie, New Madrid, Paducah, Ky., Kevel, Ky., Ragland, Ky., Murphysboro, Ill., and Metropolis, Illinois.

Sellout Crowd For U.S. Open

ST. LOUIS (AP) — Bellerive Country Club officials, anticipating a sellout, are setting aside 3,000 tickets for gate sale for each day of the United States Open Golf Championship scheduled June 17-20.

Season tickets sales have already set a record with more than 14,500 sold, topping the mark of 11,952 set last year at the Congressional Country Club in Washington, D.C.

Club officials are limiting total daily attendance to 20,000 and have set a ceiling of 17,000 on season tickets to assure that 3,000 tickets remain for gate sale.

All-Star Baseball Tonight At V.F.W.

Afton's Khoury League team, age 15-18, will be here Saturday to take on Potlatch Forest defending state champions of the Connie Mack League.

Afton will be making a six game sweep through Southeast Missouri, stopping tonight with a doubleheader at Cape Girardeau. Then they come on down and take on the mighty Foresters. Sunday they'll continue to do battle with area teams by playing the Poplar Bluff Mules.

Afton, who has one of the finest teams in the St. Louis area, can expect a good scrap by the annually tough Foresters.

The game is co-sponsored by the Connie Mack League and the Sikeston Jaycees.

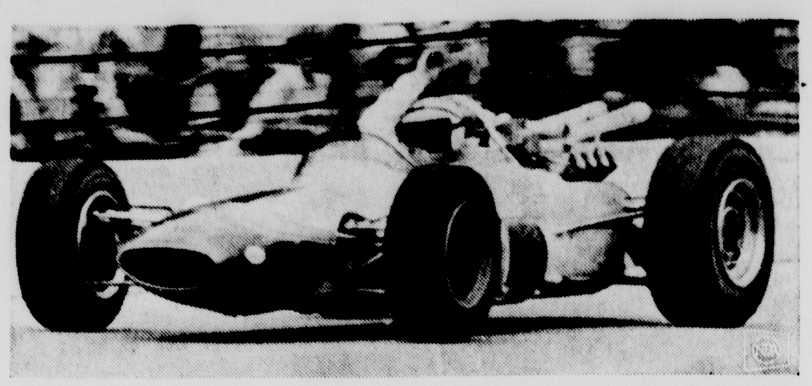
Game time is at 6:00 p.m. at V. F. W. stadium. Any Little Leaguer in uniform, admitted free when accompanied by a parent. Admission 50¢ adults, 25¢ for children under 12.

If you want to see two good games for your money, we suggest you be on hand at game time tonight.

Friday's Stars
By THE ASSOCIATED PRESS

PITCHING — Hank Aguire, Tigers, shut out Cleveland 1-0 on two hits.

BATTING— Brooks Robinson, Orioles, played for the first time since May 9, smacked a two-run double in the fourth inning and scored Baltimore's only other run as the Orioles gained split of a doubleheader with Los Angeles by winning the second game 3-0.



GOING TO THE POLE—A. J. Foyt will be in the pole position for the Indianapolis "500" on Memorial Day after breaking all the qualifying records for the speedway with a 161.233 m.p.h. clocking.

Drivers Have Final Check On Cars Before 500 Classic

INDIANAPOLIS AP -- Three hours of carburetion tests Saturday at the Indianapolis Motor Speedway was the last chance for 33 drivers to handle their cars on the track before the 49th 500-mile race Monday.

In the past, this period has been largely an extra practice, but the tests have a closer meaning this year.

Many crews, particularly those with new Ford engines, have been trying to find a way to send their cars the full 500 miles on the two mandatory pit stops.

Some mechanics have admitted privately that if they use alcohol, three pit stops will be necessary. A possible solution is to use gasoline but that would mean sacrificing horsepower and would also be adding a fire hazard.

Some mechanics apparently hope to use a blend of the two fuels and varying formulas of such was what they tested today.

The carburetion test period meant much to two 500 veterans, Parnelli Jones, Torrance, Calif., and Lloyd Ruby, Wichita Falls, Tex.

Both got in trouble and their cars hit the wall after they had qualified, causing heavy damage to both. Both were expected to be in shape for the last warm-up.

The apparent readiness of the two cars seemingly dissipated the last chance for veteran Rodger Ward to make the race. A starter in 14 straight 500s, former winner Ward was the first alternate on the basis of his 34th fastest qualifying time.

Ward apparently was resigned to not racing, since it was announced Friday he will do the commentary on a closed-circuit television showing of the speed classic.

With the approach of the race, the city's 500 festival, in progress since May 1, neared its climax — the giant pre-race parade.

The procession of 33 elaborate floats, hundreds of bands and marching units and carloads of television, film and sports celebrities and other notables will wind through downtown Indianapolis at twilight Saturday along a route lined with 37,000 reserved seats in bleachers.

The annual governor's ball was held Friday night.

Villanova And Maryland Powers In Eastern Track

NEW BRUNSWICK, N. J. (AP) —"I don't see how we can possibly beat Maryland."

That's what Villanova Coach Jumbo Jim Elliott said early in the week and again Friday after Maryland's Atlantic Coast Conference champions put a damper on Villanova's hopes for a sixth straight IC4A Outdoor Track Championship.

As expected, the meet turned into a rerun of the indoor games in New York last March with Maryland and Villanova spread-eagling the field. The Terrapins of Coach Jim Kehoe qualified 13 individuals and a mile relay team in Friday's trials while Villanova placed nine men and a relay quartet.

All 18 finals were scheduled for today in Rutgers Stadium, with scoring on a 5-4-3-2-1 basis. Villanova edged Maryland indoors 24 to 21½.

Despite Maryland's edge in Friday's trials, the team championship was far from decided. On today's schedule were five events in which no trials were necessary. Of those five, Villanova was loaded in the miles, three-mile and steeplechase and the same goes for Maryland in the pole vault and high jump.

In addition, Villanova had two men in today's 220-yard semifinals to Maryland's one. The 220 semis were the only non-final on today's program.

An IC4A meet record in the javelin by sophomore Russ White paced the Maryland push. White hurled the spear 241 feet, ½-inch, erasing the mark of 235-7 set by another Maryland star, Nick Kovalakides, in 1960.

The only other record Friday, as the athletes paced themselves, came in the discus where defending champion John Bakkensen of Harvard uncorked a toss of 173-8-½. That abolished the mark of 171 feet set by Yale's Vic Frank in 1950.

Otherwise, the Heptagonal champs saw their long-shot chances fade with only five individual qualifiers. Cornell had six but was not considered a serious threat.

RECOMMENDATIONS FOR EARLY USE OF POST-EMERGENCE WEED CHEMICALS IN COTTON AND CORN OUTLINED

BLOOMFIELD — Grass and weeds are getting to be a problem in a number of cotton and corn fields in this area, and several farmers have asked for information concerning chemicals that might be used as a post-emergence treatment to control these weeds. Of course pre-emergence weed control chemicals were not used in some cases, and in others, pre-emergence chemicals had been applied two weeks or more before the rains came so that the chemicals were not activated. In either case, and especially as a result of the recent rains, farmers are faced with the problem of getting these weeds under control.

For cotton, two post-emergence weed-control chemicals would be recommended for use on cotton now or in the near future depending upon the size of the cotton. These include non-fortified herbicidal oils and DSMA.

Herbicidal oils are recommended for use on cotton that is two inches or more in height, and several local farmers have applicators for applying these oils. Oils should be used as soon as possible after weeds come up. Both results of research and farm experience indicate that the younger the weeds when oils are applied, the better control you can expect. Oils should be applied at the rate of five to seven gallons per acre. They should not be applied at less than five day intervals, and not more than two applications should be made to the crop. Oils should not be applied after cracks begin to occur in the stem of the cotton plant during true bark formation.

DSMA is recommended for use as a post-emergence treatment after cotton is at least three inches tall. It should be applied as a directed spray at the rate of two to three pounds of actual chemical per acre plus an approved surfactant added at the rate of one-half gallon of surfactant per 100 gallons of total spray. Approved surfactants include Colloidal X-77, Sterox SK, and Surfactant W.K. Best results will be obtained from treatments made when the air temperature is 80 degrees F. or higher. Present label clearance permits two applications of this chemical and no treatments should be made after the first bloom appears.

For corn, two chemicals are also recommended as a post-emergence application now or in the near future depending upon the size of the corn and weeds. These include Atrazine and Linvron ("Lorox").

Atrazine will kill weeds and grasses up to 1½ to two inches tall and will give pre-emergence control of those weeds that have not yet come up. Two pounds of actual chemical per acre will give good weed control on almost all soils; however, three pounds or more may be necessary on high organic matter, heavy clay soils. Label restrictions limit post-emergence applications to not later than three weeks after planting. Atrazine residue in the soil may injure small grains or forage crops planted in the fall or spring following an Atrazine-treated corn crop. Results of research indicate that it is safe to produce corn, cotton or sorghum on a field the year following an atrazine treatment and that soybeans can usually be safely grown the year following treatment if the rate of atrazine applied does not exceed two pounds per acre.

Linvron can be applied as a directed spray at the rate of two pounds of actual chemical per acre. A wetting agent will improve the performance of this treatment and surfactant may be used for this purpose as described for DSMA above. It should be applied in such a way as to cover the weeds but to get as little spray as possible on the corn. Injury to those corn leaves receiving the spray is normal, but if only a few lower leaves are affected, no appreciable reduction in yield would be expected. Best results are obtained if the corn is 12 to 18 inches high, and weeds should be under eight inches tall. Be careful not to spray over the top of corn plants, and do not use on sandy soil.

Do not handle these chemicals including the disposal of chemical containers near wells, ponds, springs, or drainage ditches, and dispose of chemical containers in such a way that any person including especially children cannot play with or re-use these containers. It is very important that label directions be read and followed carefully.

Cotton Premiums Announced

BENTON — The USDA announced today the premiums and discounts for grade and stample length of upland cotton which will be used by CCC on making loans under the 1965 Cotton Price Support Program.

As under the 1964 program, premiums and discounts are provided for all official grades of upland cotton.

Base loan rate for middling 1-inch upland cotton at average location will be 29 cents per pound, gross weight. On the basis of premiums and discounts for grade and staple length and average production of each quality for the period 1959 through 1963, the minimum loan rate for middling 1-inch cotton was 69 points above the national average support price for all qualities. Therefore, the national average support price will be 28.31 cents per pound.

Schedules showing base loan rates for middling 1-inch cotton at each approved warehouse will be issued later.

Barley Loan Rate Announced

BENTON — Scott County's price support loan rate for the 1965-crop of barley, grading No. 2 or better, is 88 cents per bushel, according to Tom A. Marshall, office manager of the Scott County ASCS.

The rate is the same as in 1964, less a four-cent change in the national average loan rate of total support.

Cotton Market News

Beneficial rains that ranged from one to five inches covered the South Central Area this week, according to the Consumer and Marketing Service, U. S. D. A. This should be worth a million to cotton farmers. The cotton crop varies from just up to the eight-leaf stage in many older fields.

Spot cotton trading increased. Prices strengthened slightly on some markets. Demand was best for Middling and lower grades with 1-1/32 inches and longer staples. Farmers netted from $1.00 to $3.00 per bale for equities. Cotton loan equities and CCC stock cotton continue to dominate the supply side of the market.

Both domestic and foreign mill buying increased. Domestic mill purchases were for prompt and forward shipments extending through the last quarter.

Memphis---where King Cotton still reigns---is the chosen host for the 14th Universal Cotton Standards Conference on June 3 and 4. Mr. S. R. Smith, Administrator, Consumer and Marketing Service, United States Department of Agriculture, will give the opening address of the meeting to be held at the Peabody Hotel and in Cotton Division facilities at 4841 Summer Avenue, Memphis.

Of Interest To Homemakers

CHARLESTON -- We of the Mississippi County University Extension Center feel fortunate to be able to present Mr. Arthur McArthur in a program on "Parents Are People Too." Mr. McArthur recently joined the State Extension Staff of the University of Missouri as specialist in Human Development and Family Relations.

We hope that each of you parents will be able to be present to hear Mr. McArthur on June 1st, 9:30-11:30, at the 4-H Building on Helena Street in Charleston. Invite a friend or two to come with you. Doughnuts and coffee will be served by the Extension clubs.

GROWTH HAS ORDER. Last month in one of the columns, we said that a child wants to grow. Now let us consider that growth has order.

The child's move toward maturity does not take place in a helter-skelter way. Each child moves along the human track of development. There is a fixed order of maturing, just as there is a set path of tracks each train must follow from Washington to New York.

A child cannot skip being Five and doing what five-year-olds do. He cannot skip being Four. He cannot skip being Three. The final stop is adult maturity. But each station along the way plays its essential part in bringing the child closer and closer to the ultimate end.

At each stage in development there are unique opportunities special to that particular time. There are appropriate tasks to be done and appropriate ways to act. The search for a Sense of Trust, Autonomy, Initiative can best be pursued in the early years. Other jobs come along later in their good time.

The satisfactions of early childhood are so basic that the child who rushes through these years, unfulfilled, must always and persistently come back until his early needs have been met. He goes on "acting like a two-year old," until he lives a satisfying two-year-oldness, if it takes to the end of his days.

Extension Center News

CHARLESTON — Several questions have been raised during the last few days about the safe use of certain insecticides and fungicides.

When I hear a statement of this kind I am always reminded that many competent authorities say that it would not be possible to produce an adequate amount of safe, wholesome food without using chemicals. This simply means that the use of certain chemicals are necessary and it also emphasizes the importance of using all chemicals exactly according to the manufacturers recommendations.

The responsibility for assuring the safe use of agriculture chemicals has been assigned to the U.S. Department of Agriculture and the Food and Drug Administration through a series of laws passed since the Food and Drug Act of 1938. These two groups operate in interstate commerce while their counterpart organizations in the various states check intra-state traffic in agricultural chemicals.

Before any chemical can be sold for use on food in any way, it must carry a label registered by the U.S.D.A. In order to secure a registered label the manufacturer must submit scientific data showing what the chemical is, what it will do, what it can be used on and how much can be used. In addition, the label must explain in detail how to use the chemical and what precautions are necessary to insure that no more than the allowable residue is on the product when it is harvested or sold.

In addition, the manufacturer must submit scientific data sufficient to prove to scientists in the Food and Drug Administration that this chemical either leaves no residue, or that the small residue left is harmless to human beings regardless of how much of the food is consumed or length of time its use is continued. On the basis of this date a tolerance is established for each chemical labeled for each product on which it is to be used. Many of these tolerances are set at zero.

After labels are registered and tolerances are announced, the Food and Drug Administration has seizure power on any food product carrying more than the allowable residue. This condition would likely occur only if the chemical has been misused.

Thus chemicals used in the production, processing, storing, and marketing of food products you eat, are judged to be safe by competent scientists in the field of chemistry, medicine, physics, and related fields. You can rest assured that your food supply is not only abundant and of high quality but is safer from a health standpoint than ever before.

REHEARSAL -- Astronauts Ed White, left, and James McDivitt climb out of a space flight simulator at the Cape Kennedy, Fla., Space center after a rehearsal for a planned walk in space during a 62-orbit mission set for June 3.
(NEA TELEPHOTO)

Keep Wheat Combine In Top Order

LITTLE ROCK, Ark.--Clean, high-quality grain should be the aim of wheat farmers. A combine in top working order can help harvest this kind of grain.

Staff members of the Agricultural Extension Service make these suggestions. First thing is to keep close check on your machine and the job it's doing. Is it cracking grain or leaving weeds and straw in the grain?

You can reduce grain cracking by increasing the cylinder-concave clearance, reducing cylinder speed, or opening the lower sieve slightly. Increasing the wind blast or lowering the tailgate will get rid of shriveled kernels.

Grain moisture can increase when weed stems and straw get into the hopper. To clean the grain, increase the cylinder-concave clearance, reduce the rate of travel, close lower sieve slightly, increase the wind blast and direct it toward the forward end of the sieves.

Weed seeds, too, can lower grain quality. Slow down the cylinder speed, increase the wind blast, close the adjustable sieve slightly, raise the header, or lower the tailgate to separate the weeds from the grain.

Are parts of the grain heads getting into the hopper? Increase the cylinder speed, decrease cylinder-concave clearance or slightly close the adjustable chaffer or sieve.

Make these adjustments slightly and one at a time. Over correction of one problem can create another. You should check your operator's manual on how to make these adjustments on your machine.

64,194 Are Cotton Signers

BENTON--Some 64,194 cotton producers in 19 states have signed up to take 1,013,025 acres out of cotton production this year under the domestic cotton allotment program, according to Roy Proctor, Jr., chairman of the Scott County ASCS, on the basis of the final signup through April 16. The original seven-week signup period which began Feb. 8 was extended twice and ran through April 16.

Farms signed up have effective cotton allotments totaling 3,008,704 acres on which cotton could be planted this year. By signing up under this program, producers agree to keep plantings within the domestic allotment total of 1,995,679 acres.

The number of farms signed increased 657 since the last report on April 21 and the acreage to be kept out of production was up about 6,014 acres. The effective allotments on farms since the last report totaled 14,282 acres and their domestic allotments totaled 8,268 acres.

This report includes figures for cotton signup on the final day of the signup period on April 16. These were not included in the last report issued April 21. In addition, this report includes a final check of all state figures.

To give them a first-hand knowledge of how their pioneer forefathers made a living, Toronto elementary school children are learning the art of churning butter, carding and spinning wool, candle dipping, flailing, winnowing and grinding of corn, and blacksmithing.

This Week IN THE GARDEN

By Art Gaus

Extension Horticulturist
University of Missouri

CULTURE & TRAINING OF TOMATOES

Most gardeners have tomatoes transplanted by now. In fact, the plants should be taking off, so to speak. New growth should be developing, both at the terminal growing point and at each node.

There is a strong temptation among gardeners to speed growth by applying a little fertilizer. With some crops at this growth stage, this may be recommended, but it is not a wise practice with tomatles.

Actually, fertilizer applied to tomatoes now may do more harm than good. Tomatoes require relatively large amounts of plant food. But, they do not need these large quantities of plant food until a good set of fruit has developed.

Too much nitrogen applied before a good set of fruit has developed is likely to result in excessive vegetative growth. Blossoms drop. As a result, total early yields of tomatoes will be considerably less. And early yields are what most of us want in home garden tomatoes.

So, hold off fertilizing your tomatoes now. Wait until a good set of fruit has developed. In fact, most gardeners could wait until the middle to the latter part of June before applying a side dressing of nitrogen fertilizer.

Another and more immediate practice concerning tomatoes is training. For some, this is a simple process -- just let the tomatoes grow like topsy. This is certainly an easy method of growing tomatoes. Fo tomato varieties that are determinate (self-topping) in nature such as the new Sun-up hybrid, this is perhaps the best way of handling them.

Objections to this type of training include the large amount of fruit rot, and difficulty in harvesting fruit that for all essential purposes, lies on the ground.

Now for those gardeners who are most interested in earliness, improved fruit quality, and a more uniform ripening period, some method or methods of staking, tying and pruning are employed.

While there are many methods of supporting and training tomatoes to keep the fruit off the ground, the use of a single wooden stake and a plan pruned to the single stem system is by far the simplest. For those of you who have never staked, pruned, and tied tomatoes, I would suggest this method, at least to begin with. There are modifications of this method that you can use when you gain experience.

For staking tomatoes, use a about five to six feet long. You can purchase such stakes from lumberyards, or if you are fortunate enough to live in a wooded area, such stakes can be found among the saplings.

Place the stake in the tomato row approximately four inches to the side of the plant. Drive it into the soil until it is secure. On light soils this may be 10 to 12 inches, less on heavy soils.

The tomato plant should be tied to the stake as soon as it is large enough, so the wind does not whip the plant and possibly damage it. Use a soft twine or cord. There are many ways to tie a tomato plant to a stake, but just be sure there is a little play between the tomato stem and the stake to allow for expansion of the stem.

Pruning consists simply of removing all the shoots that grw where a leaf (leaflet branch) arises from the main stem. We call these shoots, suckers. Grasp the sucker by the thumb and fore-finger and pull outward and downward. Suckers should be removed before they exceed four inches in length. Be sure you don't remove the growing tip of the tomato plant.

THE 4-H RECORD

By BILL BOGART

Extension Area Youth Agent

YOUTH AGENT'S JOB

What is the job of the Extension Youth Agent? The rapid changes made in 4-H the past few years and the expanded clientele of the Youth Agent may have caused you to ponder this question.

The Extension Youth Agent is the designated faculty member of the University of Missouri who is responsible for implementing the resources of the University relating to youth development in his assigned county or area. He extends his efforts for youth development in three major areas 1) working with existing youth - serving agencies 2) working with youth not yet involved with any youth group 3) acting as superintendent for the 4-H program in his county or area.

His main responsibility is for teaching leaders to assume thei teaching leaders to assume their responsibility as volunteer youth leaders. He establishes educational events tablishes educational events and works with committees to carry out and evaluate them. The Extension Youth Agent also works directly with 4-H junior leaders in a program of self - improvement through practicing leadership principles.

4-H TRACTOR DRIVER TRAINING

Would you like your son to learn how to drive a tractor more safely? There is a new 4-H program of farm tractor driver training available for young people in Missouri.

Each year almost 1/5 of the 50 Missouri people killed in farm tractor accidents are young people under 14. These accidents are caused by poor judgment and lack of knowledge of how a tractor operates under various conditions.

Proper training will help to improve the knowledge and the judgment of the tractor operator and thus decrease his chances of having an accident.

Automobile driver training courses for young people have effectively reduced automobile accidents. Those who have taken automobile driver training have only one-half the number of accidents of those not taking the training. It is felt that the program of tractor driver training will similarly reduce farm tractor accidents to young people.

4-H tractor driver training program, which is the first project of the 4-H program is available to young people 12 years old or older.

Young people who have been driving tractors for several years could still learn much from the 4-H tractor driver training.

DECORATIVE SALADS

At this season of the year one of the more favorite menu pleasers is a nice crisp salad.

Salads have a very important place in the meal or the snack. Ingredients used in most salads contribute valuable vitamins and minerals.

The dark green and yellow vegetables contain carotene which the body changes to vitamin A. Many dark green, leafy vegetables are sources of vitamin C, Calcium, Iron, and riboflavin as well.

Therefore, large amounts of it can be stored in the body. Vitamin A also influences the ability of the eye to adjust to 11 KILL ABOVE SENT. START. WITH VIT. A. also influen. A serving of deep yellor or dark green, leafy vegetables at least every other day is recommended.

Vitamin A is necessary for normal growth and development of children and adolescents. It is needed for healthy skin, including the inner linings of the body. Vitamin A also influences the ability of the eye to adjust to limited amounts of light.

Salads often include citrus fruits and other fruits and vegetables high in vitamin C or ascorbic acid. A single orange or a combination of foods can provide the vitamin C you need daily.

Vitamin C is water soluble and is not stored in the body. Therefore, the recommended daily allowance of vitamin C should be consumed each day. If more than the needed amount is consumed in one day, the excess amount is expelled.

TYPES OF SALADS

Salads play many roles. They fit any course or menu. They should contribute coolness, crispness, color, flavor, and interest to the menu.

Salads are usually classified according to their composition and their place in the menu:

FIRST COURSE SALADS - Served before the meal. They are designed to whet the appetite.

LIGHT DINNER SALADS - Served with the main course. Portions are small.

MAIN DISH SALADS - Serve as the main dish in the meal. Portions are larger, dressings heavier, and a protein food such as meat, fish, or eggs, is included.

DESSERT SALADS - Served as the dessert to complete the meal.

REFRESHMENT SALADS - Served as
Served between meals. Used to refresh rather than satisfy the appetite.

PREPARING THE SALAD

Preparing an attractive tasty salad can be as creative and satisfying as arranging a beautiful floral center piece. Try for pleasing color combinations, a balanced arrangement, and interesting contrast in texture and shape. Blend flavors skillfully to take advantage of appealing combinations and contrasts.

Here are some rules to observe when preparing salads.
KEEP SALADS SIMPLE - Avoid a too arranged appearance.
SERVE SALADS CRISP - Not drowned in salad dressing.
SERVE SALADS COLD - Chill ingredients and serving dishes before serving. Combine flavors that go well together.

The United States is digging about 40 million ounces of silver annually, but it is using 120 million yearly just for coinage.

The nation's vending-machine industry is now a $3.2 billion a year business.

The nation's coin-operated laundry industry, which started in 1948, has blossomed into a $500 million a year business.

Canalou--Mr. and Mrs. Holland Evans of Dexter have purchased the cafe formerly owned and operated by Mr. and Mrs. Jim Coppage.

Oran--Mrs. Virginia Kelley of New Orleans, La., is visiting relatives here this week.

Blodgett--Mrs. Robert Davis of Morley is now employed at the Blodgett Mercantile Company's store here.

Commerce--Mrs. James Hood of Chaffee spent Tuesday here with friends and relatives.

PRAYER

For Today From The Upper Room

If I speak in the tongues of men and of angels, but have not love, I am a noisy gong or a clanging cymbal. (I Corinthians 13:1, RSV)

PRAYER: Dear Lord, out of the wealth of love that surrounds us, the abundance of things we call our own, and the money entrusted to us, help us to share with those who are in need. We pray in the name of Jesus. Amen.

---

11 Senior Citizen Home Applications

NEW MADRID -- President Johnson has designated May as Senior Citizen Month.

The FHA in New Madrid County has obtained 11 new senior citizen applications for the construction of new dwellings.

Since the inception of the program for senior citizens in mic 1962, the New Madrid office has completed eight new houses, which are now occupied by the elderly. Thirteen more are now in construction and seven are pending.

Most of the houses are two bedroom, bathroom, living-room, kitchen, and dining area and are well built to FHA specifications. These homes are located in Marston, Lilbourn, Matthews, Parma, Risco, Tallapossa, and Morehouse.

They may be constructed in any rural town of not more than 2,500 population.

Retired farmers and other rural residents may receive senior citizen housing loans through the FHA. Persons 62 years of age and older have an opportunity to obtain housing suited to their needs in the community in which they have worked. Credit is also provided to individuals, corporations, and cooperatives for construction of rental housing facilities for senior citizens.

Individual rural housing loans may be spread up to 33 years depending on the ability to pay. They bear interest at 4 per cent on the unpaid balance of the loan.

Anyone interested in a senior citizen loan for construction of a new dwelling or the purchase or repair of an older one may contact the New Madrid County office of the FHA which is located north of the courthouse in the Hartwell-Baird building.

Supervisors are in the office on Monday mornings from 8 a.m. to noon.

ANN LANDERS
Answers Your Problems

Dear Ann Landers: I just read the letter from the girl who has a weight problem. That makes two of us, only she is 19 and I am 14.

You suggested she see a physician or a counselor. My mother says I am too young to see a physician or a counselor. I am not arguing, because I know what my problem is.

I keep seeing pictures of starving kids from foreign countries. They are holding empty bowls and spoons and their eyes are so sad. This fractures me. Some weeks I give my whole allowance to missions but I still feel I'm not doing enough. I've already decided to join the Peace Corps.

I keep thinking of those starving kids and I can't stop eating. What shall I do? --FAT MISSIONARY FROM CANTON

Dear Mish: Try reverse psychology. Find some pictures of fat people. Whenever you feel like gorging yourself, look at a picture.

A fat missionary would have a very tough time in the jungle. For the sake of humanity you must keep your weight down.

If this doesn't work tell your mother that people of ALL ages need to be checked periodically by a doctor.

Dear Ann Landers: My wife is always shoving your column under my nose, especially when you have a letter about a husband who likes to drink beer and sit in front of the TV set. Please print this letter so I can shove it under her nose.

We have three good sons, the oldest 12, the youngest 7. Whenever one of them has a fight with a neighborhood kid my wife jumps right in, phoning mothers and going over in person to "make sure our boy comes out all right."

The kids always make up but my wife is not on speaking terms with half the neighborhood. Please print your advice.--THE OLD MAN

Dear Man: A mother who becomes involved in petty squabbles of her children is more childish than they are.

Ask your wife to please wait until you get home before she "does anything." By then the trouble will have been settled--by the kids.

Dear Ann Landers: Our niece, who is only 27, lost her young husband in a tragic accident six months ago. They had been married less than a year.

Her parents felt that Regina would be better off in another city--away from memories--so they asked if she could live with us until she found a job and an apartment of her own. We were delighted to help.

Regina has been with us four months. She found an excellent position as a bilingual secretary at $125 a week and seems to have recovered from her grief. She has a date almost every night.

The girl says nothing about finding her own apartment. In the meantime I am doing her washing and ironing and preparing her meals. She entertains at our home and hands me the grocery list for her parties. She has never offered to pay for anything--says she wouldn't insult us by suggesting our hospitality is purchasable.

We are pleased that Regina feels at home here but we think she should start to pay for room and board. On the other hand, she has suffered a great tragedy and we feel sorry for her. Advise us please.--JUST FOLKS

Dear Folks: If Regina is dating every night she has recovered. Suggest that she "insult" you with about $30 a week until she finds a place of her own--which will cost her at least twice as much.

Do you lean on cigaretts as a social crutch? You may regret it later. Send for Ann Landers' booklet, "Teen-age Smoking," enclosing with your request 10¢ in coin and a long, self-addressed, stamped envelope.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper enclosing a stamped, self-addressed envelope.

The USS Sam Rayburn, the nation's 28th Polaris-type submarine, was the 50th nuclear underwater craft to become operational.

TRAVEL-MINDED—Judy Hill, 1965 Maid of Cotton, loves the crisp freshness of sand beige textured cotton, especially when it's shaped into a sleek two-piece dress with an understated air. Designed by Bill Blass of Maurice Rentner, the dress features fashion's new side closing and slightly extended shoulders. It's from the Maid's fashionable all-cotton wardrobe by leading American designers.

Control of Weeds to Be Shown

PORTAGEVILLE -- Farmers will have an opportunity to observe the latest developments in weed control research at the Delta Center.

A tour of the weed control research has been scheduled for 1:30 p.m., Friday at the experimental field, five miles east of Portageville.

Weed control studies to be observed on the tour will include:

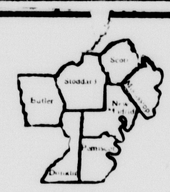
Johnsongrass control in cropland with special emphasis on control methods in cotton, corn and soybeans.

Pre and post emergence weed control in cotton along with different soil incorporation and cultivation methods.

Pre-emergence and soil incorporation of herbicides on soybeans.

Special weed control studies on gumbo soils including numerous seed bed preparation for soybeans.

Bootheel Beat . . .



—By MAX STURM—

SOUTHEAST MISSOURI NEWS SIDELIGHTS, FEATURES AND OBSERVATIONS.

AFTER A HAYTI SENIOR boy painted the sign, "Sr. 64-65", on a side of one of the city's municipal water tanks, Mayor L. R. Bain ordered a police investigation to find out who did it.

bootheel beat inside with one col pic

Juvenile Delinquency in the Missouri Bootheel is a relatively minor problem. By far the large majority of our young people conduct themselves in a commendable fashion, leading law-abiding lives--often more so than a number of adult citizens. In spite of the large number of teenagers in the region, we have little trouble of a serious nature with them.

When a situation does arise in which a teenager or two runs into conflict with the law, how it is handled by the adult officials taking an interest and action in the matter is something that must be given thorough thought and consideration. The teenagers are watching, and how a particular case is handled makes a strong impression on them, and they can use such as a basis for their own future actions. In such a situation, it is quite possible to win a police battle but lose the psychological war with the young people.

An illustration of this is the city tank painting episode in Hayti recently. As a school-closing escapade, a boy member of Hayti High School senior class climbed one of the city's water towers one midnight and spray-painted "Sr. 64-65" on the side of the tank facing the high school, hoping it would remain as an aerial memorial for his graduating class. Another boy waited on the ground. While similar tank sign-painting has been done for years in various communities over the nation, it appeared that this was the first time it had been done in Hayti.

The first impression made on the young people of the town was when Mayor L. R. Bain directed Chief of Police Fritz McKay to conduct a full investigation to find out who had executed this "rank defacement of city property," and haul him or them into police court.

In the investigation the cooperation of High School Principal Melvin Manning was acquired. He began calling members of the senior class into his office one at a time in an effort to get them to give the names of the boys involved. The impression made on the young people in this questioning was adverse in that they considered it an invasion of their civil rights -- especially after they found out that, according to law, the principal had no legal right to interrogate them in the matter since the sign-painting was not performed on school property or during school hours or during any evening activity sponsored by the school.

A member of the high school faculty then interested herself in the matter on the basis that the sign was a bad reflection on the school, so she proposed that one of the boys involved who happened to be in one of her classes be compelled to get up at a school assembly and apologize to the student body for his part in the prank. This created a solid impression on the students and wheels began turning among them to do something about it.

The police, of course, finally found out who the boys were, so they were picked up and escorted to the city hall for a conference with the chief of police and the Mayor. In the questioning, one of the boys said that they were threatened with a lie detector test, so they became frightened about this and admitted their deed. An impression was made on them when they found out later that they may have been tricked since there is still such a thing as the Fifth Amendment.

After their confession they were issued a summons for an appearance in city police court --with their parents. Another impression made on them was the fact that at no time were their parents contacted about the matter until they were issued the police court summons.

While officialdom appeared to building the case up to major proportions, the high school students were taking a different view of it. Many of them had become enchanted with the idea that one of their number had the guts to climb the high water tower at midnight and paint the sign, a highly risky job at best in bright daylight. They also considered the sign as a great boost in school spirit instead of a bad reflection on the school, so they began making plans to protect and defend the two culprits in their involvement with the school administration, faculty, police and the city administration.

First, the afternoon before the assembly at which the apology was to be made, a resolution was quietly circulated at the school condoning the two boys for their school spirit in painting the sign. Next, that night a large sign designating the two boys as school heroes was hung on the school flay pole, and plans were made for the student body to rise in the assembly next morning and give the two boys a standing ovation after the apology was made. The students, however, never had an opportunity to go through with it since Principal Manning found out about it and canceled the assembly.

The official who appeared to have a girm grip on the thing was Police Judge P. O. Davis who lectured the boys on the dangers of climbing city water tanks and setting a pattern for others to follow, defacing city property, then told them to get lost, after citing the following Scripture: ". . . He that is without sin among you, let him first cast a stone. . ." (John 8:1-7.)

So that is the story of the Great Senior Sign - Painting Crime in Hayti. As a parent of the boy who climbed the tank and painted the sign, I don't condone it but I am glad that he had the nerve to do it since that kind of nerve will be needed in the career he plans to follow. (Incidentally, he has made a deal with the mayor to climb the tank again and paint out the sign).

Regardless of who might have done it, my point is that when we adults set out to discipline or punish young people we ought to be sure that we are above reproach ourselves, and proceed in such a manner as to gain their respect, not their anomosity.

No. 5 . . . . . $1.25

There will be a premium of two cents per bushel on Heavy wheat grading No. 2 or better. Light smutty wheat will be discounted at the rate of two cents per bushel; smutty six cents per bushel; light garlicky 5 cents and garlicky 10 cents.

June 3 and 4 Meeting

Memphis---where King Cotton still reigns--is the chosen host for the 14th Universal Cotton Standards Conference on June 3 and 4. Mr. S. R. Smith, Administrator, will give the opening address of the meeting to be held at the Peabody and in Cotton Division facilities at 4841 Summer Avenue, Memphis.

Representatives of the United States Department of Agriculture and cotton associations in Belgium, France, Germany, Inda, Italy, Japan, the Netherlands, Poland, Spain and the United Kingdom will participate as signatories to the agreement. Also, representatives of cotton producers, spinners, shippers, spot and future exchanges and other segments of the cotton industry in the United States will attend and participate in the work of the Conference.

The primary function of the Conference will be to (1) examine and approve key sets and copies of the Universal Cotton Standards prepared by the United States Department of Agriculture for use in this country and abroad during the next three years, and (2) consider the establishment of a new physical standard for Strict Good Ordinary Spotted cotton and a descriptive standard for Strict Good Ordinary Light Spotted Cotton.

Little Hope For Trapped Miners

NEW DELHI, India AP -- A government spokesman said today there is little hope of anyone escaping alive from the shattered bhori coal mine in eastern India where an explosion killed an estimated 250 to 400 men.

Mine officials sealed some air intakes in an effort to stifle the flames that erupted after the blast had ripped through three levels of the mine before dawn Friday.

Flames and gases drove rescue teams back to the surface. With many exits covered by fire fighters, any survivors have little chance of escaping, a government spokesman said.

The official acknowledged he was "taking the low figure" in estimating that 250 men were dead. Labor union leaders put it at 400.

The blast came at shift changing time and officials could not say exactly how many men from the old shift had left the mine or how many of the relief had entered.

Teams wearing gas masks entered the mine about 12 hours after the explosion, the labor Ministry reported.

The rescuers pushed into three levels hit by the blast 150 to 200 feet below the surface but they withdrew when the flames broke out.

"Nobody who was working down there has yet escaped," the government spokesman said.

Unless the flames can be extinguished, he said, it is possible the mine will be sealed tightly.

If a government is correct in its estimate that at least 250 men are dead, the Bhori colliery explosion would be the worst mine disaster in India's history.

Parma Man Appointed To Atomic Energy Commission

JEFFERSON CITY AP--Gov. Warren E. Hearnes today appointed Lelan Culp, Warrensburg Democrat, as a member of the board of regents for Central Missouri State College at Warrensburg.

The governor also reappointed one member of the Atomic Energy Commission and appointed six other members.

Reappointed was Daniel S. Oppelsheimer of Rolla.

Appointed were:

Hugh W. Parks of Parma, Willard Wilkinson of Kansas City, W. Stanley Stuart of LaDue, Harold L. Satz of University City, Edward Monaco of Bel Nor, and Dr. Thomas W. Carroll of Lamar.

Also reappointed today:

James J. Bulter of Clayton as chairman of the Industrial Commission.

Roy E. Baker of North Kansas City as a member of the state Board of Accountancy.

Hearnes appointed William A. Cornwell of Joplin and James E. Moulder of St. Louis County, as members of the Board of Registration for Architects and Professional Engineers.

Two Water Districts In Dexter

DEXTER -- Two rural water districts, which will eventually provide modern running water facilities for two rural areas in this vicinity, were given approval by the voters within the districts this week--the first step towards realizing the convenience of water for the areas.

One of the water districts is immediately southwest of Dexter, along Route "F", or One Mile Road. The area is described as South of Grant Street, along One Mile Road to Route "Z". This water district will serve approximately 160 homes, according to present plans.

Organization of the district was approved by the voters this week by a vote of 96 to 0--thus forming Water District No. 1. Next step will be the formation of a board of trustees, and later, the district will vote on revenue bonds to finance the construction of the water system.

The second area is known as District No. 2 and is in parts of three counties -- Stoddard, Scott and Cape Girardeau. The area is in the Hagy-Randals-Painton area, along Route "P", and will serve approximately 150 homes in that area. This organization was approved by the voters in that district this week by a vote of 150 to 0.

In District No. 1, it is tentatively planned to drill a large well somewhere near the Lovins Orchard, and a storage tank will be located south of Dexter, near the Floyd Gales farm. In District No. 2, the well will likely be located at the community of Perkins, and the tank at the town of Painton, according to present plans.

C. R. Trotter, P. E., local civil engineer, is consulting engineer for both projects and Marvin Jones, local attorney, is the attorney for both.

It will be sometime yet before actual work can be done, since further organizational work and other details must be completed, Trotter explained.

These are the first such rural water districts to be formed in this immediate area, but the plan is being widely used in other areas, thus bringing the convenience of modern water facilities to rural communities.

Women Killed

KENNETT, Mo. AP -- Two women were killed in a one-car accident on Missouri 25 at the southwestern tip of the Bootheel at approximately 1 a.m. today.

Dead are Gracie May Casey, 46, of Fort Smith, Ark., and Beulah May Lowery, 69, of Kennett.

In critical condition is John Tilman Casey, 56, also of Fort Smith.

The highway patrol said the car ran off the road at a curve and 183 feet into a culvert.

The accident occurred near Arbyrd, a small community 20 miles south of Kennett.

THE CITY OF SIKESTON, MISSOURI
Resolution

A resolution declaring the necessity for the construction of 1½ inch hotmix asphaltic pavement on 7 inch soil cement base, 24 feet wide on South Ingram Street from Malone Avenue to a point approximately 1350 feet south in the City of Sikeston, Missouri; stating the nature of the improvement; the estimated cost and providing that payment for all of the improvement shall be made by special tax bills levied and assessed against the abutting property. Be it resolved by the Council of the City of Sikeston, State of Missouri, as follows: Section 1: That the Council of the City of Sikeston, Missouri, deems and declares the construction of said Street necessary to the welfare and improvement of the City of Sikeston. Section 2: That the nature and scope of the improvement shall consist of furnishing all cost, including labor, materials and transportation necessary for the complete construction of the improvement. Section 3: That the estimated cost of the improvement is $4.60 per lineal foot of abutting property, to be charged against the lots and tracts of land abutting the improvement. Section 4: That payment for all of the improvement shall be made by special tax bills evidencing special assessments against the abutting property in the manner specified by the statutes of the State of Missouri and the ordinances of the City of Sikeston, Missouri, because in the opinion of the City Council the General Revenue fund of the City of Sikeston is not in a condition to warrant an expenditure therefrom to pay for the improvement. Section 5: That any work performed on construction of the improvement shall be in compliance with the provisions of the prevailing wage laws of the State of Missouri, such prevailing wage rates having been established by the Industrial Commission of Missouri. Section 6: That the City Clerk is hereby authorized and directed to furnish a copy of this Resolution to a daily newspaper of general circulation in the City of Sikeston, so that it shall be published for seven consecutive insertions. Read the first, second and third times and passed and approved this 21st day of May, 1965. Approved: Kendall Sikes, Mayor; Attest: John W. Vaughn, City Clerk.

Milling Firm Extends Operations To Dexter

DEXTER -- The Scott County Milling Company began construction this week on a building that will house seed cleaning facilities.

The new building will be situated on the southeast corner of the company property on North Mulberry Street.

The Ralph Boyer Construction Company of Sikeston has the contract for the building.

THE CITY OF SIKESTON, MISSOURI
Resolution

A resolution declaring the necessity for the construction of hotmix asphaltic pavement on soil cement base with concrete curb and gutter on Kentucky Road from Missouri to Broadway in the City of Sikeston, Missouri; stating the nature of the improvement; the estimated cost and providing that payment for all of the improvement shall be made by special tax bills levied and assessed against the abutting property. Be it resolved by the Council of the City of Sikeston, State of Missouri, as follows: Section 1: That the Council of the City of Sikeston, Missouri, deems and declares the construction of said Street necessary to the welfare and improvement of the City of Sikeston. Section 2: That the nature and scope of the improvement shall consist of furnishing all cost, including labor, materials and transportation necessary for the complete construction of the improvement. Section 3: That the estimated cost of the improvement is $2.75 per lineal foot of abutting property, to be charged against the lots and tracts of land abutting the improvement. Section 4: That payment for all of the improvement shall be made by special tax bills evidencing special assessments against the abutting property in the manner specified by the statutes of the State of Missouri and the ordinances of the City of Sikeston, Missouri, because in the opinion of the City Council the General Revenue fund of the City of Sikeston is not in a condition to warrant an expenditure therefrom to pay for the improvement. Section 5: That any work performed on construction of the improvement shall be in compliance with the provisions of the prevailing wage laws of the State of Missouri, such prevailing wage rates having been established by the Industrial Commission of Missouri. Read the first, second and third times and passed and approved this 21st day of May, 1965. Approved: Kendall Sikes, Mayor; Attest: John W. Vaughn, City Clerk.
205 inc 213

NOTICE TO CONTRACTORS

Notice is hereby given that sealed bids will be received at the office of the City Clerk in Sikeston, Missouri, until 7:30 p.m., June 7, 1965, for the furnishing of all materials, equipment, labor, costs and construction of the following items; in accordance with the plans and specifications on file in the office of the City Administrative Building, viz:

Item 1: Hotmix asphaltic pavement on soil cement base with concrete curb and gutter on North West Street from Compress Road to a point 505 feet north.

Item 2: Hotmix asphaltic pavement on soil cement base with concrete curb and gutter on Selma Street from Kathleen Street to Matthews Street.

Copies of the plans and specifications are available to bidders, and may be obtained from the City Clerk upon payment of two dollars ($2.00) for each set of plans. Successful bidder shall post a performance bond for the full amount of each contract.

All proposals must stipulate that contractors will accept in payment thereof, special tax bills issued against the property abutting the improvement. Sealed bids will be submitted separately on each or any of the items as listed above and separate contracts shall be awarded on each item.

The City reserves the right to reject all or any bids.

John W. Vaughn
City Clerk
205 inc 209

Debtors: Eugene R. Yoakley, Lita Yoakley.

Today In U. S. History

By THE ASSOCIATED PRESS

Today is Saturday, May 29, the 149th day of 1965. There are 216 days left in the year.

Today's highlight in history:

On this date in 1765, Patrick Henry introduced a resolution in the Virginia House of Burgesses calling on the assembly to take over full control of the right to tax Virginians. The resolution was a forerunner of the War for Independence.

On this date

In 1848, Wisconsin was admitted to the Union as the 30th state.

In 1910, Glenn Curtis flew from Albany to New York City, 137 miles in 2 1/2 hours, breaking the long-distance air speed record.

In 1918, President Woodrow Wilson created the U. S. War Industries Board.

In 1946, President Harry S. Truman and his daughter, Margaret, were awarded degrees by George Washington University; it was graduation day for Margaret--her father was given an honorary degree.

Ten years ago--The American Red Cross allotted $1 million for relief in Midwest and South areas hit by tornadoes.

Five years ago -- Former President Syngman Rhee of South Korea left with his wife for what was called an indefinite rest in Honolulu.

One year ago--President John F. Kennedy's widow and two children visited his grave on what would have been his 47th birthday.

Seek Funds To Battle Bird Fever

DEXTER — A report with recommendations pertaining to the control of histoplasmosis in Stoddard County was received last week by city officials from Dr. Fred Tosh, public health station, Kansas City, Kas.

According to the report, funds for the project are to be requested through the anti-poverty program of the federal government.

The objective of the histoplasmosis control program was listed by Dr. Tosh: (1) provide employment for disadvantaged persons in the city; (2) relieve an immediate health problem; (3) stimulate interest in health programs (4) demonstrate that histoplasmosis can be controlled.

The estimated cost for the control in the county was placed at $49,715.

The breakdown of the expected expense is as follows: formaldehyde — 58,000 gallons — $21,460; one truck — $5,000; gasoline — 1,500 gallons — $375; metered pump —$300; bulldozer and operator services for four weeks, $1,280; supplies for skin testing $1,000; laboratory costs, culture of 3,000 soils, $6,000; personnel, truck driver $4,000; assistant $3,500; clerks for skin testing program, four, $800; coordinator for skin testing program, $4,000; travel for personnel $2,000. It is possible that an additional $2,000 will be included in the budget for travel expense and pay for the clerks of the testing program.

It was recommended in the report that a county-wide skin testing program be instigated; that two persons be employed to carry out the decontamination of chicken houses and starling roosts in the county using formaldehyde solution. After the roosting area has been decontaminated, the trees in the roost can be cut down and the area bulldozed to prevent the possibility of recontamination.

The ancient, 180-foot Wasa, once the mightiest ship in Sweden's navy, sailed only a mile in Stockholm harbor on her maiden voyage in 1628, capsized and remained submerged until she was raised in 1961.

IT'S UP TO YOU

By *Howard E. Kershner, L.H.D.*

Another Boost for Communism

THE United States and Communist Rumania have agreed to expand relations and to exchange ambassadors. Individual export licenses will not be required for most commodities going from our country to Communist Rumania. Bucharest already has a trade office in New York, and the United States is considering the establishment of a trade promotion office in Bucharest. Our officials are seriously considering the sale of a nuclear reactor to Rumania.

Dr. Kershner

Those who favor exporting American goods to Communist Rumania hope that this will wean that country away from the Soviet Union. This hope has proven false wherever that policy has been tried. After years of trade with Yugoslavia, plus billions of dollars of aid, that country is more pro-Soviet and anti-American than ever.

After receiving hundreds of millions in American aid, President Sukarno of Indonesia publicly derides America for its help and praises the Soviet bloc countries for assistance received from them.

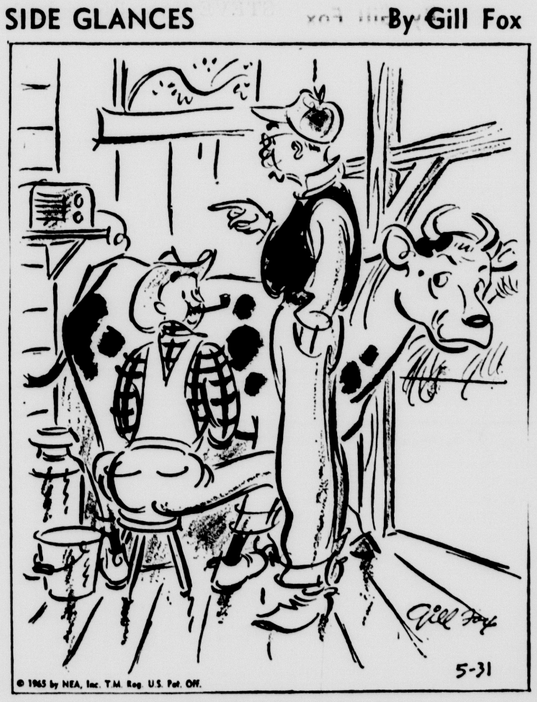
While receiving trade delegations from U.S.A., Communist Rumania is at the same time negotiating with Communist China.

Rumania was invaded by the Red Russian Army in August, 1944 and has since been forced to submit to Red rule. Landowners were dispossessed and most banks, industries, and transportation nationalized. The Rumanian constitution is patterned on the Soviet model.

Trade with Communist countries strengthens them. Our aid has kept communism afloat all these years. A no-trade, no-aid policy toward all Communist nations without exception would have long since made clear that communism is not successful and cannot even feed its own people. This would have led to the overthrow of the Communist tyrants and the establishment of free countries and open markets. How long will the people of the United States permit its government to continue the support of those who have sworn to destroy us?

Howard Kershner's Commentaries, Inc., Box 450, Radio City Station, New York, N.Y. 10019

SIDE GLANCES — By Gill Fox



"Turn that radio off before the Kiddie Hour comes on. Violence upsets cows!"

CARNIVAL — By Dick Turner

"Seems to me the government could help more by providing free lunches to the FATHERS instead of to us kids in school!"

Timely Tips

By JEWEL GRADY, HOME ECONOMIST

NEW PICKLE RELISH BULLETIN

It's not too early to start planning ways to use the garden vegetables you have planted. Plans might include ways to use cucumbers, green peppers, corn -- and even green beans.

For recipes to turn these vegetables into pickled products that truly add zest to a meal, you'll want a copy of the new USDA bulletin, "Making Pickles and Relishes at Home."

This bulletin gives specific directions for selecting and preparing pickling ingredients and for processing pickles and relishes. Included are basic recipes for the old-time favorites, such as brined dill pickles, pickled peaches, piccalilli, and sauerkraut; and for the newer fresh-pack or quick-process dills, sweet gherkins, crosscut pickle slices, and dilled green beans. Spices in these basic recipes can be increased or decreased, of course, to please your family's tastes.

Single copies of "Making Pickles and Relishes at Home," (HG-92) are available free from the University Extension Center, Bloomfield, Missouri 63825, Phone LO 8-3344. Also the Mo. publication circular 688, "Pickles and Relishes." This bulletin contains ways to pickle fruits such as peaches, pears and etc.

New Madrid Honor Roll Announced

NEW MADRID: -- Honor roll students at New Madrid schools and those with perfect attendance records for the final period were announced this week, following the closing of the 1964-65 school year last week.

High School Principal Glenn Dyke also listed those students who had received awards at Commencement Exercises last Thursday evening and awards given at an assembly program held Friday at the high school, after report cards had been issued to the students.

Awards presented at the Commencement Exercise not previously listed were Bookkeeping I -- Eva Horton and Janis Pearson; Bookkeeping II --Mary Porter; Shorthand -- Faye Henry; Secretarial Practice -- Jeanette Cravens; Latin II -- William Baird and Charlene Ragan; Science -- Jackie Long; Industrial Arts, drafting -- C. B. Alsobrook; Journalism -- Elizabeth Boulton; Athletic -- Martha Barbre and Larry Glenn; and Brenda Quinn received both the Math and English IV award.

In the assembly Friday the following awards were made:

Typing -- Vicki Blom; Biology -- Amelia Shibley; English II -- Peggy Sides; Typing (50 words per minute pins) -- Vicki Blom, Sue Brotherton, Jeanette Cravens, Mary Dawson, Sally Ellison, Mary Beth Meier, Karen Scobey, Peggy Sides and Patricia Taylor; (60 words per minute pin) Jeanette Cravens.

Shorthand (100 words per minute pin) -- Lura Lee Blankenship, Delores Box, Jeanette Cravens, Mary Dawson, Faye Henry, Mary Porter and Patricia Taylor; (110 words per minute pin) --Lura Lee Blankenship, Delores Box, Jeanette Cravens, Faye Henry and Patricia Taylor.

The Junior Chamber of Commerce Award of a $100.00 scholarship was awarded to Elizabeth Boulton.

Janis Pearson received the Regents Scholarship from Southeast Missouri State College.

Athletic letters were presented to boys lettering in baseball and basketball by Mr. Compton. Mrs. Vaughn presented letters to girls lettering in volleyball.

Principal Dyke listed the following as being on the Honor Roll at the high school for the final nine-week period:

Seniors -- William Baird, Elizabeth Boulton, Delores Box, Ann Copeland, Jeanette Cravens, Faye Henry, Peggy Henry, Eva Horton, Jane Johnson, Donna Krebs, Linda Leonberger, Jackie Long, Janis Pearson, Mary Porter, Brenda Quinn, Charlene Ragan, Martha Riley and Pat Taylor.

Juniors - Kathy Boyer, Linda Dees, Sherry Edwards, Sue Fowler, Patty Holland, Barbara Lindsey, Tommy Maddox, Martha Moore, Janie Parker, Mike Shibley and Theresa Cravens.

Sophomores -- Vicki Blom, Sue Brotherton, John Davis, Peter Dawson, Sally Ellison, Paula Halford, Becky Koon, Mary Beth Meier, Sue Recker, Steve Riley, Karen Scobey, Amelia Shibley, Peggy Sides and Jeanne Winchester.

Freshmen -- Mara Jack Allen, Dickie Bartlett, Mike Dawson, Debbie McRaven and Susan Riley.

The principal listed those with perfect attendance records as follows:

Seniors -- William Blard, Ralph Barnwell, Lura Lee Blankenship, George Bock, Elizabeth Boulton, Bill Boyd, Tommy Bradley, Calvin Broughton, Gary Clark, Bill Dawson, Gladis Gates, Bobby Hedgepeth, Faye Henry, Jane Johnson, Roger Kirk, Tommy Lawfield, Linda Leonberger, Janis Pearson, Margaret Phillips, Brenda Quinn, Martha Riley, Patricia Taylor, Lee Anna Truett, Virginia Wathen and Jimmy Watson.

Juniors -- Wiley Allred, Teresa Clark, Wayne Davis, Marilyn Eddy, Gerald Harris, Jackie Holdiness, Maxine Hutton, Tommy Maddox, Doris Meunier, Martha Moore and Rodger Patterson.

Sophomores -- Mike Andrews, Barbara Bowman, Hazel Boulton, Holly Dorris, Sally Ellison, Tony Fowler, Garry Hendrix, Tommy Hutton, Becky Koon, Sue Lindsey, Jim Mann, Larry Odom, Louie Organ, Beth Riley, Amelia Shibley, Peggy Sides and Myra Woolf.

Freshmen -- Larry Adams, Dickie Bartlett, Bruce Basham, Jimmy Bradley, Mark Broughton, Jerry Cagle, Karen Dees, Mary Ann Eddy, Mary Catherine Hunter, Debbie McRaven, John Odom, William Wilkins and Rosa Willis.

Principal Tommu Krebs of New Madrid Junior High School has listed students on the Honor Roll for the final quarter and has named those with perfect attendance for the period.

Eighth - Betty Lou Gardner, Charlotte Lowe and Janet Thompson.

Seventh - Joe Davis.

Sixth - Ronnie Andrews, Donna Cokenour and Melinda Schuette.

Fifth - Linda Commer, Pam Dyke, Janelle Horton and Randall Robbins.

Fourth -- Fred Copeland, Susan Newton, Terry Hadder, Jon Duin, MelindaKolwyck, Charles Blue, Donnie DeMoss and Tony Jones.

Those listed by the principal with perfect attendance were:

Eighth -- David Howard, Donald Hutton, Larry Maxwell, Mary Pat Martin, Paula Pikey, Linda Stewart, Steve Williams, Madeline Cowan, Betty Lou Gardner, James Jamerson, Randal Krebs.

Cont. from page 1

David R. Gilliland, 1514 E. Kathleen, charged with running a stop sign, had his case continued to June 3.

Raymond Reed, 245 W. Kathleen, charged with disturbing the peace, entered a plea of guilty and was fined $19 and costs, $25. On a second charge for disturbing the peace he pleaded guilty and again was fined $19 and costs, $25.

Carolyn G. Bell, 851 Agnes, charged with careless and imprudent driving, pleaded guilty, but the case was dismissed.

Ival J. Hannah, Republic, Mo., charged with careless and imprident driving, entered a written plea of guilty, and was fined $9 and costs, $15.

John McCanally, 411 Lee street, charged with careless and imprudent driving, pleaded guilty and was fined $9 and costs, $15.

Annie Watson, 302 Luther, charged with running a stop sign, pleaded guilty and was fined $6 and costs, $12.

Ronald L. Collier, 301 Selma, charged with running stop sign, pleaded guilty and was fined $6 and costs, $12.

Douglas Sitzes, 928 Linn, charged with excessive speed, entered a written plea of guilty and was fined $19 and costs, $25.

Kenneth Owens, 812 Courtney Drive, charged with excessive speed, entered a written plea of guilty and was fined $14 and costs, $20.

Calvin Lebrond, Oran, charged with excessive speed, entered a written plea of guilty and was fined $18 and costs, $24.

Glen Grahan Matthews, Mo., charged with excessive speed, pleaded guilty and was fined $13 and costs, $19.

Charles Luber, 103 Salcedo road, charged with excessive speed, pleaded not guilty, and hearing set for June 23.

Ronald Slayton, 1514 E. Gladys, charged with excessive speed, pleaded guilty and was fined $14 and costs, $20.

Leonard R. Lett, Bertrand, charged with excessive speed, entered a written plea of guilty and was fined $13 and costs, $19.

Robert H. Wallace, 134 Fourth st., charged with disturbing the peace, entered a written plea of guilty and was fined $6 and costs, $12. On a charge of displaying a dangerous weapon, he entered a written plea of guilty and was fined $19 and costs, $25.

Ruth I. Buchanan, 518 S. Kingshighway, charged with drunkenness, entered a written plea of guilty and was fined $6 and costs, $12.

Howard Melton, 1401 Henry street, charged with allowing dog to run loose, pleaded guilty and was fined $1 and costs, $7.

Charles Deal, 327 Selma, charged with allowing dog to run loose, pleaded guilty and was fined $1 and costs, $7.

Leo McCormick, 421 Pam street, charged with excessive speed, pleaded guilty and was fined $15 and costs, $21.

Donald H. Harper, 434 Pam street, charged with excessive speed, pleaded guilty and was fined $22 and costs, $28.

Solomon Stewart, 209 Alabama, charged with discharging firearms in city limits, pleaded guilty and was fined $19 and costs $25.

Baber Feed-Seeds Have Celebration

The Baber Feed and Seed Company will have a three-day special recognition event June 3, 4 and 5, in the form of customer appreciation days.

Buford Baber, owner and operator of the well known local feed and seed company, stated the three days will be devoted to the people attending the celebration in appreciation of their patronage, and will be open to the public all during the opening hours during the day.

Refreshments and door prizes, as well as favors, will be available to all who register and help them celebrate the all Purina event, with a representative present for a portion of the celebration.

All feed and seed customers and their entire families are cordially invited, with a special grand prize offering to be held at 11 a.m., June 5.

The latest in seed mixing and seed cleaning will be shown, with the store's entire staff on hand to greet all visitors.

Astronaut

Cont. from page 1

will hold a tight formation with the spent rocket, trailing it by about 300 feet.

During first orbit, the astronauts will depressurize the cabin while pressurizing their space suits. McDivitt will maneuver the 7,600-pound spacecraft to within 25 feet of the burned-out rocket.

White will open his cabin hatch and stand. Then as the spacecraft, now in its second orbit, begins its second pass over the United States, he will float free at the end of a golden umbilical cord.

Using a Buck Rogers-like spacegun that fires jets of oxygen, White will move to within 20 feet of the slowly tumbling rocket, but no closer. "It wouldn't be too wise to approach too close to a tumbling booster," said an official. White will return to the spacecraft, and the cabin will be repressurized.

About three hours later, at the beginning of the fifth orbit, McDivitt will maneuver from about 16 miles away to within 10 feet of the booster.

Hold Onto Your Wig

ATLANTA, Ga. (AP) — Wig snatchers are becoming a hairy problem for Atlanta police.

Sgt. W. A. Jones said Friday that thieves are yanking wigs off both men and women.

One man was arrested on larceny charges after police said he grabbed a $189 wig from the head of a young woman as she walked along a street. Another woman told police she dozed momentarily on the porch of her home and when she awoke, her wig was gone.

House Panel Hears 3 Men On Skip-Row

WASHINGTON -- Three district men testified Thursday before the House Agriculture Committee on skipped-row planting of cotton, a question that has become part of the overall issues of proposed new cotton legislation.

Appearing were Rep. Paul C. Jones, Kennett, congressman from the 10th district; Hilton Bracey, Portageville, executive vice president of the Missouri Cotton Producers Assn., and George Shelby, a Charleston cotton grower.

The committee is considering a new cotton bill that would be effective for next year.

Skipped-row planting is the practice by which the farmer plants a row or two of cotton and then skips a row or two, allowing him to spread his cotton acreage allotment over twice as much territory and to increase his total yield.

"I can spread my 40-acre allotment over 80 acres and raise more cotton that way," Mr. Shelby said.

Rep. Jones said a grower using skipped rows should be charged a larger acreage against his allotment.

Mr. Bracey agreed, saying that skipped-row planting cannot be justified without proper adjustments against allotments for production increases because of such planting.

The Department of Agriculture has suggested that growers using the skipped-row method be charged an additional 50 per cent or more against their allotments.

For instance, a farmer who uses a 10-acre allotment to plant 20 acres of skip row cotton might be charged for 15 acres or more against his allotment.

Rep. Jones, in his newsletter this week, stated he would be opposed to the cotton bill on the basis of a proposal to reduce the national cotton allotment from 16 million acres to 14 million acres unless that provision is changed.

Missouri cotton farmers, he said, would not be in favor of the bill either, but cotton producers who have been able to maintain their allotments through acreage release and reapportionment and who supplement their production through skipped - row patterns would accept it.

Rep. Jones pointed out that the Department of Agriculture could by regulation restrict or prohibit reapportionment of released acres of revised skipped-row rules and still accomplish the reduction in total production it desires.

"In fact, the department has already announced some revisions in both those practices, beginning in 1966, thereby recognizing the inequities that have been in effect for years. It remains to be seen how effectively they will be able to resist pressure to retreat from their position," he commented.

Mrs. Susie Harr Dies In Nursing Home Thursday

EAST PRAIRIE -- Mrs. Susie Harr, a resident of Fresno, Calif., and a former resident of East Prairie, died Thursday at a nursing home in Fresno.

The body is being returned to the Shelby Funeral Home in East Prairie. Funeral arrangements are incomplete and will be announced later.

Joseph Lankheit Services Monday

CHARLESTON -- Joseph Jacob Lankheit, Sr., 59, a lifelong resident of Charleston and retired farmer, died of a heart attack Friday at 11 a.m. in the Missouri Delta Community Hospital. He was born Oct. 5, 1905, son of Mary Stricker Lankheit, and the late John Stricker.

Surviving are his wife, his mother, and one son, Joseph Lankheit Jr., at home; five daughters, Mrs. David Renaud, Charleston; Mrs. Larry Dotson; Sikeston; Rosemary, Abigail, Emma Jane, all at home; three brothers, Henry of Omaha, Nebr., R. J. and George Lankheit, both of Charleston; three sisters, Mrs. Bill Carman, Charleston; Mrs. Carl Reeves, Los Angeles, Calif., and Mrs. Frank Schweizler, Chicago, Ill.

Services will be held Monday at 10 a.m. with high mass at St. Henry's Catholic Church, with Msgr. Charles P. Schmitt and Fr. Bosco Westrich, officiating. Burial will be in Calvary Cemetery, with Nunnelee Funeral Home in charge of all arrangements.

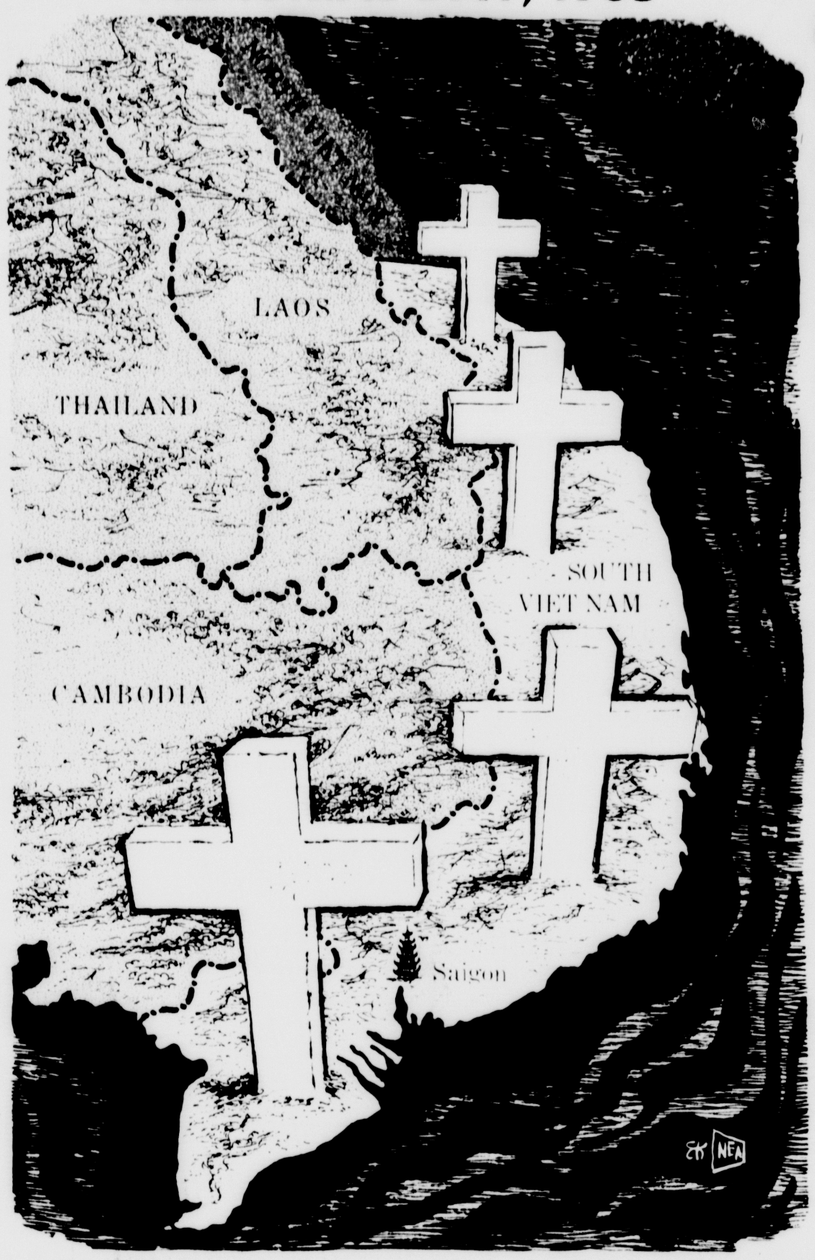
MEMORIAL DAY, 1965



Memorial Day

Tomorrow is Memorial Day, a day set aside to honor the soldier dead of all wars. As we pause to revere their memory and decorate their graves, let us give thought to the living and be careful that through no act of ours no man, woman, or child joins those sleeping in our cemeteries.

Virtually all business places in Sikeston will be closed Monday.

There will be no publication Monday of the Daily Standard.

There will be no official celebration or parade in Sikeston but we urge that all those who have flags to display them.

For many of us, it will mean driving to distant points to visit friends and relatives, fish or go on a picnic. The Standard wishes for all a pleasant, safe Memorial Day weekend.

Cape State Graduation Tonight

CAPE GIRARDEAU -- A record 526 will be graduated at Southeast Missouri State College in commencement exercises May 30, the largest graduating class in the school's history.

The program will be held outside in the school's football stadium, Houck Field, beginning at 6 p.m. This will mark the first time that spring commencement exercises have been held outdoors. Previous graduations were held in the College Auditorium, and in recent years in the Field House.

Bachelor of Science in Education degrees will be conferred to 350 of the graduates. Bachelor of Science in Business Administration degrees will be granted to 77, Bachelor of Science to 51, Bachelor of Arts to 28, Bachelor of Science in Vocational Home Economics to 14, Bachelor of Music Education to three, and Bachelor of Science in Nursing to three.

An innovation in the program this year will be the conferring of degrees en masse rather than individually, which is expected to save more than an hour in the program.

The commencement address will be delivered by Dr. Velmer A. Fassel, senior chemist at the Iowa State University Laboratories, and a 1941 graduate of the College.

Dr. Fassell will also be one of two recipients of the school's Distinguished Alumni Awards, to be presented by Noah Gray, superintendent of the Lindbergh School District, and President of the Cape State Alumni Association.

Also receiving the award will be James A. Wax, Senior Rabbi of Temple Israel, Memphis, Tenn. Rabbi Wax, a 1935 graduate of the College is also a former resident of St. Louis.

EMERGENCIES

Four persons were treated and dismissed from the emergency room of the Missouri Delta Community Hospital yesterday.

Rosa Sherrod, Sikeston, cut finger on glass; Shirley Jean Voels, Charleston, cut right middle and ring finger in blender; Carolyn Jane Hopper, Sikeston, injured in auto accident; Doris Ervin, Lilbourn, injured in auto accident.

Charles D. Cole

Scholarship To Dexter Student

DEXTER — Charles Darrel Cole, son of Mr. and Mrs. George Darrel Cole, Route 1, Dexter, has been awarded a $200 college scholarship donated by the Dexter MFA Control Cooperative and the MFA Foundation.

Cole attended Dexter Senior High School and was on the football, basketball and track teams. He was a member of the National Honor Society, chairman of the Junior-Senior Prom and president of his class 4 years. Cole was a representative to Missouri Boys State and received the Mask and Dagger Dramatics Award.

He will attend Central Methodist College at Fayette and plans to be either a teacher or a social worker.

Astronaut Will Use Space Gun While Floating

By CHARLES STAFFORD

CAPE KENNEDY, Fla. (AP) —When astronaut Edward H. White II floats away from the Gemini 4 spacecraft, he will use a spacegun to try to move within 20 feet of an orbiting, spent rocket. It will be the world's first rendezvous in space.

The dramatic additions to the flight plan of the Gemini 4 — following quickly the announcement that White will leave his craft — were announced Friday by a panel of space agency officials.

"If we are successful," said Dr. George E. Mueller, acting director of the Gemini program, "we will have done something the Russians have not tried, although I am sure they have the capability.

At Pad 19 in the Cape Kennedy complex, technicians unseated the Gemini spacecraft from its perch on the nose of a nine-story-tall Titan 2 rocket, replaced a faulty battery, and remated the two.

The battery must be checked out, but officials said that barring further difficulty, Gemini 4 would lift off on time next Thursday morning.

Space buddies White and James A. McDivitt, both Air Force majors, planned to run through highlights of their scheduled four-day mission today.

Mueller described this sequence after Gemini 4 slides onto orbital path during the actual trip:

After separation of the spacecraft from the second-stage booster, six minutes after launch, command pilot McDivitt

Crackdown On City Speeders

The city court had 32 defendants appear before Judge E. R. Schrader last night, and of this group 37 pleaded guilty and were fined a total of $497; four cases were continued and one case dismissed. Leading the field were traffic violations in the city, with 19, in a crackdown on speeding and reckless driving.

Melvin Banks, 740 Smith, charged with running stop sign, pleaded not guilty, and case set for June 23, with bond set at $12.

James D. Crider, route four, Sikeston, charged with running stop sign, plead not guilty, and case set for June 23, with bond set at $12.

Craig P. Matthews, charged with driving while intoxicated, entered a written plea of guilty, and was fined $50 and costs, $56.

Sammie T. Brown, route four, Sikeston, charged with drunkenness, entered a plea of guilty, and was fined $6 and costs, $12.

Paul Phillips, 837 Wayne, charged with disturbing the peace, entered a plea of guilty and was fined $9 and costs, $15.

Roy Edwards, route one, Sikeston, charged with drunkenness, entered a plea of guilty and was fined $6 and costs, $12.

John H. Adcock, 836 Wayne, charged with careless and imprudent driving, pleaded guilty and was fined $9 and costs, $15.

Lyndell R. Christie, 446 Smith, charged with running a stopsign, had his case continued to June 1.

R. J. Ledbetter, 325 Selma, charged with allowing dog to run loose, pleaded guilty and was fined $1 and costs, $7.

(Continued on page 10)

Re-Districting Proposed In Board Meeting

There was an unofficial proposal made in a meeting of the Boards of Education of Ilmo-Scott City, Chaffee and Oran that would extend the boundaries of the Sikeston School District to the Baseline Road at Morley. The rest of the county, it was proposed, would then build a new high school somewhere near the center of the district.

President of the Chaffee Board of Education, John Nickens, stated in the meeting that, "a smaller district can no longer offer the quality of education, in respect to curriculum, that is required.

Superintendent of Sikeston Schools, Lynn Twitty, pointed out this morning that the Sikeston Board of Education is not opposed to any new redistricting as long as the people of the incoming district wants it also. However, he said, if they don't want it, then we don't want them to have too.

Feelings in the Oran district are mixed. Some want reorganization and some do not. Bill Wallace, president of the Oran Board of Education, has announced that he is definitely not in favor of the plan.

A committee was appointed, composed of school superintendents and presidents of the three boards, to get the following information concerning the districts: Valuation, student enrollment, unused bonding capacity, present indebtedness, tax rates, income from railroads and utilities, amount of interest and principal paid annually, enrollment of the top three grades, and approximate cost of the school buildings.

Three Injured In Highway Collisions

In an accident Friday at 1 p.m. at the intersection of Highway 60 and Route H near Morehouse, Carolyn Hooper, 18, Morehouse was injured when she received abrasions to the face and arm. She was a passenger in a car driven by L. V. Hooper, 52, Morehouse, who was attempting a left turn, and was sideswiped by a car driven by Arthur Crisp, 21, Cliburn, Tex. She was taken to the Missouri Delta Community Hospital.

Last night at 6:30 p.m. on Route H, six miles south of Dexter, a car driven by Loren Kelmer, 30, Dexter, was struck by a 1955 Ford driven by Lydia Burns, 63, Dexter, when she made a left turn at a hillcrest, and the cars struck almost headon. Both drivers were taken to the Poe clinic, with Kelmer receiving a lacerated lip and several teeth knocked out, while the Burns woman received knee and chest injuries. The latter was given a summons for improper turning.

Graduation Completed At Sikeston High School

Bloomfield Students Awarded

BLOOMFIELD -- Awards were presented to Bloomfield high school students at a morning assembly held in the gymnasium Thursday, May 20.

The welcome was given by Mary June Tucker, Beta Club president. The Boy Scouts presented the colors; the advanced band played "The Star Spangled Banner," and Pledge of Allegiance was led by Marvin Phillips, student council president. Murlin Hawkins, high school principal, spoke to the students.

Awards are: Valedictorian, English 11-12 and mathematics, senior high, Mary June Tucker; salutatorian and DAR award, Marilyn Burleson; honor student and physics, Ronnie McAdoo; English 9-10, History 10-11 and sophomore pilgrimage, Herman Morse; English 7-8, science-junior high, mathematics - junior high, Mary Ann Statler; citizenship award and Crisco award, Sherry Dillworth; French, Mary Jo Chapman; science-senior high, Marvin Phillips, biology, Alice Patrick; social studies-junior high, Randall Patrick; advanced band, Lanny Bell; intermediate band, Richard Kyle; home economics, Louise Clark; agriculture, Bradley Williams; journalism, Toni Richmond; yearbook, Barbara Robey; typewriting, Carolyn Denton; business award, Linda Patrick; art award - junior high, John Lovell; art-senior high, Ronnie Jackson; librarian award, Lavonda Crenshaw; best senior girl athlete, Barbara Link; best senior boy athlete, Ron White; volleyball award, Carolyn Clubb; Beta Club gold seals, Mick Aslin, Bill Chaffin, Marilyn Burleson, Louise Cark, Ron McAdoo, Joanne Newcomer, Toni Richmond, Sharon Corbin, Mary June Tucker; Beta Club citizenship plaque, Mick Aslin.

American Legion Girls State presented by the American Legion Auxiliary, Mary Jo Chapman, Kathy Mooney, Lavonda Crenshaw, Mary Proffer.

Gale Skalsky
Valedictorian

Ronald Summers
Salutatorian

Last night saw the largest graduating class of the Sikeston high school march down the aisle for the last time as a unit. There were 254 seniors that received diplomas for their 12 long winding years through elementary and senior grades. This is 30 more than last year's graduating class.

The outdoor theatre was packed with over 2000 parents, relatives and friends of the graduates, although the weather was a bit on the chilly side, when the high school band began the familiar strains of the traditional "Pomp and Circumstance" which opened the ceremonies for the 64th annual commencement exercises.

The long lines of black robed Graduates filed slowly and they seemed a bit reluctant in marching down the aisle to gather on the stage for the last appearance of the class of 1965 as a unit.

Doug Marsh, class president, presided, and after the invocation by Dale Stauffer the program moved swiftly and smoothly.

Harold F. Kiehne, high school principal, in announcing honors and awards that were not made public at the honors assembly, announced that Norma Gail Skalsky, daughter of Mr. and Mrs. Orville Skalsky, was class valedictorian and that Ronald Summers, son of Mr. and Mrs. Robert Summers was salutatorian.

Four student addresses were given, all coming under the heading of "Let Us Continue."

Becky Turner's address was entitled "Let Us Continue to Laugh." She started her address with, "Laughter is the sound of happiness, and happiness is portrayed in many ways. But everyone has their own definition of happiness.

"Let Us Continue To Love" was given by Katie Blanton, who began her speech with, "The most exalted speech ever heard in heaven or on earth without love is but a senseless sound. Love is understanding. It is free from jealous thoughts --free from boastfulness. It is never critical of one's friends, but understands and forgives another's failings. It takes no delight in injustice, but finds its joy in helping others. Love is slow to anger, and of great mercy. Love helps us hear the disappointments and trials of life--and makes us hope always."

John Struwe's address was "Let Us Continue To Learn." It began with, "To do good, we must first know good; to serve beauty we must first know beauty; to speak the truth we must first know the truth."

And the fourth part, "Let Us Continue To Lead" was delivered by Clayton Vandivort. He began his address by saying, "Many Commencement addresses of graduation is the beginning and an end. Commencement they say is both, as it marks the seniors finishing one step in life and beginning another. We end here tonight 12 years of schooling and start the final step into becoming mature adults."

Lynn Twitty, superintendent of schools, presented the class of 1965 to the School Board and L. M. Standley, president of the board of education, presented diplomas to the graduating Seniors.

After the benediction by James Crenshaw the program was concluded with the sophomore band playing "Red and Black."

Charged Extortion Trio Have Improper Bond

William McIntosh, 45, Sikeston, Walter Richardson, Jr., 38, of Portageville, and Joe Dale Wilson, 23, Sikeston, have been placed behind bars "in default of proper bonds of $50,000 each."

Innocent pleas were entered for the trio by the judge and urged them to obtain a lawyer in time for them to stand trial June 16.

A Federal Grand Jury indicted the men May 18 on a charge of using the telephone April 23 to call William Tanner, president of Pepper Sound Studios, Inc., in Memphis, The indictment accused the trio of demanding $5,000 to avoid bodily harm to Mr. Tanner's brother, Henry Faye Tanner, 37, presently a Pepper employe.

Barry Richardson of Portageville, a brother of one of the defendants, told the judge he put his farmland as surety for the required $150,000 total bond. But he said nobody joined as surety for the bond when he appeared Tuesday before Paul Mueller, a United States commissioner in Jackson.

"The law does require two sureties on the bond," the judge replied. "You gentlemen will have to make the right kind of bond on this charge. It should be made with the clerk of this court.

Twenty years in prison is the maximum penalty and a payment of $5,000 fine.

Portageville Boy Elected President Of Student Body

PORTAGEVILLE -- Following two weeks of campaigning, politicking, and arguing, the students of St. Mary's University, San Antonio, Tex., elected Ed Hulshof, son of Mrs. Stella Hulshof of Portageville, president of the student council.

Ed is a junior biology-chemistry major, is a member of Sigma Beta Chi fraternity, and presently is a representative-at-large on the Council.

Hulshof in his acceptance speech at a prom April 29 said that next year will be the greatest year that St. Mary's has ever seen.

In the first of two Student Council elections held on April 30, Hulshof defeated Bob Chambers and his running mate, Al Hansen, by eight votes. In the second polling, Hulshof extended the gap to 100 votes. He will be president of the Council during the 1965-1966 school year.

When asked about his party's plans, Hulshof, said, "We are running for these offices because we are dissatisfied with the present Student Council situation. This is a situation that has been marked by both the regression of student life and student dissatisfaction.

Bloomfield C of C Approves Fund

BLOOMFIELD -- Presented with a good cause for the community, the Bloomfield Chamber of Commerce can be relied on to do its part. This time it's for the youngsters who want to play baseball this summer. But it takes money to play Little League, Pony League and Connie Mack League junior ball, money for bats, balls, team equipment, such as catcher's masks and guards and uniform replacements.

The chamber voted to sponsor the fund - raising drive after listening to a report by Elmer Hopkins during the regular monthly meeting Monday night. Hopkins said that he, John Davis and Joe Welborn were contacted by Coach Tom Hewgley who, along with several other local men are forming and supervising the baseball program, were asked to help raise funds. Solicitations will be made by the three members in the near future, but people desiring to donate any amount to the youth program are welcome to contact Hopkins, Welborn and Davis at their business places.

Weather

Fair and cool tonight with lows 48 to 52. Partly cloudy and mild Sunday with highs near 70. Monday partly cloudy and mild.

HIGH AND LOW TEMPERATURES

High and low temperatures for the 24 hours ending today at 7:30 a.m. 71 and 49, .04 precipitation was recorded.

Sunset today---------7:10 p.m.
Sunrise tomorrow----4:41 a.m.
Moonrise tomorrow--4:30 a.m.
New Moon----------Sunday

The planet, Jupiter, is now almost directly beyond the Sun. Its distance from the Earth today, about 564 million miles, is its greatest since 1961.

Lee DeLaney
Valedictorian

Pat Wallace
Salutorian

Awards To 38 Students At Charleston Commencement

Commencement exercises for the largest class to ever graduate from Charleston High School were held last night at 8:00 p.m. on the Charleston football field. There was a large crowd present to see the 151 graduating seniors.

The invocation was given by Rev. H. W. Chaney, minister of the First Baptist Church and the mixed chorus sang "Let All Things Now Living." Guest speaker was Dr. Frank Heagerty, professor of education at the University.

Bill Hodges, principal gave out the awards. Top honors went to Miss Lee DeLaney, daughter of Mr. and Mrs. Bob DeLaney, who was valedictorian and Pat Wallace, salutorian, daughter of Mr. and Mrs. Jim Wallace.

Other awards are as follows:

Russell Scholarship Awards--Leora Bentley and Bob Harper.

Eliza Reid Home Economics Award--Frances Cherry.

IOOF Awards -- Lee Delaney and Bill Brashears.

Marshall Awards -- Lee DeLaney and Henry Hough.

Outstanding Sophomore--Jana Hillhouse.

American History Award--Mike Friedman.

Jr. Study Club Music Award--Mary Ann Cook.

Athena Club Courtesy Awards --Nancy Whitehead and Henry Hough.

Athena Club Chemistry Award --Bob Harper.

Athena Club Physics Award--Patti Hillhouse.

American Legion Auxiliary Essay Award--Lee DeLaney.

D. A. R. Good Citizenship Award--Pat Wallace.

Student Council Best Citizen Award--Blair Moran.

Danforth Foundation Leadership Awards--Betty House and Lanie Black.

Student Council Typing Award --Ann Cox.

Student Council Bookkeeping Award-- Darla Pearsall and Leora Bentley.

Student Council Shorthand Award--Dorothy Ingram.

Student Council Secretarial Award--Judy Banks.

Business and Professional Womens Mathematics Award--Lee DeLaney.

Perfect Attendance for Four Years Awards -- Judy O'Neal and Mike Forbey.

Outstanding Athlete--Lee Putnam.

Scholarships to Cape State College--Bill Brashears, John Newberry, the latter also receiving a music scholarship.

March of Dimes scholarship --Mary Ann Cook.

Two Curator scholarships to University of Missouri--Lenola Plummer and Pat Wallace.

Curator scholarship to Rolla --Mike Glenn.

General Scholarship -- Wayne Davis.

Weed Control Tour At Delta Center

PORTAGEVILLE -- Farmers will have an opportunity to observe the latest developments in weed control research at the Delta Center reports Joe Scott, extension field crops specialist.

A tour of the weed control research has been scheduled for 1:30 p.m. (CST) Friday next week at the experimental field five miles east of Portageville.

Weed control studies to be observed on the tour will include:

Johnsongrass control in cropland with special emphasis on control methods in cotton, corn and soybeans.

Pre and post emergence weed control in cotton along with different soil incorporation and cultivation methods.

Pre-emergence and soil incorporation of herbicides on soybeans.

Special weed control studies on gumbo soils including minimum seed bed preparation for soybeans.

This will be about the best time to compare weed control treatments says Scott and anyone interested in weed control is invited to attend Friday next week.

Three Students Charged

Three State College students were arrested Thursday night on suspicion of fraud as they allegedly made long distance telephone calls and placed the charges to other telephones in the city, police said.

William Carrol O'Neal, manager of the Southwestern Bell Telephone Company, has been leading an investigation into the problem.

The three were identified by police as Perry Davis Hamm, 22, Morrilton, Ark.; Larry Joe Chapman, 22, Gideon, and Roger Neely Kinnaman, 20 Independence.

Three cals were placed Thursday night and through the investigation conducted by Mr. O'Neal the calls were traced and police were called.

An investigation at 1301 William found that the three resided at the address and, unknown to the owners of the building, had been placing calls for a month.

The case has been referred to Cape County Prosecuting Attorney Bill D. Burlison for further action.

Mr. O'Neal stated that the investigation is still being carried on regarding other long distance calls that have been placed.

NEW USE FOR PLASTICS

SCHENECTADY, N.Y. (AP) — Plastics, long used as insulators against the flow of electricity, are now able to conduct it. Scientists at the General Electric Research Laboratory here have discovered a new family of flexible plastics that can be shaped, molded, painted, and pasted and still conduct current. They may have uses in printed circuits for radios and as a solder-like paste that can be used at room temperature for electrical connections.

No Paper Monday

The Daily Standard will not be published Monday in recognition of Memorial Day. Publication will be resumed Tuesday.

Swimming Pools Open

Swimming pools will open tomorrow, both the Municipal Pool and the Country Club pool. Both are scheduled to open at one p.m.

The Daily Sikeston Standard

C. L. BLANTON, Jr., Managing Editor, Entered at the Postoffice of Sikeston, Scott County, Missouri as Second Class Mail Matter according to Act of Congress March 3, 1879, Saturday, February 4th, 1960.

POOR CHARLIE SAYS!

Tomorrow, Sunday, May 30 is Decoration Day.

Congress should refuse to outlaw the ban on union shops for one reason. The union shop permits compulsory unionism.

Every American has been confronted with the difficulty in getting everyone to join an organization. Chamber of Commerce members are familiar with the problem. Some of those who should be members won't join. They get the benefits, but they won't pay their share. This causes angry reactions.

A lot of the faithful members in a moment of anger would agree that there should be a law to prevent free loading but really there shouldn't be one.

Organizational membership must be voluntary and based on the merits. Compelling people to belong rather than persuading them to join opens up a path for all kinds of abuses and for many misuses of power. If memberships in any organization are guaranteed the organization is headed for trouble and a dictatorship and it is the members themselves who will be short changed.

Labor unions have their place in American society but their place should not be one of uncontrolled power -- free from prosecution under the anti-trust laws -- as are corporations -- and with compulsory membership sanctioned by the federal government.

On the question of repeal of section 14B of the Taft-Hartley law, permitting states to ban the union shop, President Lyndon Johnson has tried to carry water on both shoulders.

But he must take the responsibility for what he is doing. He sent a luke warm message urging repeal to Congress in fulfilling a campaign pledge but his secretary of labor, Willard Wirtz, has made an impassioned appeal for outlawing the ban on the union shop.

No change should be made in the law despite the strong pressure being exerted by the Johnson administration and power hungry labor union leaders to throw it out.

PRICE OF LIBERTY CREEPS UPWARD

And still they come -- fresh names to be added to the long, long roll of those who have fallen in the service of their country.

We had thought, 20 years ago, to have made an end to it once and for all, even as 25 years before that men told themselves they had fought the war to end all wars.

But more names still to come.

The peace so dearly bought in 1945 was but a pause. A mere five years later and there were different battlefields and a different enemy. But the fact of death was the same one known to those who had met him at Lexington, at Lundy's Lane, at Vera Cruz, Antietam and San Juan Hill, in Flanders and in Normandy.

We had thought, after Korea, to have made an end to it. The men of the West who had fought and died and held the line there had proved to those of the East that there was no more profit to be gained in nibbling at freedom's edge with "limited" war than in uncapping the nuclear holocaust that would destroy us all.

But more names were still to come, for never-sleeping tyranny has many fields to prowl.

They began coming in from new battlefields with faraway names -- Bien Ho, Da Nang. They come slowly still, but there are more names today than yesterday, and little hope for anything but more tomorrow than today.

Now, most recently, the names came from a battle place closer to home -- the sun-and blood-drenched isle of Hispianola. A handful only, thankfully, but the long, long roll is that much longer.

Today we suspend the public business to honor all the names, those lost to history as well as those still painfully fresh in memory. As Walt Mason wrote:

The little green tents where the soldiers sleep
And the sunbeams play and the women weep,
Are covered with flowers today.

And in the ghostly distance, the long, long file of those who have given us the peace and liberty that makes possible this day of Memorial Day goes on and on . . . and on.

* * *

NO PLACE FOR SCAPEGOATS

Mountains of words have been written and mouthed that say, in effect, "Somebody ought to do something about traffic accidents." In the process, we have institutionalized a couple of prize scapegoats. The automobile has been condemned; the highway has been ruled. But the fact is that nine out of ten accidents can be traced to driver error!

The driver is the real culprit. No matter how safe cars and highways are made, if the driver doesn't do his part, traffic accidents will continue to soar if for no other reason than there are increasingly more drivers logging more miles.

Tracing this line of thought further, the inescapable conclusion is that most already-licensed drivers on the roads don't really have the skills to cope with today's complex transportation system. The business of driving is a lot different now than when most of us got our licenses 30, 20, 10, or even 5 years ago. There are more cars; there are new conditions.

Ironically, most licensed drivers are positive they are "above average." So the problem becomes how to provide these people -- which includes most of us -- with a means to update yesterday's driving skills so that they are good enough today. The National Safety Council thinks it has the answer. It wants to re-train a million licensed drivers in what it calls "defensive driving" techniques which have been drawn from the experience of professional drivers.

To do this, however, the licensed driver must first be somehow made aware of his need. Here, again, the National Safety Council thinks it has the answer. It feels that by simultaneously confronting drivers everywhere with typical modern driving situations and asking drivers to make decisions concerning these situations that they will admit to themselves that they've got something to learn. To reach so many, so fast, NSC turned to network television and CBS.

The vehicle for doing all this was The National Drivers' Test, an hour-long television program that tested driving judgment, knowledge, and visual perception. It was telecast live (with film segments) by CBS from New York.

As the opening shot of the most intensive effort ever attempted by the National Safety Council and its several hundred local chapters, The National Drivers' Test was expected to alert almost a third of the licensed drivers of America to the need for developing new skills and sharpening old ones.

Immediately following The National Drivers' Test the Council will throw the full weight of the Advertising Council's "Stop Accidents" campaign behind the defensive driving concept. Overlapping these two monumental efforts, is the training of thousands of certified instructors to teach NSC's new driver improvement course.

Meanwhile, the entire organized safety movement, representing ultimately almost all of the population of the nation, is moving in behind this effort. Industrial, transportation, recreational, home, school, farm, labor, women, religious, youth, and governmental groups everywhere will be sponsoring driver improvement courses through local safety councils.

Never in the history of the organized safety movement in America has there been such a concentrated effort. And it deals with a problem in which we are all involved.

JUNE 1 -- TUESDAY

NATIONAL ARTS AND CRAFTS MONTH begins. Through June 30th. Purpose: "To stimulate and develop interest in American arts and crafts." Director, Rock City Road, Woodstock, N. Y.

Hal Boyle

LE MY, South Viet Nam AP --Fifty yards from the hand-laid rock road some natives were digging graves.

On the edge of the road on straw mats lay those from whom the graves were being dug. They were the bodies of the last two diehard guerrillas in the village of Le My.

"After they wounded one of our men yesterday" explained a U. S. Marine loconically "we cornered them in a house. They hid under a trapdoor. One of our fellows tossed in a grenade--and that did it."

Some 300 yards up the highways was the mobile jeep headquarters of one of the best-liked men on the battlefront here--Lt. Col. David A. Clement, 40, Jacksonville, Fla., commander of the 2nd Battalion of the U. S. 3rd Marine Regiment.

It was an hour of sweet victory for Clement and his men.

They had just completed a simple but colorful ceremony with local village officials during which they had reopened to traffic two bridges blown up by the Viet Cong.

The burying of the two slain enemy and the reopening of the repaired bridges doubly demonstrated that the key village of Le My had been made secure.

To Lt. Col. Clement, nicknamed "The Great Pacificator," it meant the solution of his biggest problem since he and his 1,000 men landed here early in April. The pacification of the area around the vital Da Nang air base had been a key task assigned to the U. S. Marines.

The Marines suffered a number of casualties in the village. It would have been easy for them to have razed it but this isn't that kind of a war.

The village finally was cleared by a delicate program of grenades for the enemy and good will gestures toward the general population.

Clement, a raw-boned man who weighs 200 pounds and stands three inches over six feet, is a 1945 Annapolis graduate who won a Silver Star as a company commander in Korea. He has six children ranging in age from 18 down to 6.

He was born with a Marine brand on him. His father was the late famed three-star Marine Gen. William T. Clement, one of the most popular officers the corps ever produced.

In six weeks here, Col. Clement's battalion has worked through a 48-square-mile area.

"Some of it is still hostile and we are still conducting operations," he said. "Our most tangible success has been in this village of Le My and we will soon have it operating normally."

And the End Not Yet

NATIONAL BARBECUE MONTH begins. Through 30th. Purpose: "To stimulate the great national appetite for outdoor cooking, the skills it requires, the pleasures it brings." Sponsor: Grocery Store Products Company, West Chester, Pa., represented by Young & Rubicam, Inc., Harry F. Klemfuss, Account Executive, 285 Madison Avenue, New York, N. Y.

JUNE IS DAIRY MONTH begins. Through 30th. Purpose: "To remind consumers of the goodness of dairy foods and their importance in summer eating." Sponsor: American Dairy Association, Jane A. Holmes, Products Manager, 20 North Wacker Drive, Chicago, Ill., 60606.

FIGHT THE FILTHY FLY MONTH begins. Through 30th. Purpose: "To promote the destruction of dangerous disease-carrying flies." Sponsor: Gustav Detjen, Jr., President, Detjen Corporation, Insectocutor Division, Pleasant Valley, N. Y., 12569.

NATIONAL HOME PERMANENT MONTH begins. Through 30th. Purpose: "To give credit and recognition to the millions of women who keep their hair beautiful." Sponsor: Home Wave Council of The Toni Company, Marion Hammon, Publicity Directory, 456 Merchandise Mart, Chicago, Ill., 60654.

JUNE IS PORTABLE RADIO MONTH begins. Through 30th. Purpose: "To remind public of entertainment value of portable radio and to make sure they have fresh batteries." Sponsor: "Eveready" radio batteries, Union Carbide Consumer Products Company, represented by Nelson Sykes Associates, 295 Madison Avenue, New York, N. Y.

NATIONAL RAGWEED CONTROL MONTH begins. Through 30th. Purpose: "To control and reduce the growth of ragweed because the pollen of this weed is the chief cause of late summer hay fever and asthma." Sponsor: Air Pollution Control League of Greater Cincinnati, Charles N. Howison, Executive Secretary, 2400 Reading Road, Cincinnati, Ohio, 45202.

NATIONAL RECREATION MONTH begins. Through 30th. Purpose: "To make all Americans aware of the opportunities for wise and satisfying use of free time in their own communities." Sponsor: National Recreation Association, Patricia Cavanaugh, Acting Director of Public Information and Education, 8 West Eighth Street, New York, N. Y., 10017.

SUMMERTIME IS BANANA TIME begins. Through August 31st. Purpose: "To promote bananas in picnic and barbecue entertaining throughout the Summer months." Sponsor: National Banana Association, 604 American Bank Building, New Orleans, La., represented by Theodore R. Sills and Company, 777 Third Avenue, New York, N. Y., 10017.

THOSE MOONLIT NIGHTS WON'T BE THE SAME

"Space travel will bother me if it reaches the stage for which most people are hoping," states C. S. Lewis in the Catholic Digest.

"Perhaps I'm being sentimental, or perhaps aesthetic. But no moonlit night will ever be the same to me again if, as I look at that pale disc, I must think, 'Yes, up there to the left is the Russian area, and over there to the right is the American bit. And up at the top is the place which is now threatening to produce a crisis.'

"The immemorial Moon, the Moon of the myths, the poets, the lovers, will have been taken from us forever. Artemis, Diana, the silver planet, belonged in that fashion to all humanity; he who first reaches it steals something from us all."

* * *

Instructions to bachelors for changing diapers: "First, place the diapers in position of a baseball diamond with you at bat. Fold second base over home plate. Place baby face up on pitcher's mound. Then pin first and third base to home plate.

STATE DEPARTMENT TO AID INDUSTRIAL SALES ABROAD

The Department of State has begun a series of programs to strengthen its ties with the American business community, according to Benjamin Weiner, special assistant to the Deputy Undersecretary.

These programs include: the added use and display of American-made products in the 276 embassies, consulates and special offices abroad; and the assignment of Foreign Service officers to observe private industrial operations in order to develop an understanding in the participating officer of the concepts and pressures that motivate American business, plus an awareness of business needs and problems.

Businessmen will be asked to serve as consultants to assist in screening applicants for the Service, to serve on teams of inspectors to evaluate operations of the Embassies and other posts, as well as to serve as public members of selective boards to determine grade promotions to service officers.

"The purpose", added Mr. Weiner, "is to create an attitude and atmosphere in the Foreign Service which will assist and perhaps even impel the American business community toward greater markets and greater sales abroad."

* * *

"Come now," said the psychiatrist to his tearful patient. "You must cheer up. Be happy!"

"Be happy, you say," she answered. "How can I be happy? I've had twelve children with that husband of mine and he doesn't even love me. What have I got to be happy about?"

"Imagine if he did love you."

* * *

"Have you heard about the farmer who dressed his scarecrow in a tuxedo?"

"No. How did it work?"

"It didn't protect the corn, but it sure attracted a better class of crows."

Inside Labor

By Victor Riesel

Visiting German Labor Leader Explains System Now in Action To Make Every Worker a Capitalist

UNITED Nations; -- In a private dining room here the other day an influential German labor leader disclosed the details of a system his powerful union has devised to make every worker a capitalist.

This was no pie-in-the sky conversation. The visitor, 45-year old Georg Leber, president of the Building and Construction Workers' Union of West Germany, revealed that the plan starts operating on Jan. 1, 1966, under a contract signed with the industry's employers' associations last March.

This system of "workers' accumulation of assets and property" under a labor-management contract has so disturbed the Communists that they have set up a special investigatory bureau in East Berlin to probe its impact.

The Soviet zone government fears that the "accumulation of property" program will neutralize the traditional Marxist-Leninist theory of the inevitability of the final conflict between the capitalist and working classes.

"And what would Communist propagandists do if it could be demonstrated that there is no class struggle?" inquired one of Mr. Leber's colleagues.

The system, as written into the new union contract, has the authority and stability of simplicity. It could affect some 1,600,000 workers in the industry, though Mr. Leber's union has a membership of 500,000.

In the pact the employers agreed to pay each worker nine pfennigs (2 1/4cents) an hour, over and above the usual wages, if the worker agrees to throw in two pfennings each hour. The union member does not have to get into the act. He can opt out.

The 11 pfennings will be put into an account in any bank the worker chooses. Actually the worker need not keep the money in the bank. But if he withdraws it he must pay an extraordinarily high income tax on the cash. This penalty is intended to act as a brake on his inclination to withdraw the money.

As the funds accumulate, the worker can invest it any way he wishes.

But he must invest it in the economy. He cannot borrow on it. He cannot buy a house or furniture, etc. He can put the money into the stock market, or into real estate, or into the company which employs him if shares are available, or into private businesses.

He need not take guidance. Except for the ban on personal use of the accumulating money, there are no restrictions. If the worker guesses wrong, he suffers as any other investor would.

At no time can he turn his investment into cash. If he sells, he must reinvest. The purpose is to give him a stake in the nation's industry, commerce and property -- and instill in him the hope that he can leave his children a considerable investment in such society and in the democratic processes.

However, the worker can use the income on his investments -- dividends, rents, business returns, etc. -- for his personal use.

Should he leave the money in the bank, it is expected that he would have almost $20,000 at the end of 40 years. In Germany this is the equivalent of the purchasing power of at least $60,000 in the U. S. A.

There are many other details which fascinated the small luncheon group as Mr. Leber talked with the authority of a man who not only is a labor leader but is on the Executive Committee of his Social-Democratic Party and sits in the parliament of the German Republic.

There will be worker's mobility, for example. The man's account flows regardless of which building and construction contractor hires him.

Since there will be millions of accounts and investment records to be traced, this should make it a computer salesman's heaven.

Furthermore, explains Mr. Leber, the system will give the German economy a solid base. It will curtail inflation, stabilize the currency, and encourage efficiency and participation in government.

The accumulation of property and investments will give the workers a real stake in the success of industry -- all industry.

The working class will be a partner -- albeit junior partners -- in a democratic capitalist society. Small wonder the East Zone's Communist theoreticians are disturbed.

Washington-Merry-Go-Round

By Drew Pearson

WASHINGTON — It looks as if Speaker John McCormack's backstage slowdown to protect the Mississippi Congressmen from being unseated is already getting results.

Rita Schwerner, widow of one of the three Freedom Workers murdered at Philadelphia, Miss., found this out when she and other civil rights leaders called on Ralph Roberts, clerk of the House of Representatives, to ask when the report of the House Administration Committee on seating the Mississippians would be reported out. The amiable Mr. Roberts indicated that it would take many months.

"The 1947 Reorganization Act of the House requires that it be reported out by July 4," Mrs. Schwerner told him.

"Oh, we don't pay any attention to that," replied the affable clerk of the House.

"Have you had any other cases similar to this since the 1947 Act was passed?" asked William Higgs, an attorney for the Mississippi Freedom Democratic Party.

"Only one," replied Roberts after a little thought. "Usually these cases go on into the second session of Congress — if they ever come out of Committee at all."

Obviously he was in no hurry to have the House vote just after the Senate debated the Negro Voting Rights Bill. It's on this question of Mississippi's refusal to permit Negroes to vote last November that the move has been made to unseat the Mississippi Congressmen. Naturally delay is in their favor. The temper of Congress right now, after the Selma beatings and the Klan trial for the murder of Mrs. Liuzzo, would be to unseat them.

—MORE DELAY—

Mrs. Schwerner also asked Roberts to set a date for a confrontation with ex-Governor James Coleman of Mississippi, who represents the Mississippi Congressmen. Roberts said Coleman couldn't come to Washington for two weeks.

Higgs pressed for an early hearing, but Roberts said he himself had to go out to Indiana to receive an award from his home town high school.

"I may stay out in Indiana a little longer than just a day or two," Roberts stalled. "Furthermore the record may not be printed in time."

"How long will it take to print the record?" Roberts was asked.

"Oh, perhaps two or three months," the clerk replied.

"The House Judiciary Committee had its 1300-page report on the Voting Rights Bill printed over the weekend," Higgs reminded Roberts. "Our affidavits aren't much longer than that. The government printing office can turn this out in no time at all."

However, the man who runs the red tape machinery in the House of Representatives continued to stall. He is answerable to Speaker John McCormack.

—LBJ AND AMBASSADORS—

President Johnson has overwhelmed foreign premiers and potentates with his Texas-style diplomacy, but he is not exactly a hit with their ambassadors in Washington.

The President likes to deal with the top man and tends to bypass lesser officials. As a result, some abasssadors feel that they are treated as errand boys.

They complain that the President seldom sees them except in groups on formal occasions, that he almost never invites them to the White House for private talks.

Recently Secretary of State Dean Rusk has been trying to nail down the latest complaint that has come out of Embassy Row. It reportedly came from one of the three new ambassadors summoned to the White House to present their credentials.

They were Sir Patrick Dean of Britain, Radomiro Romic Romero of Chile, and Torbey Ronne of Denmark.

Each would have preferred a private audience, but they were brought in to see the President together. After the formalities, they were quickly dismissed.

As they were leaving the White House, the President had an afterthought and sent aides scurrying to fetch them back to pose for pictures.

Bewildered, Sir Patrick Dean grumped: "What is all this about?"

"I think the President wants to have your pictures taken," an aide explained.

Later, the word was whispered around that one of the ambassadors had complained about the presentation — picture-taking and all.

Rusk delicately approached the Danish ambassador at a reception.

"How did you enjoy the presentation?" asked Rusk coyly.

"I enjoyed it very much," said Ambassador Ronne.

"Oh," said Rusk. "That's fine. Then you weren't the one who was complaining."

Note — Most nations send their best men to Washington, men who have influence in the policy councils at home. Their reports shape the attitudes of their governments toward the United States.

—MERRY-GO-ROUND—

American officials recently seized upon a picture of Col. Francisco Caamano Deno, the Dominican rebel leader, with a clenched fist as evidence of his alleged pro-Communist leanings. Then someone pointed out that the San Juan Star, the paper that first published the picture, also ran a photograph of President Johnson with a clenched fist in the same edition. . . Government researchers have adapted the "explosive puffing process" used to make puffed wheat and puffed rice to produce other food. They have been able to create instant blueberries, apples, carrots and beets.

—BEHIND LBJ'S BACK—

Assistant Attorney General Norbert Schlei has made a deal behind President Johnson's back to help Rep. Mike Feighan, D-Ohio, substitute his own immigration bill for the one the President has proposed.

Schlei promised to use his "best efforts" to arrange the switch in return for Feighan's cooperation in unblocking immigration legislation from his House Immigration Subcommittee. The angry Irishman wants a Feighan bill or none at all.

The deal was supposed to have been kept secret from House Judiciary Chairman Emanuel Celler, D-N.Y., who has spent 19 years trying to liberalize the immigration laws and likes to keep informed on the latest developments.

Also kept in the dark were Senators Phil Hart, D-Mich., and Ted Kennedy, D-Mass., who, together with Cellar, have introduced the President's bill.

However, Celler got wind of the Schlei-Feighan deal and demanded an explanation from Attorney General Nicholas Katzenbach. It turned out that Katzenbach, though Schlei's boss, had no advance knowledge of it either.

The Feighan Bill, as it has been written in secret draft, would tighten the immigration quotas. It would put all refugees, including Canada, Cuba, and Mexico, would also be assigned quotas for the first time.

Thus Feighan, who claims to be more anti-Communist than other people, would close the door on refugees trying to escape from Communist Cuba. Under his bill, the Cuban refugees already in this country would use up the Cuban quota for years to come.

The President wants to admit relatives of American citizens without any quota restrictions. Feighan would give them first priority but would charge them against the quotas.

The Feighan Bill would also limit the number of immigrants who could come to this country to 325,000 and would restrict to 20,000 the number who could be admitted from any single country in a year.

Feighan would give high priority to people in the professions but low priority to skilled engineers, toolworkers and other technicians. The President wants to lift the bars on all people who have special skills needed in this country.

Now that the Schlei-Feighan deal is out of the bag, however, it is doubtful that Feighan will be able to foist his bill on Congress.

Merit Awards Presented To Four Piano Students Friday

Before saying "Goodbye" to her Music Class in Sikeston, Mrs. Wallace Crane presented awards of merit to four top-ranking music students Friday morning.

Paul Johnson, son of Dr. and Mrs. Howard B. Johnson, 21 Green Meadows, and Laretha Harris, daughter of Mr. and Mrs. L. A. Harris, Jr., 624 Moore Street, tied for first-place honors in Division I. This award is given to that student who has done the best work and who has made the most progress during his first two years of the study of piano.

Linda Hale, eleven-year old daughter of Mr. and Mrs. Robert Hale, 907 Allen Blvd., received the medal for the most promising young musician in Division II. This consists of students who have studied piano and theory for at least three consecutive years.

Carolyn Clinton, daughter of Mr. and Mrs. Ray Clinton, 1025 N. Kingshighway, received the Achievement medal for that medium - advanced student in Division III who has done the most serious - minded work and has made the most progress in piano during the 1964-65 school year. Carolyn will be a sophomore at Sikeston High School this fall.

Miss Vines Feted With Shower

Miss Janie Vines, bride-elect of Danny McPherson, was given a bridal shower Thursday, May 27, at the First Assembly of God Church.

Hostesses for the shower were Miss Sherry Scudder, Miss Judy Henderson, Miss Maxine Morgan and Miss Merletta Hays.

Games were played and prizes were given.

The gift table was decorated with blue and white streamers. The centerpiece was six blue candles circling a blue and white bouquet of flowers. The honoree opened and displayed her gifts. Refreshments were served to the guests.

Those attending were Miss Sherry Scudder, Miss Judy Henderson, Miss Maxine Morgan, Miss Shirley Hays, Mrs. Brenda Ballard, Mrs. Edna Hays, Miss Merletta Hays, Mrs. Peggy Teague, Mrs. James E. Smith, Miss Betty Henderson. Mrs. Grace Willis, Mrs. Zoletta Godwin, Mrs. Evelyn Palmer, Mrs. Lula Bell, Mrs. Jimmy Vines, Miss Dannie Thurman, Miss Jan Teague, Miss Candy Teague, Miss Jeannie Vines and Mrs. Ilah Vines, mother of the bride-elect.

Those unable to attend but sending gifts were Mrs. Melton Bixler, Mrs. Beulah Peterson, Mrs. Erwin Taylor, Mrs. Fowler, Mrs. Elsie Brown, Miss Joyce Brown, Mrs. Ferrell Gosset, Mrs. Jeanice Brown, Miss Betty Goodin and Mrs. Geneva Page.

Darlene Sears GA's Meet

MOREHOUSE -- The Darlene Sears Intermediate G. A.'s met Monday afternoon at the First Baptist Church with seven members, Counselor Mrs. Glenn Bohannon and one visitor, Karen Dodge, attending.

Vice President Peggy Orr called the meeting to order. Regina Jackson read the Prayer Calendar and Darlene Tarrants led in prayer for Missionaries listed. The program topic was "These Dared To Share." Those who had parts on the program were: Regina Jackson, Darlene Tarrants, Donna Bohannon, Debby Payne, Peggy Orr and Linda Neal. Peggy had closing prayer.

The shale underneath the Cleveland, Ohio, area, has yielded whole sharks four and five feet long preserved for thousands of years. Fossils of other fish, long extinct, also have been found in the Cleveland shale. Some of these fossils have been sent to the British Museum and the Smithsonian Institution.

Debbie Maznaritz Celebrates Birthday Monday

Debbie Maznaritz celebrated her birthday Monday at the Angels Day Care. The children sang "Happy Birthday" to her as she blew out the candles on her birthday cake.

Those helping Debbie celebrate and enjoying cake and ice cream were Karen Cox, Jay Estes, Gary Griffin, Nick Garner, Martha Hampton, Teresa Hampton, Karen Happe, Dale and Kendal Hicks, Ricky Jones, Richard Maznaritz.

Rita Sanders, Cherrie Stratton, Mike Taylor, Vickie Throgmorton, Lisa Watson, Cliff Wheeler, Greg Jewell, Mike Boardman, Trent Joyce, Renee and Teresa Seabaugh.

Steve Burgess and Larry Keller were unable to attend.

Outing By Murray Lane Sunday School

Approximately 100 members and guests attended the picnic and outing of the Murray Lane Baptist Church last Sunday, at the Baptist camp grounds, Benton. The event was sponsored by the Sunday school.

Following a basket lunch, recreation was provided for all age groups. The festivities were concluded with a devotional period, presented by Floyd Underhill, Jr., and Donna Bradshaw. It was the first such event sponsored by the Sunday school and was termed a fine success by the superintendent, Tom Dollar.

Miss Hamby Honoree At Bridal Shower

Miss Sondra Ann Hamby, bride-elect of Charles E. King, was honored with a bridal shower Saturday, May 8, at 7:30 p.m. at the home of Mrs. Edgar M. Byrd.

Hostesses for the occasion were Mrs. Arnold Stone and Mrs. Byrd.

Several games were played with Mrs. Ernest Wood, Mrs. E. J. Box, Mrs. Glenn Taylor, Mrs. Oscar Shaver and Miss Pat Kiser winning prizes.

The living room was decorated with pink and white crepe paper attached to a large wedding band with a bell hanging in the center. Pink roses were also used in decorating.

Refreshments of cake, ice cream, sodas, nuts and mints were served after the honoree opened and displayed her gifts.

Those attending or sending gifts were Mrs. Ruby Myers, Mrs. Clayton Wood, Miss Pat Kiser, Mrs. Bert Shuffitt, Mrs. Margaret Barr, Mrs. Arnold Stone, Mrs. Grace Hamby, Mrs. Myrtle Wood, Mrs. Oscar Shaver, Mrs. Don Leigh.

Mrs. Roy Richards, Mrs. E. J. Box, Mrs. Glenn Taylor, Mrs. John Maloney, Miss Lavonne McConnell, Mrs. Blanch Miller, Mrs. Jim Barnes, Mrs. Elsie Hamby, Mrs. Lillie Taylor.

Mrs. Foster, Mrs. Marville Branson, Mrs. Edgar M. Byrd, Mrs. Thomas King, Mrs. Marvin Branson, Mrs. Rayburn King, Mrs. Jimmy Grimes.

Mrs. Harold Gage, the fitting room at the shoe factory, Mrs. Edna Blackwelder, Mrs. Chester Stafford, Mrs. Gerry Montgomery and Mrs. Bob Lane.

Grover Myers Honored By PTA

Grover Myers was honored by the Richland PTA at the May meeting. He is retiring this year with twenty-eight years of service in the Richland and Stoddard County Schools. Hubert Swinger gave a brief history of Mr. Myers' life and teaching experiences, with the help of Mr. Myers' son Gene Myers.

Ralph Parks, Superintendent of Richland presented Mr. Myers with a plaque. Mrs. Ed Bridges was hostess for the evening. Jan Bridges, Sondra Tucker, and Linda Coffey, sang many selections accompanied by Tera Finklea.

Jack Stapleton was the guest speaker for the program. Devotional was given by Frank Hill.

The president Mrs. Melvin Lane presided over the business session, Routine reports were approved as read. The following PTA officers for the new year were installed by Mrs. Harold Gisi; president, Mrs. Paul Schuerenberg; vice president, Mrs. L. B. Black; secretary, Mrs. Bill Pippins; treasurer, Mrs. Russel Joseph.

The meeting was adjourned, and refreshments were served.

The vice president of the United States receives a salary of $43,000 a year and $10,000 expenses, all taxable.

Unemployment in the Indian tribes of Arizona and New Mexico runs as high as 85 per cent. The average life span for the whole Indian population is 42 years.

Of the 1,500,000 Americans of Mexican descent in Texas, more than half have less than a fourth-grade education.

Within one year after the John F. Kennedy half-dollars were minted, $100 million worth of them went out of circulation. Collectors, speculators, and people who wanted them as mementos gobbled them up.

Crude oil production in the Middle East has increased 127 per cent since 1956. United States production went up only 7 per cent during the same period.

There are 33 oil-producing states in the United States.

Area Hospital Notes

Jack Farmer of Charleston, James Blanchard of Charleston and Mrs. Elsie Ringer of Charleston have been discharged from the Cairo, Ill., hospita.

Thurber Stampley of Charleston has been admitted to the Cairo hospital.

Mrs. Charlotte A. Cooper of Bloomfield has been admitted to the Lucy Lee Hospital in Poplar Bluff.

Mrs. Ada Hall of East Prairie has been admitted to the Doctors Hospital in Poplar Bluff.

Lowell Williams of Dexter has been released from the Doctors Hospital in Poplar Bluff.

Mrs. Miranda Jarrell of Dexter has been released from the Poplar Bluff Hospital.

Mrs. Ellis Colyer of Dexter, Mrs. Shirrel Hayes of East Prairie, and Miss Clara Graviett of Oran have been admitted to the Southeast Missouri Hospital in Cape Girardeau.

Mrs. Gordan Starnes of Sikeston and Mrs. Dora Dunn of Oran have been discharged from the St. Francis Hospital in Cape Girardeau.

Coming Events

SATURDAY

Sikeston Chapter 137, Order of Eastern Star, will be having a rummage sale Saturday, May 29, at the Farmer's Market.

TUESDAY

The T. E. L. Class of the First Baptist Church will meet at 2 p.m. Tuesday, June 1, at the church.

Sikeston Nurses Take Trophy At State Convention

A trophy was awarded the Licensed Practical Nurses School of Sikeston for having the highest percentage of students this year to join the Missouri State Association of Licensed Practical Nurses. The honor was announced at the association's state convention held in Springfield Tuesday through Thursday.

The Sikeston school, which ranked first among the 13 practical nursing schools in the state, had 99 per cent or 19 out of its 20 students, enrolled in the association.

Astros Slip By St. Louis In 12th for 3 to 2 Victory

By THE ASSOCIATED PRESS

The Houston Astros slipped by the St. Louis Cardinals, 3-2 in 12 innings Friday night for their second straight victory over the 1965 world champions.

St. Louis took the lead in the second after Ken Boyer doubled and then was forced home. The second run in the next inning came on Bob Skinner's triple and Dick Groat's single.

Ray Sadecki 1-4, who gave up only five hits, allowed Jim Wynn a double in the fourth inning and then Aspromonte's single that scored Wynn.

Aspromonte then led off the ninth inning with a home run to tie the game. Three innings later, Wynn again singled and was sent home on Walt Bond's double to win the game.

Ron Taylor, who relieved reliever Barney Schultz, was credited with the loss. Jim Owens was the winner.

Kansas City, which had a day off Thursday when rained out at Baltimore, couldn't muster the energy to defeat the Red Sox, which chalked up a 9-3 victory in Boston Friday night.

Felix Mantilla cracked a two-run homer in the third and then singled home another run in the eighth to help the Red Sox along. Eddie Bressoud tallied three more runs with a homer in the seventh. Lenny Green accounted for another run with a third homer.

St. Louis meets the Astros again today in the last of the three - game series, pitting Tracy Stallard 3 - 1 against Houston's Larry Dierker 1-1.

Kansas City will send Roland Sheldon 0-1 against Bill Monbouquette 5-4 at Boston.

Clay And Liston; Actors, May Fight Again This Time On Capitol Hill

By HARRY KELLY

WASHINGTON AP -- Cassius Clay and Sonny Liston may square off again -- on Capitol Hill.

The senior Republican on the potent House Interstate Commerce Committee, Rep. William L. Springer of Illinois, says he can't see how "you can get around calling Liston and Clay" to testify when the committee holds hearings on chairman Oren Harris' bill to create a federal boxing commission.

Harris has promised quick hearings on the bill. It would include authority to forbid accounts of a fight to be carried in interstate commerce -- by wire services, radio or television--if the commission found out evidence of collusion, bribery, racketeering or terrorism.

Harris' bill was thrown into the hopper against a backdrop of widespread congressional criticism of heavyweight champion Clay's one-round knockout of Liston Tuesday night in Lewiston, Maine.

In recent years, there have been many calls on Capitol Hill to do something about boxing, but nothing has been done. This time there appears to be a mood that could force action.

Rep. John V. Tunney, D-Calif., strapping son of former heavyweight champion Gene Tunney, said in a statement that the Clay-Liston fight was "another example of the reason that boxing has fallen into such ill repute in this country."

Tunney and Rep. Henry B. Gonzalez, D-Tex., had earlier introduced bills to ban monopolistic practices in boxing. The bills have been referred to the House Judiciary Committee.

Rep. Robert Michel, R-Ill., introduced a resolution Thursday to give the Judiciary Committee power to investigate boxing. Michel suggested there be no more heavyweight title fights until the probe is completed.

Harris said his bill could serve as a basis for committee hearings to find out if it is the right approach to the problem or if another might be better.

On the Senate side, Democrat Philip A. Hart of Michigan plans to introduce -- possibly next week--the 1965 version of his bill to create the office of federal boxing commissioner and provide machinery to investigate controversial fights.

Sports TALK

By DON SAVAGE

In the past weeks we have been checking into outstanding feats by various athletes in the area. Today we are going to talk about one of the most fabulous basketball teams, to ever play in Southeast Missouri. The Morehouse Tigers of 1954. I expect to be criticized for this article, being a graduate of that same high school, so, I'll try not to play this team up. I'll just give you the facts and let you make your decision, if I could be justified to dig back 11 years and put ths team in the spotlight again.

Morehouse in the early fifties played a run, dribble, shoot type basketball and at that time could only be matched by one team. And that team was Puxico. The Indians led by a talented team of all-stars, had dealt the Tigers three defeats the year before. Puxico had been hit hard by graduation and Morehouse had a real tough team for the '54 season. Most hard court enthusiasts thought that this was the year for the Tigers to take a backseat no longer to the powerful Indians.

The Tigers won their first 19 games of the season. In this 19 game binge the Tigers averaged 81.5 points per game, while holding their opponents to an average of 43.

The Tigers pressing defensive play, with their high scoring fast break, made easy prey of all comers.

Larry Chapman a 5'9" guard, was the top Tiger ball hawk. His counterpart at guard was 6'0" Hershell Love. The big men in the Tiger line up, scoring wise that is, were the two forwards, Doyle Denbow and Dub Gray. Norman Vickers 6'4" was the Tiger center and a high scorer himself. He handled most of the Tiger rebounding, combined with his fine defensive play under the backboards.

The Tigers were winners of the following tournaments that season; Morehouse Invitational Tourney, The Cape Christmas Tourney, New Madrid County Tournament, The Sub-Regional at Lilbourn and the Regional.

In the Sub-regional at Lilbourn; Morehouse 79-Brosley 43; Morehouse 96 -- Matthews 39; Morehouse 71 -- Lilbourn 41; In the Championship contest Malden was pitted against the Tigers, this game could be Morehouse's defeat was the general opnion. Malden was considered, second in the area and owned a 23-2 record, compared to an unblimished 32-0 for the Tigers. The Tigers showed everyone who was the top team in the area by stomping Malden 94 to 46. The fast-breaking Tigers were led by Larry Chapman who dumped in 24 points.

In the first game of the regional contest, the Tigers played Caruthersville dumping them 117 to 54. The Tigers set a new Regional scoring record, with their 117 points. Denbow scored 23, Chapman 17, Gray 17.

They went on to win the Class B regional, and on the strength of their 35-0 record, were favored as the team to win the state title. Platte City was the only other un-defeated team in the state, with a 27-0 record.

They started out state Tournament play with an 88 to 60 win over California. Morehouse scoring was led by Junior forward Doyle Denbow who scored 32 points. Next was Wheaton, whom the Tigers nipped 66 to 59. Wheaton led at the end of three-quarters 47-42, but the Tigers scored 24 points, while limiting Wheaton to 12, in the last frame, to bring home the victory. The next game for the Tigers was another squeeker. This time they edged Troy 69 to 63.

The Tigers now had a 39-0 record and faced Sparta for the state Championship.

The next game was one of the most exciting playoffs, in state Tournament history. At the end of regulation play the score was tied at 54 to 54. They played one over time period, but this solved nothing as the score was again knotted, this time 56 all. A sudden death period was played with Sparta scoring, to win the contest 56 to 58.

The Tigers wound up the season with a 39-1 record.

Forwards Doyle Denbow and Dub Gray made first team all-state. Larry Chapman, scrappy Morehouse guard made second team All-state and big Norman Vickers, received honorable mention for the famed team. Chapman was selected for the North-South All-Star basketball game at Murray, Kentucky.

Memorial Day Racing Slated At Charleston

CHARLESTON — The Junior Chamber of Commerce in Charleston will sponsor a big stock car racing program, with a $1,000 purse, on Memorial Day afternoon, May 30.

Racing at the Jaycee Speedway will start at 2:30, CDT, with time trials an hour earlier.

Over 1,000 persons attended last weekend's racing at the speedway. Charles Amati won the Class A feature race. Jim Hall took the first heat race, Jesse Ladd the second, Hall the third and Ladd the semi-feature.

In Class, B. J. D. Godsey won the feature. Bill Clark took the first heat, E. Hayes the second, Godsey the third and Larry Burham the semi-feature.

Racers competed from Portageville, East Prairie, Charleston, Dexter, Bernie, New Madrid, Paducah, Ky., Kevel, Ky., Ragland, Ky., Murphysboro, Ill., and Metropolis, Illinois.

Sellout Crowd For U.S. Open

ST. LOUIS (AP) — Bellerive Country Club officials, anticipating a sellout, are setting aside 3,000 tickets for gate sale for each day of the United States Open Golf Championship scheduled June 17-20.

Season tickets sales have already set a record with more than 14,500 sold, topping the mark of 11,952 set last year at the Congressional Country Club in Washington, D.C.

Club officials are limiting total daily attendance to 20,000 and have set a ceiling of 17,000 on season tickets to assure that 3,000 tickets remain for gate sale.

All-Star Baseball Tonight At V.F.W.

Afton's Khoury League team, age 15-18, will be here Saturday to take on Potlatch Forest defending state champions of the Connie Mack League.

Afton will be making a six game sweep through Southeast Missouri, stopping tonight with a doubleheader at Cape Girardeau. Then they come on down and take on the mighty Foresters. Sunday they'll continue to do battle with area teams by playing the Poplar Bluff Mules.

Afton, who has one of the finest teams in the St. Louis area, can expect a good scrap by the annually tough Foresters.

The game is co-sponsored by the Connie Mack League and the Sikeston Jaycees.

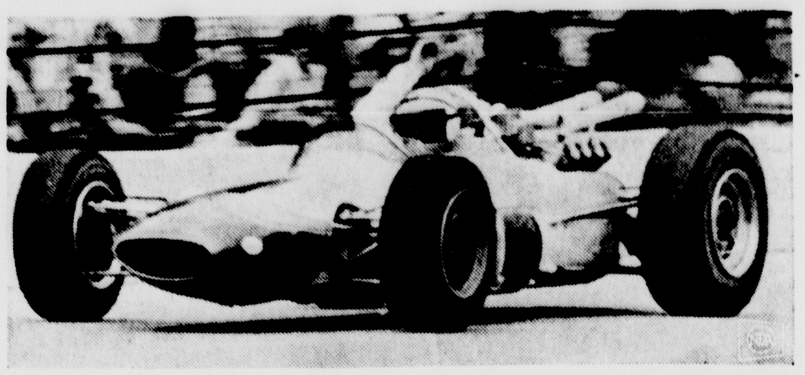
Game time is at 6:00 p.m. at V. F. W. stadium. Any Little Leaguer in uniform, admitted free when accompanied by a parent. Admission 50¢ adults, 25¢ for children under 12.

If you want to see two good games for your money, we suggest you be on hand at game time tonight.

Friday's Stars
By THE ASSOCIATED PRESS

PITCHING — Hank Aguire, Tigers, shut out Cleveland 1-0 on two hits.

BATTING— Brooks Robinson, Orioles, played for the first time since May 9, smacked a two-run double in the fourth inning and scored Baltimore's only other run as the Orioles gained split of a doubleheader with Los Angeles by winning the second game 3-0.



GOING TO THE POLE—A. J. Foyt will be in the pole position for the Indianapolis "500" on Memorial Day after breaking all the qualifying records for the speedway with a 161.233 m.p.h. clocking.

Drivers Have Final Check On Cars Before 500 Classic

INDIANAPOLIS AP -- Three hours of carburetion tests Saturday at the Indianapolis Motor Speedway was the last chance for 33 drivers to handle their cars on the track before the 49th 500-mile race Monday.

In the past, this period has been largely an extra practice, but the tests have a closer meaning this year.

Many crews, particularly those with new Ford engines, have been trying to find a way to send their cars the full 500 miles on the two mandatory pit stops.

Some mechanics have admitted privately that if they use alcohol, three pit stops will be necessary. A possible solution is to use gasoline but that would mean sacrificing horsepower and would also be adding a fire hazard.

Some mechanics apparently hope to use a blend of the two fuels and varying formulas of such was what they tested today.

The carburetion test period meant much to two 500 veterans, Parnelli Jones, Torrance, Calif., and Lloyd Ruby, Wichita Falls, Tex.

Both got in trouble and their cars hit the wall after they had qualified, causing heavy damage to both. Both were expected to be in shape for the last warm-up.

The apparent readiness of the two cars seemingly dissipated the last chance for veteran Rodger Ward to make the race. A starter in 14 straight 500s, former winner Ward was the first alternate on the basis of his 34th fastest qualifying time.

Ward apparently was resigned to not racing, since it was announced Friday he will do the commentary on a closed-circuit television showing of the speed classic.

With the approach of the race, the city's 500 festival, in progress since May 1, neared its climax — the giant pre-race parade.

The procession of 33 elaborate floats, hundreds of bands and marching units and carloads of television, film and sports celebrities and other notables will wind through downtown Indianapolis at twilight Saturday along a route lined with 37,000 reserved seats in bleachers.

The annual governor's ball was held Friday night.

Villanova And Maryland Powers In Eastern Track

NEW BRUNSWICK, N. J. (AP) —"I don't see how we can possibly beat Maryland."

That's what Villanova Coach Jumbo Jim Elliott said early in the week and again Friday after Maryland's Atlantic Coast Conference champions put a damper on Villanova's hopes for a sixth straight IC4A Outdoor Track Championship.

As expected, the meet turned into a rerun of the indoor games in New York last March with Maryland and Villanova spreadeagling the field. The Terrapins of Coach Jim Kehoe qualified 13 individuals and a mile relay team in Friday's trials while Villanova placed nine men and a relay quartet.

All 18 finals were scheduled for today in Rutgers Stadium, with scoring on a 5-4-3-2-1 basis. Villanova edged Maryland indoors 24 to 21½.

Despite Maryland's edge in Friday's trials, the team championship was far from decided. On today's schedule were five events in which no trials were necessary. Of those five, Villanova was loaded in the miles, three-mile and steeplechase and the same goes for Maryland in the pole vault and high jump.

In addition, Villanova had two men in today's 220-yard semifinals to Maryland's one. The 220 semis were the only non-final on today's program.

An IC4A meet record in the javelin by sophomore Russ White paced the Maryland push. White hurled the spear 241 feet, ½-inch, erasing the mark of 235-7 set by another Maryland star, Nick Kovalakides, in 1960.

The only other record Friday, as the athletes paced themselves, came in the discus where defending champion John Bakkensen of Harvard uncorked a toss of 173-8-½. That abolished the mark of 171 feet set by Yale's Vic Frank in 1950.

Otherwise, the Heptagonal champs saw their long-shot chances fade with only five individual qualifiers. Cornell had six but was not considered a serious threat.

RECOMMENDATIONS FOR EARLY USE OF POST-EMERGENCE WEED CHEMICALS IN COTTON AND CORN OUTLINED

BLOOMFIELD — Grass and weeds are getting to be a problem in a number of cotton and corn fields in this area, and several farmers have asked for information concerning chemicals that might be used as a post-emergence treatment to control these weeds. Of course pre-emergence weed control chemicals were not used in some cases, and in others, pre-emergence chemicals had been applied two weeks or more before the rains came so that the chemicals were not activated. In either case, and especially as a result of the recent rains, farmers are faced with the problem of getting these weeds under control.

For cotton, two post-emergence weed-control chemicals would be recommended for use on cotton now or in the near future depending upon the size of the cotton. These include nonfortified herbicidal oils and **DSMA.**

Herbicidal oils are recommended for use on cotton that is two inches or more in height, and several local farmers have applicators for applying these oils. Oils should be used as soon as possible after weeds come up. Both results of research and farm experience indicate that the younger the weeds when oils are applied, the better control you can expect. Oils should be applied at the rate of five to seven gallons per acre. They should not be applied at less than five day intervals, and not more than two applications should be made to the crop. Oils should not be applied after cracks begin to occur in the stem of the cotton plant during true bark formation.

DSMA is recommended for use as a post-emergence treatment after cotton is at least three inches tall. It should be applied as a directed spray at the rate of two to three pounds of actual chemical per acre plus an approved surfactant added at the rate of one-half gallon of surfactant per 100 gallons of total spray. Approved surfactants include Colloidal **X-77, Sterox SK,** and **Surfactant W.K.** Best results will be obtained from treatments made when the air temperature is 80 degrees F. or higher. Present label clearance permits two applications of this chemical and no treatments should be made after the first bloom appears.

For corn, two chemicals are also recommended as a post-emergence application now or in the near future depending upon the size of the corn and weeds. These include Atrazine and Linvron ("Lorox").

Atrazine will kill weeds and grasses up to 1½ to two inches tall and will give pre-emergence control of those weeds that have not yet come up. Two pounds of actual chemical per acre will give good weed control on almost all soils; however, three pounds or more may be necessary on high organic matter, heavy clay soils. Label restrictions limit post-emergence applications to not later than three weeks after planting. Atrazine residue in the soil may injure small grains or forage crops planted in the fall or spring following an Atrazine-treated corn crop. Results of research indicate that it is safe to produce corn, cotton or sorghum on a field the year following an atrazine treatment and that soybeans can usually be safely grown the year following treatment if the rate of atrazine applied does not exceed two pounds per acre.

Linvron can be applied as a directed spray at the rate of two pounds of actual chemical per acre. A wetting agent will improve the performance of this treatment and surfactant may be used for this purpose as described for DSMA above. It should be applied in such a way as to cover the weeds but to get as little spray as possible on the corn. Injury to those corn leaves receiving the spray is normal, but if only a few lower leaves are affected, no appreciable reduction in yield would be expected. Best results are obtained if the corn is 12 to 18 inches high, and weeds should be under eight inches tall. Be careful not to spray over the top of corn plants, and do not use on sandy soil.

Do not handle these chemicals including the disposal of chemical containers near wells, ponds, springs, or drainage ditches, and dispose of chemical containers in such a way that any person including especially children cannot play with or re-use these containers. It is very important that label directions be read and followed carefully.

Cotton Premiums Announced

BENTON — The USDA announced today the premiums and discounts for grade and stample length of upland cotton which will be used by CCC on making loans under the 1965 Cotton Price Support Program.

As under the 1964 program, premiums and discounts are provided for all official grades of upland cotton.

Base loan rate for middling 1-inch upland cotton at average location will be 29 cents per pound, gross weight. On the basis of premiums and discounts for grade and staple length and average production of each quality for the period 1959 through 1963, the minimum loan rate for middling 1-inch cotton was 69 points above the national average support price for all qualities. Therefore, the national average support price will be 28.31 cents per pound.

Schedules showing base loan rates for middling 1-inch cotton at each approved warehouse will be issued later.

Barley Loan Rate Announced

BENTON — Scott County's price support loan rate for the 1965-crop of barley, grading No. 2 or better, is 88 cents per bushel, according to Tom A. Marshall, office manager of the Scott County ASCS.

The rate is the same as in 1964, less a four-cent change in the national average loan rate of total support.

Cotton Market News

Beneficial rains that ranged from one to five inches covered the South Central Area this week, according to the Consumer and Marketing Service, U. S. D. A. This should be worth a million to cotton farmers. The cotton crop varies from just up to the eight-leaf stage in many older fields.

Spot cotton trading increased. Prices strengthened slightly on some markets. Demand was best for Middling and lower grades with 1-1/32 inches and longer staples. Farmers netted from $1.00 to $3.00 per bale for equities. Cotton loan equities and CCC stock cotton continue to dominate the supply side of the market.

Both domestic and foreign mill buying increased. Domestic mill purchases were for prompt and forward shipments extending through the last quarter.

Memphis---where King Cotton still reigns---is the chosen host for the 14th Universal Cotton Standards Conference on June 3 and 4. Mr. S. R. Smith, Administrator, Consumer and Marketing Service, United States Department of Agriculture, will give the opening address of the meeting to be held at the Peabody Hotel and in Cotton Division facilities at 4841 Summer Avenue, Memphis.

Of Interest To Homemakers

CHARLESTON -- We of the Mississippi County University Extension Center feel fortunate to be able to present Mr. Arthur McArthur in a program on "Parents Are People Too." Mr. McArthur recently joined the State Extension Staff of the University of Missouri as specialist in Human Development and Family Relations.

We hope that each of you parents will be able to be present to hear Mr. McArthur on June 1st, 9:30-11:30, at the 4-H Building on Helena Street in Charleston. Invite a friend or two to come with you. Doughnuts and coffee will be served by the Extension clubs.

GROWTH HAS ORDER. Last month in one of the columns, we said that a child wants to grow. Now let us consider that growth has order.

The child's move toward maturity does not take place in a helter-skelter way. Each child moves along the human track of development. There is a fixed order of maturing, just as there is a set path of tracks each train must follow from Washington to New York.

A child cannot skip being Five and doing what five-year-olds do. He cannot skip being Four. He cannot skip being Three. The final stop is adult maturity. But each station along the way plays its essential part in bringing the child closer and closer to the ultimate end.

At each stage in development there are unique opportunities special to that particular time. There are appropriate tasks to be done and appropriate ways to act. The search for a Sense of Trust, Autonomy, Initiative can best be pursued in the early years. Other jobs come along later in their good time.

The satisfactions of early childhood are so basic that the child who rushes through these years, unfulfilled, must always and persistently come back until his early needs have been met. He goes on "acting like a two-year old," until he lives a satisfying two-year-oldness, if it takes to the end of his days.

Extension Center News

CHARLESTON — Several questions have been raised during the last few days about the safe use of certain insecticides and fungicides.

When I hear a statement of this kind I am always reminded that many competent authorities say that it would not be possible to produce an adequate amount of safe, wholesome food without using chemicals. This simply means that the use of certain chemicals are necessary and it also emphasizes the importance of using all chemicals exactly according to the manufacturers recommendations.

The responsibility for assuring the safe use of agriculture chemicals has been assigned to the U.S. Department of Agriculture and the Food and Drug Administration through a series of laws passed since the Food and Drug Act of 1938. These two groups operate in interstate commerce while their counterpart organizations in the various states check intra-state traffic in agricultural chemicals.

Before any chemical can be sold for use on food in any way, it must carry a label registered by the U.S.D.A. In order to secure a registered label the manufacturer must submit scientific data showing what the chemical is, what it will do, what it can be used on and how much can be used. In addition, the label must explain in detail how to use the chemical and what precautions are necessary to insure that no more than the allowable residue is on the product when it is harvested or sold.

In addition, the manufacturer must submit scientific data sufficient to prove to scientists in the Food and Drug Administration that this chemical either leaves no residue, or that the small residue left is harmless to human beings regardless of how much of the food is consumed or length of time its use is continued. On the basis of this date a tolerance is established for each chemical labeled for each product on which it is to be used. Many of these tolerances are set at zero.

After labels are registered and tolerances are announced, the Food and Drug Administration has seizure power on any food product carrying more than the allowable residue. This condition would likely occur only if the chemical has been misused.

Thus chemicals used in the production, processing, storing, and marketing of food products you eat, are judged to be safe by competent scientists in the field of chemistry, medicine, physics, and related fields. You can rest assured that your food supply is not only abundant and of high quality but is safer from a health standpoint than ever before.

REHEARSAL -- Astronauts Ed White, left, and James McDivitt climb out of a space flight simulator at the Cape Kennedy, Fla., Space center after a rehearsal for a planned walk in space during a 62-orbit mission set for June 3.

Keep Wheat Combine In Top Order

LITTLE ROCK, Ark.--Clean, high-quality grain should be the aim of wheat farmers. A combine in top working order can help harvest this kind of grain.

Staff members of the Agricultural Extension Service make these suggestions. First thing is to keep close check on your machine and the job it's doing. Is it cracking grain or leaving weeds and straw in the grain?

You can reduce grain cracking by increasing the cylinder-concave clearance, reducing cylinder speed, or opening the lower sieve slightly. Increasing the wind blast or lowering the tailgate will get rid of shriveled kernels.

Grain moisture can increase when weed stems and straw get into the hopper. To clean the grain, increase the cylinder-concave clearance, reduce the rate of travel, close lower sieve slightly, increase the wind blast and direct it toward the forward end of the sieves.

Weed seeds, too, can lower grain quality. Slow down the cylinder speed, increase the wind blast, close the adjustable sieve slightly, raise the header, or lower the tailgate to separate the weeds from the grain.

Are parts of the grain heads getting into the hopper? Increase the cylinder speed, decrease cylinder-concave clearance or slightly close the adjustable chaffer or sieve.

Make these adjustments slightly and one at a time. Over correction of one problem can create another. You should check your operator's manual on how to make these adjustments on your machine.

64,194 Are Cotton Signers

BENTON--Some 64,194 cotton producers in 19 states have signed up to take 1,013,025 acres out of cotton production this year under the domestic cotton allotment program, according to Roy Proctor, Jr., chairman of the Scott County ASCS, on the basis of the final signup through April 16. The original seven-week signup period which began Feb. 8 was extended twice and ran through April 16.

Farms signed up have effective cotton allotments totaling 3,008,704 acres on which cotton could be planted this year. By signing up under this program, producers agree to keep plantings within the domestic allotment total of 1,995,679 acres.

The number of farms signed increased 657 since the last report on April 21 and the acreage to be kept out of production was up about 6,014 acres. The effective allotments on farms since the last report totaled 14,282 acres and their domestic allotments totaled 8,268 acres.

This report includes figures for cotton signup on the final day of the signup period on April 16. These were not included in the last report issued April 21. In addition, this report includes a final check of all state figures.

To give them a first-hand knowledge of how their pioneer forefathers made a living, Toronto elementary school children are learning the art of churning butter, carding and spinning wool, candle dipping, flailing, winnowing and grinding of corn, and blacksmithing.

This Week IN THE GARDEN

By Art Gaus

Extension Horticulturist
University of Missouri

CULTURE & TRAINING OF TOMATOES

Most gardeners have tomatoes transplanted by now. In fact, the plants should be taking off, so to speak. New growth should be developing, both at the terminal growing point and at each node.

There is a strong temptation among gardeners to speed growth by applying a little fertilizer. With some crops at this growth stage, this may be recommended, but it is not a wise practice with tomatoes.

Actually, fertilizer applied to tomatoes now may do more harm than good. Tomatoes require relatively large amounts of plant food. But, they do not need these large quantities of plant food until a good set of fruit has developed.

Too much nitrogen applied before a good set of fruit has developed is likely to result in excessive vegetative growth. Blossoms drop. As a result, total early yields of tomatoes will be considerably less. And early yields are what most of us want in home garden tomatoes.

So, hold off fertilizing your tomatoes now. Wait until a good set of fruit has developed. In fact, most gardeners could wait until the middle to the latter part of June before applying a side dressing of nitrogen fertilizer.

Another and more immediate practice concerning tomatoes is training. For some, this is a simple process -- just let the tomatoes grow like topsy. This is certainly an easy method of growing tomatoes. Fo tomato varieties that are determinate (self-topping) in nature such as the new Sun-up hybrid, this is perhaps the best way of handling them.

Objections to this type of training include the large amount of fruit rot, and difficulty in harvesting fruit that for all essential purposes, lies on the ground.

Now for those gardeners who are most interested in earliness, improved fruit quality, and a more uniform ripening period, some method or methods of staking, tying and pruning are employed.

While there are many methods of supporting and training tomatoes to keep the fruit off the ground, the use of a single wooden stake and a plan pruned to the single stem system is by far the simplest. For those of you who have never staked, pruned, and tied tomatoes, I would suggest this method, at least to begin with. There are modifications of this method that you can use when you gain experience.

For staking tomatoes, use a about five to six feet long. You can purchase such stakes from lumberyards, or if you are fortunate enough to live in a wooded area, such stakes can be found among the saplings.

Place the stake in the tomato row approximately four inches to the side of the plant. Drive it into the soil until it is secure. On light soils this may be 10 to 12 inches, less on heavy soils.

The tomato plant should be tied to the stake as soon as it is large enough, so the wind does not whip the plant and possibly damage it. Use a soft twine or cord. There are many ways to tie a tomato plant to a stake, but just be sure there is a little play between the tomato stem and the stake to allow for expansion of the stem.

Pruning consists simply of removing all the shoots that grw where a leaf (leaflet branch) arises from the main stem. We call these shoots, suckers. Grasp the sucker by the thumb and fore-finger and pull outward and downward. Suckers should be removed before they exceed four inches in length. Be sure you don't remove the growing tip of the tomato plant.

THE 4-H RECORD

By BILL BOGART

Extension Area Youth Agent

YOUTH AGENT'S JOB

What is the job of the Extension Youth Agent? The rapid changes made in 4-H the past few years and the expanded clientele of the Youth Agent may have caused you to ponder this question.

The Extension Youth Agent is the designated faculty member of the University of Missouri who is responsible for implementing the resources of the University relating to youth development in his assigned county or area. He extends his efforts for youth development in three major areas 1) working with existing youth - serving agencies 2) working with youth not yet involved with any youth group 3) acting as superintendent for the 4-H program in his county or area.

His main responsibility is for teaching leaders to assume their responsibility as volunteer youth leaders. He establishes educational events tablishes educational events and works with committees to carry out and evaluate them. The Extension Youth Agent also works directly with 4-H junior leaders in a program of self - improvement through practicing leadership principles.

4-H TRACTOR DRIVER TRAINING

Would you like your son to learn how to drive a tractor more safely? There is a new 4-H program of farm tractor driver training available for young people in Missouri.

Each year almost 1/5 of the 50 Missouri people killed in farm tractor accidents are young people under 14. These accidents are caused by poor judgment and lack of knowledge of how a tractor operates under various conditions.

Proper training will help to improve the knowledge and the judgment of the tractor operator and thus decrease his chances of having an accident.

Automobile driver training courses for young people have effectively reduced automobile accidents. Those who have taken automobile driver training have only one-half the number of accidents of those not taking the training. It is felt that the program of tractor driver training will similarly reduce farm tractor accidents to young people.

4-H tractor driver training program, which is the first project of the 4-H program is available to young people 12 years old or older.

Young people who have been driving tractors for several years could still learn much from the 4-H tractor driver training.

DECORATIVE SALADS

At this season of the year one of the more favorite menu pleasers is a nice crisp salad.

Salads have a very important place in the meal or the snack. Ingredients used in most salads contribute valuable vitamins and minerals.

The dark green and yellow vegetables contain carotene which the body changes to vitamin A. Many dark green, leafy vegetables are sources of vitamin C, Calcium, Iron, and riboflavin as well.

Therefore, large amounts of it can be stored in the body. Vitamin A also influences the ability of the eye to adjust to li KILL ABOVE SENT. START. WITH VIT. A. also influen. A serving of deep yellor or dark green, leafy vegetables at least every other day is recommended.

Vitamin A is necessary for normal growth and development of children and adolescents. It is needed for healthy skin, including the inner linings of the body. Vitamin A also influences the ability of the eye to adjust to limited amounts of light.

Salads often include citrus fruits and other fruits and vegetables high in vitamin C or ascorbic acid. A single orange or a combination of foods can provide the vitamin C you need daily.

Vitamin C is water soluble and is not stored in the body. Therefore, the recommended daily allowance of vitamin C should be consumed each day. If more than the needed amount is consumed in one day, the excess amount is expelled.

TYPES OF SALADS

Salads play many roles. They fit any course or menu. They should contribute coolness, crispness, color, flavor, and interest to the menu.

Salads are usually classified according to their composition and their place in the menu:

FIRST COURSE SALADS - Served before the meal. They are designed to whet the appetite.

LIGHT DINNER SALADS - Served with the main course. Portions are small.

MAIN DISH SALADS - Serve as the main dish in the meal. Portions are larger, dressings heavier, and a protein food such as meat, fish, or eggs, is included.

DESSERT SALADS - Served as the dessert to complete the meal.

REFRESHMENT SALADS - Served as
Served between meals. Used to refresh rather than satisfy the appetite.

PREPARING THE SALAD

Preparing an attractive tasty salad can be as creative and satisfying as arranging a beautiful floral center piece. Try for pleasing color combinations, a balanced arrangement, and interesting contrast in texture and shape. Blend flavors skillfully to take advantage of appealing combinations and contrasts.

Here are some rules to observe when preparing salads.

KEEP SALADS SIMPLE - Avoid a too arranged appearance.

SERVE SALADS CRISP - Not drowned in salad dressing.

SERVE SALADS COLD - Chill ingredients and serving dishes before serving. Combine flavors that go well together.

The United States is digging about 40 million ounces of silver annually, but it is using 120 million yearly just for coinage.

The nation's vending-machine industry is now a $3.2 billion a year business.

The nation's coin-operated laundry industry, which started in 1948, has blossomed into a $500 million a year business.

Good Planning
—a Proved Management Tool
So is PROPER Use of Credit

Good planning in farming is an *essential* management practice. In light of today's tremendous mechanization it requires a *sound CREDIT blueprint.*

The securing of adequate capital to increase farm efficiency is best obtained by consulting with *farm credit specialists.* Your Production Credit Association is the specialist who can help you — provide experience, counsel and guidance . . . and then set up a FINANCING PLAN and extend to you the TOTAL money needed. Not only capital loans but also operating loans — all at *simple* interest to SAVE you money.

Call on Production Credit soon and see for yourself!

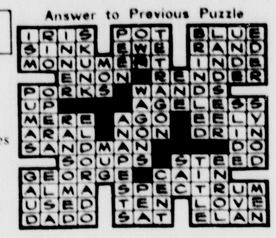
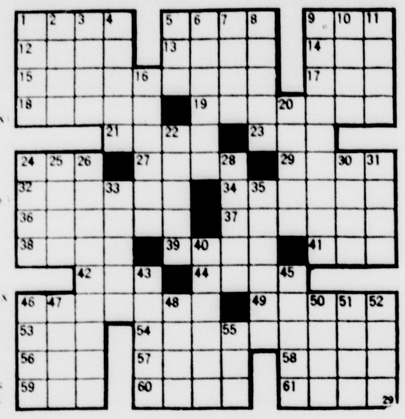
Answer to Previous Puzzle





Looking Back

Over The Years

50 years ago
May 29, 1915

Miss Jewell Tyre has been engaged to teach Hunter School at a salary of $50 per month.

May 29, 1925

Miss Ruth Wilkerson left Saturday morning for Mexico, Mo. She will attend the University at Columbia this summer.

Misses Myra Tanner and Maggie Matthews leave Tuesday to enter college at Cape Girardeau.

Alline Ray, the 12-year-old daughter of Mr. and Mrs. Robert Ray, 311 North Handy Street, was badly burned on the legs up to the knees and on the left arm, when a gasoline explosion occurred at their home Friday afternoon.

J. E. Dover received a telegram from Dean Rose Lisenby of Christian College Monday morning, announcing that Miss Lottie Dover had won the Phi Theta Kappa prize for best all-round junior girl in the school.

30 years ago
May 29, 1935

Landers Ridge--A large number of folks from here attended the Memorial services at Sikeston Sunday afternoon.

Hubert Boyer sold his mattress factory Wednesday to a Cape Girardeau resident. Factory equipment was moved to the Cape this week.

Mr. and Mrs. O. N. Watts moved this week to the Harry Lampert home on Ruth Street. Swan McDonald and family of St. Louis will move today into the Mayfield property on Kathleen street vacated by Mr. and Mrs. Watts. Mr. McDonald will be associated here with the local branch of the Federal Land Bank of St. Louis, in the engineering department.

Eli Williams has purchased the Ed Harrison house on Greer Street, and yesterday had same moved to a lot he owns on East Gladys Street.

20 years ago
May 29, 1945

Canalou--Mr. and Mrs. Holland Evans of Dexter have purchased the cafe formerly owned and operated by Mr. and Mrs. Jim Coppage.

Oran--Mrs. Virginia Kelley of New Orleans, La., is visiting relatives here this week.

Blodgett--Mrs. Robert Davis of Morley is now employed at the Blodgett Mercantile Company's store here.

Commerce--Mrs. James Hood of Chaffee spent Tuesday here with friends and relatives.

PRAYER

For Today From The Upper Room

If I speak in the tongues of men and of angels, but have not love, I am a noisy gong or a clanging cymbal. (I Corinthians 13:1, RSV)

PRAYER: Dear Lord, out of the wealth of love that surrounds us, the abundance of things we call our own, and the money entrusted to us, help us to share with those who are in need. We pray in the name of Jesus. Amen.

11 Senior Citizen Home Applications

NEW MADRID -- President Johnson has designated May as Senior Citizen Month.

The FHA in New Madrid County has obtained 11 new senior citizen applications for the construction of new dwellings.

Since the inception of the program for senior citizens in mic 1962, the New Madrid office has completed eight new houses, which are now occupied by the elderly. Thirteen more are now in construction and seven are pending.

Most of the houses are two bedroom, bathroom, living-room, kitchen, and dining area and are well built to FHA specifications. These homes are located in Marston, Lilbourn, Matthews, Parma, Risco, Tallapossa, and Morehouse.

They may be constructed in any rural town of not more than 2,500 population.

Retired farmers and other rural residents may receive senior citizen housing loans through the FHA. Persons 62 years of age and older have an opportunity to obtain housing suited to their needs in the community in which they have worked. Credit is also provided to individuals, corporations, and cooperatives for construction of rental housing facilities for senior citizens.

Individual rural housing loans may be spread up to 33 years depending on the ability to pay. They bear interest at 4 per cent on the unpaid balance of the loan.

Anyone interested in a senior citizen loan for construction of a new dwelling or the purchase or repair of an older one may contact the New Madrid County office of the FHA which is located north of the courthouse in the Hartwell-Baird building.

Supervisors are in the office on Monday mornings from 8 a.m. to noon.

The Romans, Greeks, Phoenicians and Spanish at one time or another possessed the island of Capri.

ANN LANDERS
Answers Your Problems

Dear Ann Landers: I just read the letter from the girl who has a weight problem. That makes two of us, only she is 19 and I am 14.

You suggested she see a physician or a counselor. My mother says I am too young to see a physician or a counselor. I am not arguing, because I know what my problem is.

I keep seeing pictures of starving kids from foreign countries. They are holding empty bowls and spoons and their eyes are so sad. This fractures me. Some weeks I give my whole allowance to missions but I still feel I'm not doing enough. I've already decided to join the Peace Corps.

I keep thinking of those starving kids and I can't stop eating. What shall I do? --FAT MISSIONARY FROM CANTON

Dear Mish: Try reverse psychology. Find some pictures of fat people. Whenever you feel like gorging yourself, look at a picture.

A fat missionary would have a very tough time in the jungle. For the sake of humanity you must keep your weight down.

If this doesn't work tell your mother that people of ALL ages need to be checked periodically by a doctor.

Dear Ann Landers: My wife is always shoving your column under my nose, especially when you have a letter about a husband who likes to drink beer and sit in front of the TV set. Please print this letter so I can shove it under her nose.

We have three good sons, the oldest 12, the youngest 7. Whenever one of them has a fight with a neighborhood kid my wife jumps right in, phoning mothers and going over in person to "make sure our boy comes out all right."

The kids always make up but my wife is not on speaking terms with half the neighborhood. Please print your advice.--THE OLD MAN

Dear Man: A mother who becomes involved in petty squabbles of her children is more childish than they are.

Ask your wife to please wait until you get home before she "does anything." By then the trouble will have been settled--by the kids.

Dear Ann Landers: Our niece, who is only 27, lost her young husband in a tragic accident six months ago. They had been married less than a year.

Her parents felt that Regina would be better off in another city--away from memories--so they asked if she could live with us until she found a job and an apartment of her own. We were delighted to help.

Regina has been with us four months. She found an excellent position as a bilingual secretary at $125 a week and seems to have recovered from her grief. She has a date almost every night.

The girl says nothing about finding her own apartment. In the meantime I am doing her washing and ironing and preparing her meals. She entertains at our home and hands me the grocery list for her parties. She has never offered to pay for anything--says she wouldn't insult us by suggesting our hospitality is purchasable.

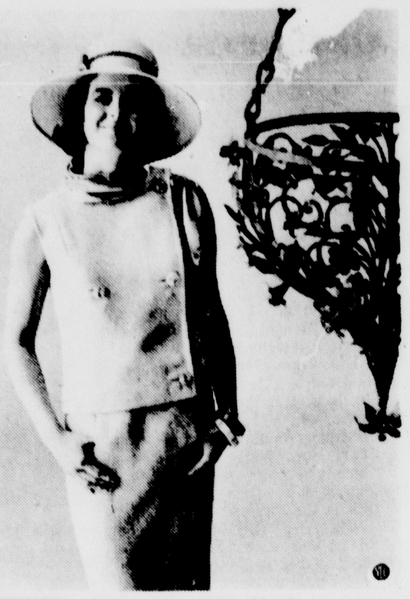
We are pleased that Regina feels at home here but we think she should start to pay for room and board. On the other hand, she has suffered a great tragedy and we feel sorry for her. Advise us please.--JUST FOLKS

Dear Folks: If Regina is dating every night she has recovered. Suggest that she "insult" you with about $30 a week until she finds a place of her own--which will cost her at least twice as much.

Do you lean on cigaretts as a social crutch? You may regret it later. Send for Ann Landers' booklet, "Teen-age Smoking," enclosing with your request 10¢ in coin and a long, self-addressed, stamped envelope.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper enclosing a stamped, self-addressed envelope.

The USS Sam Rayburn, the nation's 28th Polaris-type submarine, was the 50th nuclear underwater craft to become operational.



TRAVEL-MINDED—Judy Hill, 1965 Maid of Cotton, loves the crisp freshness of sand beige textured cotton, especially when it's shaped into a sleek two-piece dress with an understated air. Designed by Bill Blass of Maurice Rentner, the dress features fashion's new side closing and slightly extended shoulders. It's from the Maid's fashionable all-cotton wardrobe by leading American designers.

Control of Weeds to Be Shown

PORTAGEVILLE -- Farmers will have an opportunity to observe the latest developments in weed control research at the Delta Center.

A tour of the weed control research has been scheduled for 1:30 p.m., Friday at the experimental field, five miles east of Portageville.

Weed control studies to be observed on the tour will include:

Johnsongrass control in cropland with special emphasis on control methods in cotton, corn and soybeans.

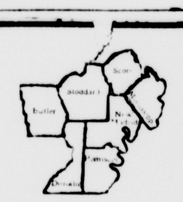
Pre and post emergence weed control in cotton along with different soil incorporation and cultivation methods.

Pre-emergence and soil incorporation of herbicides on soybeans.

Special weed control studies on gumbo soils including numerous seed bed preparation for soybeans.

Bootheel Beat . . .

—By MAX STURM—



SOUTHEAST MISSOURI NEWS SIDELIGHTS, FEATURES AND OBSERVATIONS.

AFTER A HAYTI SENIOR boy painted the sign, "Sr. 64-65", on a side of one of the city's municipal water tanks, Mayor L. R. Bain ordered a police investigation to find out who did it.

bootheel beat inside with one col pic

Juvenile Delinquency in the Missouri Bootheel is a relatively minor problem. By far the large majority of our young people conduct themselves in a commendable fashion, leading law-abiding lives--often more so than a number of adult citizens. In spite of the large number of teenagers in the region, we have little trouble of a serious nature with them.

When a situation does arise in which a teenager or two runs into conflict with the law, how it is handled by the adult officials taking an interest and action in the matter is something that must be given thorough thought and consideration. The teenagers are watching, and how a particular case is handled makes a strong impression on them, and they can use such as a basis for their own future actions. In such a situation, it is quite possible to win a police battle but lose the psychological war with the young people.

An illustration of this is the city tank painting episode in Hayti recently. As a school-closing escapade, a boy member of Hayti High School senior class climbed one of the city's water towers one midnight and spray-painted "Sr. 64-65" on the side of the tank facing the high school, hoping it would remain as an aerial memorial for his graduating class. Another boy waited on the ground. While similar tank sign-painting has been done for years in various communities over the nation, it appeared that this was the first time it had been done in Hayti.

The first impression made on the young people of the town was when Mayor L. R. Bain directed Chief of Police Fritz McKay to conduct a full investigation to find out who had executed this "rank defacement of city property," and haul him or them into police court.

In the investigation the cooperation of High School Principal Melvin Manning was acquired. He began calling members of the senior class into his office one at a time in an effort to get them to give the names of the boys involved. The impression made on the young people in this questioning was adverse in that they considered it an invasion of their civil rights -- especially after they found out that, according to law, the principal had no legal right to interrogate them in the matter since the sign-painting was not performed on school property or during school hours or during any evening activity sponsored by the school.

A member of the high school faculty then interested herself in the matter on the basis that the sign was a bad reflection on the school, so she proposed that one of the boys involved who happened to be in one of her classes be compelled to get up at a school assembly and apologize to the student body for his part in the prank. This created a solid impression on the students and wheels began turning among them to do something about it.

The police, of course, finally found out who the boys were, so they were picked up and escorted to the city hall for a conference with the chief of police and the Mayor. In the questioning, one of the boys said that they were threatened with a lie detector test, so they became frightened about this and admitted their deed. An impression was made on them when they found out later that they may have been tricked since there is still such a thing as the Fifth Amendment.

After their confession they were issued a summons for an appearance in city police court --with their parents. Another impression made on them was the fact that at no time were their parents contacted about the matter until they were issued the police court summons.

While officialdom appeared to building the case up to major proportions, the high school students were taking a different view of it. Many of them had become enchanted with the idea that one of their number had the guts to climb the high water tower at midnight and paint the sign, a highly risky job at best in bright daylight. They also considered the sign as a great boost in school spirit instead of a bad reflection on the school, so they began making plans to protect and defend the two culprits in their involvement with the school administration, faculty, police and the city administration.

First, the afternoon before the assembly at which the apology was to be made, a resolution was quietly circulated at the school condoning the two boys for their school spirit in painting the sign. Next, that night a large sign designating the two boys as school heroes was hung on the school flay pole, and plans were made for the student body to rise in the assembly next morning and give the two boys a standing ovation after the apology was made. The students, however, never had an opportunity to go through with it since Principal Manning found out about it and canceled the assembly.

The official who appeared to have a girm grip on the thing was Police Judge P. O. Davis who lectured the boys on the dangers of climbing city water tanks and setting a pattern for others to follow, defacing city property, then told them to get lost, after citing the following Scripture: ". . . He that is without sin among you, let him first cast a stone. . ." (John 8:1-7.)

So that is the story of the Great Senior Sign - Painting Crime in Hayti. As a parent of the boy who climbed the tank and painted the sign, I don't condone it but I am glad that he had the nerve to do it since that kind of nerve will be needed in the career he plans to follow. (Incidentally, he has made a deal with the mayor to climb the tank again and paint out the sign).

Regardless of who might have done it, my point is that when we adults set out to discipline or punish young people we ought to be sure that we are above reproach ourselves, and proceed in such a manner as to gain their respect, not their anomosity.

Wheat Crop Rate Announced

BENTON — Today, Scott County ASCS office received the 1965-crop wheat loan rate for Scott County. According to Tom A. Marshall, office manager of the ASCS office, the county rate for red winter wheat stored in Scott County is:

No. 1 . . . . . $1.34
No. 2 . . . . . $1.33
No. 3 . . . . . $1.31
No. 4 . . . . . $1.28
No. 5 . . . . . $1.25

There will be a premium of two cents per bushel on Heavy wheat grading No. 2 or better. Light smutty wheat will be discounted at the rate of two cents per bushel; smutty six cents per bushel; light garlicky 5 cents and garlicky 10 cents.

June 3 and 4 Meeting

Memphis---where King Cotton still reigns---is the chosen host for the 14th Universal Cotton Standards Conference on June 3 and 4. Mr. S. R. Smith, Administrator, will give the opening address of the meeting to be held at the Peabody and in Cotton Division facilities at 4841 Summer Avenue, Memphis.

Representatives of the United States Department of Agriculture and cotton associations in Belgium, France, Germany, Inda, Italy, Japan, the Netherlands, Poland, Spain and the United Kingdom will participate as signatories to the agreement. Also, representatives of cotton producers, spinners, shippers, spot and future exchanges and other segments of the cotton industry in the United States will attend and participate in the work of the Conference.

The primary function of the Conference will be to (1) examine and approve key sets and copies of the Universal Cotton Standards prepared by the United States Department of Agriculture for use in this country and abroad during the next three years, and (2) consider the establishment of a new physical standard for Strict Good Ordinary Spotted cotton and a descriptive standard for Strict Good Ordinary Light Spotted Cotton.

Little Hope For Trapped Miners

NEW DELHI, India AP -- A government spokesman said today there is little hope of anyone escaping alive from the shattered bhori coal mine in eastern India where an explosion killed an estimated 250 to 400 men.

Mine officials sealed some air intakes in an effort to stifle the flames that erupted after the blast had ripped through three levels of the mine before dawn Friday.

Flames and gases drove rescue teams back to the surface. With many exits covered by fire fighters, any survivors have little chance of escaping, a government spokesman said.

The official acknowledged he was "taking the low figure" in estimating that 250 men were dead. Labor union leaders put it at 400.

The blast came at shift changing time and officials could not say exactly how many men from the old shift had left the mine or how many of the relief had entered.

Teams wearing gas masks entered the mine about 12 hours after the explosion, the labor Ministry reported.

The rescuers pushed into three levels hit by the blast 150 to 200 feet below the surface but they withdrew when the flames broke out.

"Nobody who was working down there has yet escaped," the government spokesman said.

Unless the flames can be extinguished, he said, it is possible the mine will be sealed tightly.

If a government is correct in its estimate that at least 250 men are dead, the Bhori colliery explosion would be the worst mine disaster in India's history.

Parma Man Appointed To Atomic Energy Commission

JEFFERSON CITY AP--Gov. Warren E. Hearnes today appointed Lelan Culp, Warrensburg Democrat, as a member of the board of regents for Central Missouri State College at Warrensburg.

The governor also reappointed one member of the Atomic Energy Commission and appointed six other members.

Reappointed was Daniel S. Oppelsheimer of Rolla.

Appointed were:

Hugh W. Parks of Parma, Willard Wilkinson of Kansas City, W. Stanley Stuart of LaDue, Harold L. Satz of University City, Edward Monaco of Bel Nor, and Dr. Thomas W. Carroll of Lamar.

Also reappointed today:

James J. Bulter of Clayton as chairman of the Industrial Commission.

Roy E. Baker of North Kansas City as a member of the state Board of Accountancy.

Hearnes appointed William A. Cornwell of Joplin and James E. Moulder of St. Louis County, as members of the Board of Registration for Architects and Professional Engineers.

Two Water Districts In Dexter

DEXTER -- Two rural water districts, which will eventually provide modern running water facilities for two rural areas in this vicinity, were give approval by the voters within the districts this week--the first step towards realizing the convenience of water for the areas.

One of the water districts is immediately southwest of Dexter, along Route "F", or One Mile Road. The area is described as South of Grant Street, along One Mile Road to Route "Z". This water district will serve approximately 160 homes, according to present plans.

Organization of the district was approved by the voters this week by a vote of 96 to 0--thus forming Water District No. 1. Next step will be the formation of a board of trustees, and later, the district will vote on revenue bonds to finance the construction of the water system.

The second area is known as District No. 2 and is in parts of three counties -- Stoddard, Scott and Cape Girardeau. The area is in the Hagy-Randals-Painton area, along Route "p", and will serve approximately 150 homes in that area. This organization was approved by the voters in that district this week by a vote of 150 to 0.

In District No. 1, it is tentatively planned to drill a large well somewhere near the Lovins Orchard, and a storage tank will be located south of Dexter, near the Floyd Gales farm. In District No. 2, the well will likely be located at the community of Perkins, and the tank at the town of Painton, according to present plans.

C. R. Trotter, P. E., local civil engineer, is consulting engineer for both projects and Marvin Jones, local attorney, is the attorney for both.

It will be sometime yet before actual work can be done, since further organizational work and other details must be completed, Trotter explained.

These are the first such rural water districts to be formed in this immediate area, but the plan is being widely used in other areas, thus bringing the convenience of modern water facilities to rural communities.

Women Killed

KENNETT, Mo. AP -- Two women were killed in a one-car accident on Missouri 25 at the southwestern tip of the Bootheel at approximately 1 a.m. today.

Dead are Gracie May Casey, 46, of Fort Smith, Ark., and Beulah May Lowery, 69, of Kennett.

In critical condition is John Tilman Casey, 56, also of Fort Smith.

The highway patrol said the car ran off the road at a curve and 183 feet into a culvert.

The accident occurred near Arbyrd, a small community 20 miles south of Kennett.

Milling Firm Extends Operations To Dexter

DEXTER -- The Scott County Milling Company began construction this week on a building that will house seed cleaning facilities.

The new building will be situated on the southeast corner of the company property on North Mulberry Street.

The Ralph Boyer Construction Company of Sikeston has the contract for the building.

THE CITY OF
SIKESTON, MISSOURI
Resolution

A resolution declaring the necessity for the construction of 1½ inch hotmix asphaltic pavement on 7 inch soil cement base, 24 feet wide on South Ingram Street from Malone Avenue to a point approximately 1350 feet south in the City of Sikeston, Missouri; stating the nature of the improvement; the estimated cost and providing that payment for all of the improvement shall be made by special tax bills levied and assessed against the abutting property. Be it resolved by the Council of the City of Sikeston, State of Missouri, as follows: Section 1: That the Council of the City of Sikeston, Missouri, deems and declares the construction of said Street necessary to the welfare and improvement of the City of Sikeston. Section 2: That the nature and scope of the improvement shall consist of furnishing all cost, including labor, materials and transportation necessary for the complete construction of the improvement. Section 3: That the estimated cost of the improvement is $4.60 per lineal foot of abutting property, to be charged against the lots and tracts of land abutting the improvement. Section 4: That payment for all of the improvement shall be made by special tax bills evidencing special assessments against the abutting property in the manner specified by the statutes of the State of Missouri and the ordinances of the City of Sikeston, Missouri, because in the opinion of the City Council the General Revenue fund of the City of Sikeston is not in a condition to warrant an expenditure therefrom to pay for the improvement. Section 5: That any work performed on construction of the improvement shall be in compliance with the provisions of the prevailing wage laws of the State of Missouri, such prevailing wage rates having been established by the Industrial Commission of Missouri. Section 6: That the City Clerk is hereby authorized and directed to furnish a copy of this Resolution to a daily newspaper of general circulation in the City of Sikeston, so that it shall be published for seven consecutive insertions. Read the first, second and third times and passed and approved this 21st day of May, 1965. Approved: Kendall Sikes, Mayor; Attest: John W. Vaughn, City Clerk.

THE CITY OF
SIKESTON, MISSOURI
Resolution

A resolution declaring the necessity for the construction of hotmix asphaltic pavement on soil cement base with concrete curb and gutter on Kentucky Road from Missouri to Broadway in the City of Sikeston, Missouri; stating the nature of the improvement; the estimated cost and providing that payment for all of the improvement shall be made by special tax bills levied and assessed against the abutting property. Be it resolved by the Council of the City of Sikeston, State of Missouri, as follows: Section 1: That the Council of the City of Sikeston, Missouri, deems and declares the construction of said Street necessary to the welfare and improvement of the City of Sikeston. Section 2: That the nature and scope of the improvement shall consist of furnishing all cost, including labor, materials and transportation necessary for the complete construction of the improvement. Section 3: That the estimated cost of the improvement is $2.75 per lineal foot of abutting property, to be charged against the lots and tracts of land abutting the improvement. Section 4: That payment for all of the improvement shall be made by special tax bills evidencing special assessments against the abutting property in the manner specified by the statutes of the State of Missouri and the ordinances of the City of Sikeston, Missouri, because in the opinion of the City Council the General Revenue fund of the City of Sikeston is not in a condition to warrant an expenditure therefrom to pay for the improvement. Section 5: That any work performed on construction of the improvement shall be in compliance with the provisions of the prevailing wage laws of the State of Missouri, such prevailing wage rates having been established by the Industrial Commission of Missouri. NOTICE TO CONTRACTORS

Notice is hereby given that sealed bids will be received at the office of the City Clerk in Sikeston, Missouri, until 7:30 p.m., June 7, 1965, for the furnishing of all materials, equipment, labor, costs and construction of the following items; in accordance with the plans and specifications on file in the office of the City Administrative Building, viz:

Item 1: Hotmix asphaltic pavement on soil cement base with concrete curb and gutter on North West Street from Compress Road to a point 505 feet north.

Item 2: Hotmix asphaltic pavement on soil cement base with concrete curb and gutter on Selma Street from Kathleen Street to Matthews Street.

Copies of the plans and specifications are available to bidders, and may be obtained from the City Clerk upon payment of two dollars ($2.00) for each set of plans. Successful bidder shall post a performance bond for the full amount of each contract.

All proposals must stipulate that contractors will accept in payment thereof, special tax bills issued against the property abutting the improvement. Sealed bids will be submitted separately on each or any of the items as listed above and separate contracts shall be awarded on each item.

The City reserves the right to reject all or any bids.

John W. Vaughn
City Clerk
205 inc 209

Debtors: Eugene R. Yoakley, Lita Yoakley.

NOTICE OF SALE

Notice is hereby given that on June 1, 1965, at 10 o'clock A.M., at 21-Club, Sikeston, Missouri collateral consisting of 1965 Kit 35 x 10, Serial No. 2036 K covered by a security agreement will be sold by the holder of said security agreement at public sale as is and WITHOUT WARRANTIES, EITHER EXPRESS OR IMPLIED, AS TO MERCHANTABILITY OR OTHERWISE. The holder of said security agreement may bid. Debtors will be held liable for any deficiency resulting from this sale.

Today In U. S. History

By THE ASSOCIATED PRESS

Today is Saturday, May 29, the 149th day of 1965. There are 216 days left in the year.

Today's highlight in history:

On this date in 1765, Patrick Henry introduced a resolution in the Virginia House of Burgesses calling on the assembly to take over full control of the right to tax Virginians. The resolution was a forerunner of the War for Independence.

On this date

In 1848, Wisconsin was admitted to the Union as the 30th state.

In 1910, Glenn Curtis flew from Albany to New York City, 137 miles in 2 1/2 hours, breaking the long-distance air speed record.

In 1918, President Woodrow Wilson created the U. S. War Industries Board.

In 1946, President Harry S. Truman and his daughter, Margaret, were awarded degrees by George Washington University; it was graduation day for Margaret--her father was given an honorary degree.

Ten years ago--The American Red Cross allotted $1 million for relief in Midwest and South areas hit by tornadoes.

Five years ago -- Former President Syngman Rhee of South Korea left with his wife for what was called an indefinite rest in Honolulu.

One year ago--President John F. Kennedy's widow and two children visited his grave on what would have been his 47th birthday.

Seek Funds To Battle Bird Fever

DEXTER — A report with recommendations pertaining to the control of histoplasmosis in Stoddard County was received last week by city officials from Dr. Fred Tosh, public health station, Kansas City, Kas.

According to the report, funds for the project are to be requested through the anti-poverty program of the federal government.

The objective of the histoplasmosis control program was listed by Dr. Tosh: (1) provide employment for disadvantaged persons in the city; (2) relieve an immediate health problem; (3) stimulate interest in health programs (4) demonstrate that histoplasmosis can be controlled.

The estimated cost for the control in the county was placed at $49,715.

The breakdown of the expected expense is as follows: formaldehyde — 58,000 gallons — $21,460; one truck — $5,000; gasoline — 1,500 gallons — $375; metered pump —$300; bulldozer and operator services for four weeks, $1,280; supplies for skin testing $1,000; laboratory costs, culture of 3,000 soils, $6,000; personnel, truck driver $4,000; assistant $3,500; clerks for skin testing program, four, $800; coordinator for skin testing program, $4,000; travel for personnel $2,000. It is possible that an additional $2,000 will be included in the budget for travel expense and pay for the clerks of the testing program.

It was recommended in the report that a county-wide skin testing program be instigated; that two persons be employed to carry out the decontamination of chicken houses and starling roosts in the county using formaldehyde solution. After the roosting area has been decontaminated, the trees in the roost can be cut down and the area bulldozed to prevent the possibility of recontamination.

The ancient, 180-foot Wasa, once the mightiest ship in Sweden's navy, sailed only a mile in Stockholm harbor on her maiden voyage in 1628, capsized and remained submerged until she was raised in 1961.

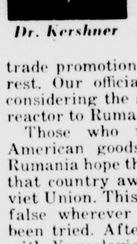
Another Boost for Communism

THE United States and Communist Rumania have agreed to expand relations and to exchange ambassadors. Individual export licenses will not be required for most commodities going from our country to Communist Rumania. Bucharest already has a trade office in New York, and the United States is considering the establishment of a trade promotion office in Bucharest. Our officials are seriously considering the sale of a nuclear reactor to Rumania.



Dr. Kershner

Those who favor exporting American goods to Communist Rumania hope that this will wean that country away from the Soviet Union. This hope has proven false wherever that policy has been tried. After years of trade with Yugoslavia, plus billions of dollars of aid, that country is more pro-Soviet and anti-American than ever.

After receiving hundreds of millions in American aid, President Sukarno of Indonesia publicly derides America for its help and praises the Soviet bloc countries for assistance received from them.

While receiving trade delegations from U.S.A., Communist Rumania is at the same time negotiating with Communist China.

Rumania was invaded by the Red Russian Army in August, 1944 and has since been forced to submit to Red rule. Landowners were dispossessed and most banks, industries, and transportation nationalized. The Rumanian constitution is patterned on the Soviet model.

Trade with Communist countries strengthens them. Our aid has kept communism afloat all these years. A no-trade, no-aid policy toward all Communist nations without exception would have long since made clear that communism is not successful and cannot even feed its own people. This would have led to the overthrow of the Communist tyrants and the establishment of free countries and open markets. How long will the people of the United States permit its government to continue the support of those who have sworn to destroy us?

Timely Tips

By JEWEL GRADY, HOME ECONOMIST

NEW PICKLE RELISH BULLETIN

It's not too early to start planning ways to use the garden vegetables you have planted. Plans might include ways to use cucumbers, green peppers, corn -- and even green beans.

For recipes to turn these vegetables into pickled products that truly add zest to a meal, you'll want a copy of the new USDA bulletin, "Making Pickles and Relishes at Home."

This bulletin gives specific directions for selecting and preparing pickling ingredients and for processing pickles and relishes. Included are basic recipes for the old-time favorites, such as brined dill pickles, pickled peaches, piccalilli, and sauerkraut; and for the newer fresh-pack or quick-process dills, sweet gherkins, crosscut pickle slices, and dilled green beans. Spices in these basic recipes can be increased or decreased, of course, to please your family's tastes.

Single copies of "Making Pickles and Relishes at Home," (HG-92) are available free from the University Extension Center, Bloomfield, Missouri 63825, Phone LO 8-3344. Also the Mo. publication circular 688, "Pickles and Relishes." This bulletin contains ways to pickle fruits such as peaches, pears and etc.

New Madrid Honor Roll Announced

NEW MADRID: -- Honor roll students at New Madrid schools and those with perfect attendance records for the final period were announced this week, following the closing of the 1964-65 school year last week.

High School Principal Glenn Dyke also listed those students who had received awards at Commencement Exercises last Thursday evening and awards given at an assembly program held Friday at the high school, after report cards had been issued to the students.

Awards presented at the Commencement Exercise not previously listed were Bookkeeping I -- Eva Horton and Janis Pearson; Bookkeeping II --Mary Porter; Shorthand -- Faye Henry; Secretarial Practice -- Jeanette Cravens; Latin II -- William Baird and Charlene Ragan; Science -- Jackie Long; Industrial Arts, drafting -- C. B. Alsobrook; Journalism -- Elizabeth Boulton; Athletic -- Martha Barbre and Larry Glenn; and Brenda Quinn received both the Math and English IV award.

In the assembly Friday the following awards were made:

Typing -- Vicki Blom; Biology -- Amelia Shibley; English II -- Peggy Sides; Typing (50 words per minute pins) -- Vicki Blom, Sue Brotherton, Jeanette Cravens, Mary Dawson, Sally Ellison, Mary Beth Meier, Karen Scobey, Peggy Sides and Patricia Taylor; (60 words per minute pin) Jeanette Cravens.

Shorthand (100 words per minute pin) -- Lura Lee Blankenship, Delores Box, Jeanette Cravens, Mary Dawson, Faye Henry, Mary Porter and Patricia Taylor; (110 words per minute pin) --Lura Lee Blankenship, Delores Box, Jeanette Cravens, Faye Henry and Patricia Taylor.

The Junior Chamber of Commerce Award of a $100.00 scholarship was awarded to Elizabeth Boulton.

Janis Pearson received the Regents Scholarship from Southeast Missouri State College.

Athletic letters were presented to boys lettering in baseball and basketball by Mr. Compton. Mrs. Vaughn presented letters to girls lettering in volleyball.

Principal Dyke listed the following as being on the Honor Roll at the high school for the final nine-week period:

Seniors -- William Baird, Elizabeth Boulton, Delores Box, Ann Copeland, Jeanette Cravens, Faye Henry, Peggy Henry, Eva Horton, Jane Johnson, Donna Krebs, Linda Leonberger, Jackie Long, Janis Pearson, Mary Porter, Brenda Quinn, Charlene Ragan, Martha Riley and Pat Taylor.

Juniors - Kathy Boyer, Linda Dees, Sherry Edwards, Sue Fowler, Patty Holland, Barbara Lindsey, Tommy Maddox, Martha Moore, Janie Parker, Mike Shibley and Theresa Cravens.

Sophomores -- Vicki Blom, Sue Brotherton, John Davis, Peter Dawson, Sally Ellison, Paula Halford, Becky Koon, Mary Beth Meier, Sue Recker, Steve Riley, Karen Scobey, Amelia Shibley, Peggy Sides and Jeanne Winchester.

Freshmen -- Mara Jack Allen, Dickie Bartlett, Mike Dawson, Debbie McRaven and Susan Riley.

The principal listed those with perfect attendance records as follows:

Seniors -- William Biard, Ralph Barnwell, Lura Lee Blankenship, George Bock, Elizabeth Boulton, Bill Boyd, Tommy Bradley, Calvin Broughton, Gary Clark, Bill Dawson, Gladis Gates, Bobby Hedgepeth, Faye Henry, Jane Johnson, Roger Kirk, Tommy Lawfield, Linda Leonberger, Janis Pearson, Margaret Phillips, Brenda Quinn, Martha Riley, Patricia Taylor, Lee Anna Truett, Virginia Wathen and Jimmy Watson.

Juniors -- Wiley Allred, Teresa Clark, Wayne Davis, Marilyn Eddy, Gerald Harris, Jackie Holdiness, Maxine Hutton, Tommy Maddox, Doris Meunier, Martha Moore and Rodger Patterson.

Sophomores -- Mike Andrews, Barbara Bowman, Hazel Boulton, Holly Dorris, Sally Ellison, Tony Fowler, Garry Hendrix, Tommy Hutton, Becky Koon, Sue Lindsey, Jim Mann, Larry Odom, Louie Organ, Beth Riley, Amelia Shibley, Peggy Sides and Myra Woolf.

Freshmen -- Larry Adams, Dickie Bartlett, Bruce Basham, Jimmy Bradley, Mark Broughton, Jerry Cagle, Karen Dees, Mary Ann Eddy, Mary Catherine Hunter, Debbie McRaven, John Odom, William Wilkins and Rosa Willis.

Principal Tommu Krebs of New Madrid Junior High School has listed students on the Honor Roll for the final quarter and has named those with perfect attendance for the period.

Eighth - Betty Lou Gardner, Charlotte Lowe and Janet Thompson.

Seventh - Joe Davis.

Sixth - Ronnie Andrews, Donna Cokenour and Melinda Schuette.

Fifth - Linda Commer, Pam Dyke, Janelle Horton and Randall Robbins.

Fourth -- Fred Copeland, Susan Newton, Terry Hadder, Jon Duin, MelindaKolwyck, Charles Blue, Donnie DeMoss and Tony Jones.

Those listed by the principal with perfect attendance were:

Eighth -- David Howard, Donald Hutton, Larry Maxwell, Mary Pat Martin, Paula Pikey, Linda Stewart, Steve Williams, Madeline Cowan, Betty Lou Gardner, James Jamerson, Randal Krebs.

Crackdown

Cont. from page 1

David R. Gilliland, 1514 E. Kathleen, charged with running a stop sign, had his case continued to June 3.

Raymond Reed, 245 W. Kathleen, charged with disturbing the peace, entered a plea of guilty and was fined $19 and costs, $25. On a second charge for disturbing the peace he pleaded guilty and again was fined $19 and costs, $25.

Carolyn G. Bell, 851 Agnes, charged with careless and imprudent driving, pleaded guilty, but the case was dismissed.

Ival J. Hannah, Republic, Mo., charged with careless and imprident driving, entered a written plea of guilty, and was fined $9 and costs, $15.

John McCanally, 411 Lee street, charged with careless and imprudent driving, pleaded guilty and was fined $9 and costs, $15.

Annie Watson, 302 Luther, charged with running a stop sign, pleaded guilty and was fined $6 and costs, $12.

Ronald L. Collier, 301 Selma, charged with running stop sign, pleaded guilty and was fined $6 and costs, $12.

Douglas Sitzes, 928 Linn, charged with excessive speed, entered a written plea of guilty and was fined $19 and costs, $25.

Kenneth Owens, 812 Courtney Drive, charged with excessive speed, entered a written plea of guilty and was fined $14 and costs, $20.

Calvin Lebrond, Oran, charged with excessive speed, entered a written plea of guilty and was fined $18 and costs, $24.

Glen Grahan Matthews, Mo., charged with excessive speed, pleaded guilty and was fined $13 and costs, $19.

Charles Luber, 103 Salcedo road, charged with excessive speed, pleaded not guilty, and hearing set for June 23.

Ronald Slayton, 1514 E. Gladys, charged with excessive speed, pleaded guilty and was fined $14 and costs, $20.

Leonard R. Lett, Bertrand, charged with excessive speed, entered a written plea of guilty and was fined $13 and costs, $19.

Robert H. Wallace, 134 Fourth st., charged with disturbing the peace, entered a written plea of guilty and was fined $6 and costs, $12. On a charge of displaying a dangerous weapon, he entered a written plea of guilty and was fined $19 and costs, $25.

Ruth I. Buchanan, 518 S. Kingshighway, charged with drunkenness, entered a written plea of guilty and was fined $6 and costs, $12.

Howard Melton, 1401 Henry street, charged with allowing dog to run loose, pleaded guilty and was fined $1 and costs, $7.

Charles Deal, 327 Selma, charged with allowing dog to run loose, pleaded guilty and was fined $1 and costs, $7.

Leo McCormick, 421 Pam street, charged with excessive speed, pleaded guilty and was fined $15 and costs, $21.

Donald H. Harper, 434 Pam street, charged with excessive speed, pleaded guilty and was fined $22 and costs, $28.

Solomon Stewart, 209 Alabama, charged with discharging firearms in city limits, pleaded guilty and was fined $19 and costs $25.

Baber Feed-Seeds Have Celebration

The Baber Feed and Seed Company will have a three-day special recognition event June 3, 4 and 5, in the form of customer appreciation days.

Buford Baber, owner and operator of the well known local feed and seed company, stated the three days will be devoted to the people attending the celebration in appreciation of their patronage, and will be open to the public all during the opening hours during the day.

Refreshments and door prizes, as well as favors, will be available to all who register and help them celebrate the all Purina event, with a representative present for a portion of the celebration.

All feed and seed customers and their entire families are cordially invited, with a special grand prize offering to be held at 11 a.m., June 5.

The latest in seed mixing and seed cleaning will be shown, with the store's entire staff on hand to greet all visitors.

Astronaut

Cont. from page 1

will hold a tight formation with the spent rocket, trailing it by about 300 feet.

During first orbit, the astronauts will depressurize the cabin while pressurizing their space suits. McDivitt will maneuver the 7,600-pound spacecraft to within 25 feet of the burned-out rocket.

White will open his cabin hatch and stand. Then as the spacecraft, now in its second orbit, begins its second pass over the United States, he will float free at the end of a golden umbilical cord.

Using a Buck Rogers-like spacegun that fires jets of oxygen, White will move to within 20 feet of the slowly tumbling rocket, but no closer. "It wouldn't be too wise to approach too close to a tumbling booster," said an official. White will return to the spacecraft, and the cabin will be repressurized.

About three hours later, at the beginning of the fifth orbit, McDivitt will maneuver from about 16 miles away to within 10 feet of the booster.

Hold Onto Your Wig

ATLANTA, Ga. (AP) — Wig snatchers are becoming a hairy problem for Atlanta police.

Sgt. W. A. Jones said Friday that thieves are yanking wigs off both men and women.

One man was arrested on larceny charges after police said he grabbed a $189 wig from the head of a young woman as she walked along a street. Another woman told police she dozed momentarily on the porch of her home and when she awoke, her wig was gone.

House Panel Hears 3 Men On Skip-Row

WASHINGTON -- Three district men testified Thursday before the House Agriculture Committee on skipped-row planting of cotton, a question that has become part of the overall issues of proposed new cotton legislation.

Appearing were Rep. Paul C. Jones, Kennett, congressman from the 10th district; Hilton Bracey, Portageville, executive vice president of the Missouri Cotton Producers Assn., and George Shelby, a Charleston cotton grower.

The committee is considering a new cotton bill that would be effective for next year.

Skipped-row planting is the practice by which the farmer plants a row or two of cotton and then skips a row or two, allowing him to spread his cotton acreage allotment over twice as much territory and to increase his total yield.

"I can spread my 40-acre allotment over 80 acres and raise more cotton that way." — Mr. Shelby said.

Rep. Jones said a grower using skipped rows should be charged a larger acreage against his allotment.

Mr. Bracey agreed, saying that skipped-row planting cannot be justified without proper adjustments against allotments for production increases because of such planting.

The Department of Agriculture has suggested that growers using the skipped-row method be charged an additional 50 per cent or more against their allotments.

For instance, a farmer who uses a 10-acre allotment to plant 20 acres of skip row cotton might be charged for 15 acres or more against his allotment.

Rep. Jones, in his newsletter this week, stated he would be opposed to the cotton bill on the basis of a proposal to reduce the national cotton allotment from 16 million acres to 14 million acres unless that provision is changed.

Missouri cotton farmers, he said, would not be in favor of the bill either, but cotton producers who have been able to maintain their allotments through acreage release and reapportionment and who supplement their production through skipped-row patterns would accept it.

Rep. Jones pointed out that the Department of Agriculture could by regulation restrict or prohibit reapportionment of released acres of revised skipped-row rules and still accomplish the reduction in total production it desires.

"In fact, the department has already announced some revisions in both those practices, beginning in 1966, thereby recognizing the inequities that have been in effect for years. It remains to be seen how effectively they will be able to resist pressure to retreat from their position," he commented.

Mrs. Susie Harr Dies In Nursing Home Thursday

EAST PRAIRIE -- Mrs. Susie Harr, a resident of Fresno, Calif., and a former resident of East Prairie, died Thursday at a nursing home in Fresno.

The body is being returned to the Shelby Funeral Home in East Prairie. Funeral arrangements are incomplete and will be announced later.

Joseph Lankheit Services Monday

CHARLESTON -- Joseph Jacob Lankheit, Sr., 59, a lifelong resident of Charleston and retired farmer, died of a heart attack Friday at 11 a.m. in the Missouri Delta Community Hospital. He was born Oct. 5, 1905, son of Mary Stricker Lankheit, and the late John Stricker.

Surviving are his wife, his mother, and one son, Joseph Lankheit Jr., at home; five daughters, Mrs. David Renaud, Charleston; Mrs. Larry Dotson; Sikeston; Rosemary, Abigail, Emma Jane, all at home; three brothers, Henry of Omaha, Nebr., R. J. and George Lankheit, both of Charleston; three sisters, Mrs. Bill Carman, Charleston; Mrs. Carl Reeves, Los Angeles, Calif., and Mrs. Frank Schweizler, Chicago, Ill.

Services will be held Monday at 10 a.m. with high mass at St. Henry's Catholic Church, with Msgr. Charles P. Schmitt and Fr. Bosco Westrich, officiating. Burial will be in Calvary Cemetery, with Nunnelee Funeral Home in charge of all arrangements.
